110-132 ANDERSON STREET

CITY OF PORTLAND, MAINE
MEMORANDUM

TO: Sam Hoffses, Chief of Inspection Services
FROM: Arthur Addato, Code Enforcement Officer
SUBJECT: Scrap Yard Inspection

DATE: 4/3/84

Inspected scrap yards at 110 Anderson Street - Harcon Steel - M. Silver & Sons, Inc., 135-145 Lancaster Street - E. Perry Co., 115-125 Lancaster Street and Finkelman Co., Somerset Street.

It is noted that height requirements are maintained and premises about. Outside perimeters are also maintained. Some sidewalk activity at E. Perry and Co., such as barrels, etc. These will be stored inside.

As a general observation, it is noted that owners of scrap yards are being more conscientious about maintaining proper relations with City by respecting ordinance requirements. Routine observation of these premises is done on a weekly basis, whereas, to keep up on any problems that may arise.

RECEIVED

JUN 27 1990

DEPT. OF BUILDING INSPECTIONS
 CITY OF PORTLAND

REGISTRATION OF UNDERGROUND STORAGE TANKS GENERAL INFORMATION

The purpose of this registration program is to locate and evaluate underground tanks that store or have stored petroleum products, chemicals and hazardous substances. Notification is required for all underground tanks that have stored these regulated substances and that are in the ground as of February 1, 1986. The information you provide may be based on reasonably available records, or, in the absence of such records, your knowledge, belief, or recollection.

Who Must Notify?

State Law (P.L. 1985, Chapter 496, 38 M.R.S.A. Section 563) requires all owners of existing, new, and replacement underground oil storage facilities and tanks to register their tanks. A facility or tank is existing if it is fully installed as of March 1, 1985, and its location has not changed. Registration for existing facilities and tanks must be completed by February 1, 1986. Registration of new and replacement underground oil storage facilities and tanks must be completed five (5) business days prior to installation.

Federal law (Section 9002 of the Resource Conservation and Recovery Act [RCRA]), as amended, requires that, unless exempted, owners of underground tanks that store regulated substances must notify the Maine Department of Environmental Protection of the existence of their tanks. This includes owners of underground tanks used to store regulated substances on or after November 8, 1984. It also includes former owners who discontinued the service of such tanks after January 1, 1974. If you have an interest in an underground storage tank, but you are uncertain whether you are the owner, you are encouraged to notify.

If you have a new or replacement underground tank which you have previously registered with the Department, you need not re-register it or pay the initial registration fees again. However, any other tanks you own at the facility must be registered. If you have a facility number from a previous registration, please use it on any registrations of additional tanks at the site.

What Tanks Are Covered?

Tanks are included in registration requirements if they meet either the State or the Federal definition of "tank."

State law defines a tank as any container, 10% or more of which is beneath the surface of the ground and which is used, or intended to be used, for the storage or supply of oil, but does not include any tanks situated in an underground area if these tanks or containers are situated upon or above the surface of a floor and in such a manner that they may be readily inspected. For the purposes of State law, oil means petroleum products and their by-products of any kind and in any form including, but not limited to, petroleum, fuel oil, motor oil, sludge, oil refuse, oil mixed with other waste, crude oils and all other liquid hydrocarbons regardless of specific gravity.

Federal law defines tanks which store hazardous substances and chemicals in addition to tanks which store petroleum products. Excluded from registration by both the state law and the Federal law are the following categories of tanks:

1. septic tanks;
2. pipeline facilities (including gathering lines) regulated under the Federal Natural Gas Pipeline Safety Act of 1968, or the Federal Hazardous Liquid Pipeline Safety Act of 1979, or which is an intrastate pipeline facility regulated under State laws;
3. surface impoundments, pits, ponds, or lagoons;
4. storm water or waste water collection systems;

- E. Zip Code: 04101 F. Telephone: (207) 772-2760
- G. Directions to Site: _____
- H. Is at least one existing or planned tank (including piping and pumps) within 1000 ft. of a public water supply? Yes No
- I. Is at least one existing or planned tank (including piping and pumps) within 300 ft. of a private water supply? Yes No
- J. (Complete if the answer to (I) above is YES.) Is at least one water supply located within 300 feet of the tank(s) is owned by someone other than the facility owner or operator? Yes No
- K. Is the facility located on a significant sand and gravel aquifer or recharge area as mapped by the Maine Geological Survey? Yes No

(If you wish assistance in answering item (K), please call the Department at (207) 289-2651. Sand and gravel aquifer maps can be reviewed at any of the Department's offices or requested from the Maine Geological Survey, State House Station 22, Augusta, Maine 04333, (207) 289-2801.

NOTE: If the answer to item (H), (J) or (K) above is yes, the facility is in a sensitive geologic area. A new or replacement tank used for the marketing and distribution of oil in such an area requires secondary containment or ground water monitoring pursuant to 38 M.R.S.A. Section 546(C).

6. COMPLETE the next two pages of this form and include each tank currently at the facility and each new or replacement tank planned for the facility.

7. ENCLOSE a check for the applicable registration fee with this submittal made payable to "Treasurer — State of Maine" and return to the Department of Environmental Protection. Registration fees are applicable ONLY to active, new, or replacement tanks used for the marketing and distribution of oil. Registration fees are due upon registration and annually thereafter, prior to the first day of January. Fees are as follows:

_____ Tanks 6,000 gallons or under in size _____ \$25 per tank
_____ Tanks over 6,000 gallons in size _____ \$50 per tank

8. MAKE TWO COPIES of this form. SUBMIT the original to the DEPARTMENT OF ENVIRONMENTAL PROTECTION (Bureau of Oil & Hazardous Materials Control, State House Station 17, Augusta, Maine 04333). SEND one copy to the LOCAL FIRE DEPARTMENT having jurisdiction. RETAIN the third copy for your records. For new and replacement tanks, registrations are due at least five (5) business days prior to installation. Registrations for existing tanks are due prior to February 1, 1986.

9. CERTIFY THIS FORM BY SIGNING. By signing this form, the tank registrant certifies that all information is accurate and complete, and that they will comply with all applicable federal, state and local laws and regulations concerning the underground storage of petroleum or other hazardous materials. The owner or operator is required by Maine statute to file an amendment to this registration with the Department of Environmental Protection immediately upon any change in the information on this form.

been previously assigned.)

12. If this registration involves replacing tanks or installing tanks, ATTACH a drawing of the facility showing the location of tanks (and piping) to be installed and any existing tanks. USE the space below for a sketch if no drawing already exists. THE FORM OF ADDITIONAL PROTECTION for tanks used for marketing and distribution of oil in sensitive areas should be detailed on the drawing. MONITORING WELL LOCATIONS should be provided for all tanks greater than 1,100 gallons that are used for on-site consumption of oil.
