

Zoning Comments

- 1 Please state the nature of the proposed uses, so that the zoning administrator can determine compliance with the IL industrial zone.
- 2 How many lots have been created by this division? Is the land to the north of this site part of the original lot? If so, when were the land divisions made? We are trying to determine whether this proposal is part of a subdivision.

Site Planning

1. Please submit lighting details for the proposed wallpacs. Generally, wallpac lights do not meet the City's lighting standard, due to the exposure of the fixture.
2. Our reviewing engineer is currently reviewing the plans. I will forward his comments as soon as they are available.

Please do not hesitate to call if you have any questions.

Sincerely,

Sarah Hopkins
Development Review Services Manager
