

**MAINE
STATE PIER**
PORTLAND, MAINE

FEMA – EMERGENCY REMOVAL PLAN

In Case of Flood Emergency

In the event of a flood, I am the competent person responsible for removing our containers from the Maine State Pier.

If a flood is forecasted, 48 hours in advance, I would contact Maine Trailer in Hampden, Maine, and send our driver to relocate our containers to high ground. Electrical disconnect would be done by Dustin at BANA Corp. Plumbing disconnect would be done under Pine State Services.

In the event of an immediate flood, or if the roads from Hampden to Portland were impassible, Fore River Dock and Dredge would dock alongside the pier and remove our containers to barges, and transport them by water to higher ground.

If there are any concerns or questions, please reach out to me directly. My contact information is:

Jon Dow – Cell: (207) 735-7276. Email: Jon@waterfrontconcerts.com

Signed,

Jon Dow
