91-93 Atlantic Street

Jan. 25, 1972

Robert L. Haloy 91 Atlantic Street

In checking your application to change the use of this building from 4 apartments to 5, with the new apartment to be located on the third floor at the above named ment to be located on the third floor at the above named location we find we are unable to continue processing your permit until further information is provided as

- 1. We will need a plan showing the entire layout for the third floor. We have on file here at this office an application from the partments to be ated on the grow 3 families to 9: at you propose OK third floor. The pie showed then is you show now leading to some confusion as you snow now isading to some confusion as three apartments to do. It would seem to indicate that, you propose three apartments on the third floor and apparently one each on the first and on the third floor and apparently one each on the first and second, which would be somewhat unusual.
 - The plans will need to show the size of each room.

 The plans will need to show the size of the bath the bath the size of the bath the bath the same on your present plan, what is the size of the bath the plans will be same to be sa
 - 3. I will mead to know on what floors these apartments are located. It would seem that as I stated above, you have one apartment on the first floor, one on the second and would like to have three on the third.

I will be able to continue processing this application with () to have three on the third. the above information.

very truly yours,

A. Allan Soule Assistant Director

Feb. 19, 1971

cc to: Joseph Dascanio 128 Cumberland Avenue

Robert L. Haley 91 Atlantic Street Dear Mr. Haley:

Permit to change use of building from 3-family to 4-family apartment building with minor alterations as per plan is being issued harewith subject to the following Building Code requirements:

- Chimney needs to be cleaned out and should be checked throughout, and any loose bricks replaced, and it should be pointed up.
- The front stairway from first floor to second will need a handrail the full length run of stairs. This handrail is to be located on the side where the treads are the widest.
- 3. Stairway in the rear from second floor to third needs a handrail on the side where the three winding treads are the widest. This handrail is only needed for these three treads as the railing on the other side is adequate for the rest of the stairway.
- 4. Stairway to the basement needs to be separated from the halance of the basement of not less than one hour fire resistant partition. Solid core self-closing plywood door having a neminal uniform thickness of not less than 1-3/4" with panels of wire glass allowed may be used.
- 5. Lights in public halls are to be controlled with an automatic time switch so as to be burning throughout the hours of darkness.

Very truly yours,

Earle S. Smith Plan Examiner

ESS:m
 P.S: A certificate of occupancy is required from this department before the new apartments are put into use.

CITY OF PORTLAND, MAINE DEPARTMENT OF BUILDING INSPECTION

June 11, 1963

Thomas A Lee 44 Westbrook Lt. South Portland Maine

Lear Sir:

(3-car framegarage)

With relation to permit applied for to demolish a building or it is unlawful to portion of building at #91 Atlantic St. commence demolition work until a permit has been issued from this department.

Section 6 of the ordinance for rodent and vermin control provides: "It shall be unlawful to demolish any building or structure unless provision is made for rodent and vermin eradication. No permit for the demolition of a building or structure shall be issued by the Building Inspector until and unless provisions for rodent and vermin eradication have been carried out under supervision of a pest control operator registered with the Health Department.

The building permit for demolition cannot be issued until the provisions of this section have been satisfied. It is the obligation of owner or demolition contractor or both to take up with the Health Department the matter of complying with this section, being prepared to inform that department what registered pest control operator is to be employed.

Very truly yours,

Albert J. Sears

Director of Building Inspection

AJS/h

Eredication of this building has been completed.

COMPLAINT

INSPECTION COPY COMPLAINT NO. 61/60__ Date Received August 25, 1961 Location 91-93 Atlantic Street Use of Building Apt. house Owner's name and address Thomas Lee, Telephone___ Tenant's name and address_ Telephone_ Complainant's name and address__William E. Perlin, 98 Exchange St. Telephone__-/- 0/6-/ Description: Three story rear piazza in dangerous condition. NOTES: Mr. Perlin, lawyer, says one of the tenants fell through piazza. A carpenter says there are not enough supports under the plazza. compliance with the Building Code in some respects, I cannot see that the failure was due to faulty framing. As the accident happened, we understand, in February, 1961 and we were not notified until August, 1961 it is difficult to determine the cause. However it looks as though the floor boards which since have been replaced/have been faulty, This piazza looks as though it had been built in recent years but we have no record of this construction in our files. The faulty framing consists of floor joists being butted to the outside sills and held with nails, sills on outside doubled 200 members, and one supporting post set on existing concrete pier has less than 2" of butting. Piazza does not appear to be in a dangerous conditions. — GEM

AP 91-93 Atlantic St.

September 21, 1953

Harris Oil Co., 202 Commercial St., Portland, Maine

Copy to: Thomas Lee, 9 Terrace Ave., Nangatuck, Conn.

The building permit to cover installation of two General Electric hot water boilers and oil burning equipment to be connected to one flue at 91-93 Atlantic Street for Thomas Lee is issued herewith subject to the following:

Section 602a2 of the Building Code provides that no more than one heating furnace or boiler shall be connected to a single flue except as specifically permitted by this Department.

Since more than one heating furnace is to be connected to this flue, approval is given at the owners risk. If this situation should become dangerous from the standpoint of fire hazard or any other hazard, it would be the responsition to the owner to make the situation permanently safe even though it may bility of the owner to make the situation permanently safe even though it may mean the construction of an additional chimney flue.

Very truly yours,

Inspector of Buildings

Dear Mr. Haley:

As owner or agent of the property located at the above referred address, you are hereby notified that as the result of a recent inspection, the vacant structure is hereby declared unfit for human occupancy.

The above mentioned structure is to be kept vacant so long as the following conditions continue to exist thereon:

Article V, Section 6-120 - (1) Properties which are either damaged, decayed, dilapidated, insanitary, unsafe, or vermin-infested in such a manner as to create a serious hazard to the health, safety, and general welfare of the occupants or the public -

Therefore, you will not occupy, permit anyone to occupy, or rent the above mentioned structure without the written consent of the Health Officer or his/her agent.

Sincerely,

Merle Leary

Code Enforcement Officer

Tammy Munson Code Enfc. Offr./Field Supv.
