Mike,

The existing service panel at 90 Arcadia Street is at the top of the cellar stairs. There is a landing in front of the panel and there does not appear to be any "stuff" stored there. Does this sound OK to you? (The elderly woman who owns it hasn't much money and I hesitate to relocate the service panel unless required to do so.)

If you have concerns, or want to survey it yourself, please call me at 781-2495 and I will arrange access.

Sincerely,

Roger Burleigh
President
