SUN Painted Frame and wall finishes especially formulated for use in all climate conditions. 2-COAT 2-BAKE POLYESTER ON COPPER-BEARING HOT-DIPPED GALVANIZED STEEL. The galvanized steel chemically pre-treated to increase paint-resistance and corrosion resistance; steel is prime-coated with a paint and baked. Finish coat of polyester resin paint is baked. This process results in a high gloss hard enamel high resistance to fading, chipping and cracking. The durable SUN'S painted steel frames and walls is backed by the same finished steel as roofing and siding for build-

## FEATURES

Lithograph over baked polyester enamel. G-90 Hot-Dipped. Deep grooved corrugation for maximum strength.

Baked polyester enamel Top Seats and Uprights. VINYL BOND

Sealed fittings on all joint assemblies secured by machined ease of assembly and maximum sturdiness. Inter locking top rims give added support and a unitized assembly.

Colors and specifications are approximate and are expressed in the last foot. ASAHI CHEMICAL reserves the right to make changes without notice, in color, specifications, prices and also to models.
