RE: Waste Management of Maine; Construction & Demolition Debris Transfer Station
2000 Forest Avenue; CBL: 324-B-12

Dear Mr. Collins:

This letter is to confirm the revision to the approved plan of the project located at 2000 Forest Avenue. The approved revision includes the installation of a small concrete sorting pad in 2002 in order to segregate construction and demolition debris (CDD) into recyclables and non-recyclables. Waste Management of Maine proposes to open the transfer station (facility) to certain local contractors for off-loading of construction and demolition debris (CDD). The revised plan has been reviewed and approved by the project review staff including representatives of the Planning, Public Works, Building Inspections, Fire and Parks Departments.

If you have any questions regarding the revision please contact Sarah Hopkins at 874-8720.

RECEIVED

Sincerely,

Alexander Jaegerman
Planning Division Director
