

SECTION 02370 – EROSION AND SEDIMENTATION CONTROL

All work and materials shall conform to the Drawings, the MDOT Erosion Control Best Management Practices and the provisions of MDOT SECTION 620 – GEOTEXTILES and SECTION 656 – TEMPORARY SOIL EROSION AND WATER POLLUTION CONTROL with the following modifications and additions:

MODIFICATIONS:

Section 620.01 Description: Add the following: Location and usage of geotextiles as required for erosion control and slope stabilization or as directed by RESIDENT.

Section 656.4.5 Additional Measures/Amendment of SEWPCP: Add the following:

- A. Deficiencies in erosion control measures indicated by failures or erosion shall be immediately corrected by CONTRACTOR providing additional measures or different techniques to correct the situation and prevent subsequent erosion.

Section 656.5.2 If No Pay Item: Add the following: The costs associated with preparing, submitting and implementing a Temporary Soil Erosion and Water Pollution Control Plan, including all associated materials, shall be incidental to the Contract.

*** END OF SECTION ***
