Inspection of the lot at 72-98 Boyd Street, corner of Anderson Large Inspection of the lot at Value Boyd Street, corner or anderson large shows that each of you as perhaps of the firs of Kaplan & Silverson Cospany are again responsible for using this lot in violation of the Zoning Ordinance as applied to the Limited Business Zone in which the lot is located—and this despite the fact that the application of the Zoning Ordinance to this lot with regard to this type of business was fully explained to each of you in June 1950 when you had a dozen or work streets of automobiles on the lot and severe 1950 when you had a desen or more wrecke of automobiles on the lot and secrecine (you claimed it was boys) was wracking the care bit by bit to get the parts outo

Inspection today discloses that there are nine former passanger care in various states of inequality, three rater trucks in similar condition and one old truck how; beat an or more parts of motor vehicles on the ground.

You are both well made that the rotall sale of goods from this led is allowable; but also than the parking of more than one commercial subcombile there in any condition and the taking the care ware cisher all at one time or bit by bit is not allowable under the Toning Ordinanco.

On a former occasion all of this was explained to each of you, but one perionced such delay and at least one fruitless provide before we get the lot cleared up. Now it is back in the page or a werse condition.

As I am required to do by law, the situation is being reported to the Corporation Counsel with the recommendation that if all of the wrocked autombiles are trucks are not recoved from the promises before Friday, May 25, 1951, proceedings be started against you without further notice for violation of the Zoning Law.

Very truly yours,

Warren Hellowald Importor of Bulldings

WMOD/D

Barney: Bob and I seemed to learn in Municipal Court on Saturday that the bost thing for us to do in cases of violation of the Zoning Ordinance or the Building Code is not to give violators more than one chance to clear up and then take the matter over there without delay—thus to counteract the impression that orders and notices from your office and from this depart—

impression that a very lightly.

Warren McDonald

Complaint 72-98 Boyd Street, corner of Anderson Lane

May 21, 1951

Mr. Albert H. Chandler Rear 195 Franklin Street Portland, Maine

Dear Mr. Chandler:

There are a few quirks about the situation at 72-98 Boyd Street, corner of Anderson Lane which make it a little difficult to proceed against Kaplan & Silverman and fairly easy for them to violate the Zoning Law and keeping us from proving that they are violating it.

This lot is in a Limited Business Zone where retail sale of goods is allowable whether automobiles, automobile parts or anything else.

I examined the lot this morning and find there nine former passenger cars in various conditions besides three trucks and one former truck body in similar condition. The storage of more than one commercial automobile there is clearly in violation of the Zoning Ordinance, so there is no doubt about the violation as far as that act is concerned. They are likely to claim however that they are selling these wrecks as they are. If that were true they would have a right to do it under the Zoning Ordinance; but I doubt if it is true. I have an idea that they are taking parts out of the cars or trucks to sell, and I believe the act of taking the cars or trucks apart, whether done in one complete wrecking job or bit by bit is contrary to the Zoning Ordinance.

Before when we were after these people they claimed that they were not taking anything from the cars, but that boys were wrecking them. Perhaps that was and is true as far as damage by boys is concerned.

If this case comes to a show-down, however, and we mean to keep after it, our case will be strengthened immeasurably if we can have testimony ready to use (we probably will not have to use it) that at a certain time one of the partners or one of their employees was seen either taking cars or trucks apart or taking parts out of them.

Perhaps you are more effected by this situation than anyone else, and it would be appreciated if someone in your household would observe the situation frequently and if anyone is seen taking anything from the cars or taking them apart in my may note the time and who it was, if you know, or at least try to identify the party as being responsible to Kaplan & Silverman. If you are able to do this I nope the information will be written down so that there will be no doubt about it. We do not want to go ahead on insignificant evidence, but we do mean to clear up this irritating situation.

I tried to reach you by phone without success, therefore this letter.

Very truly jours,

WMoD/B

Warren McDonald, Inspector of Buildings.

July 24, 1.956

Inq. 55-61 Lancaster St., corner of Boyd St. & 72-98 Poyd St., corner of Fox St, concerning possible use for trucking terminal

Mrs. Isabella C. Damon Buckfield, Maine

Copy to Director of Planning Robert B. Hotsling

Dear Mrs. Damon,

Your letter of July 16 inquires whether the land at 55-61 Lancaster St., corner of Boyd St. (64-68) with a frontage of 100 feet on Lancaster St. and 75 feet on Boyd St. (7,514 sq. feet), and the land at 72-98 Boyd St., corner of (128-136) Fox St. with frontage of 350 feet on Boyd and 108 feet on Fox(35,966 sq. feet)-toth lots owned jointly by Richard Anderson, Isabelle Damon, and Charles Coleman, could be used for a trucking terminal, since you have a chance to sell the land for that purpose.

This department has the duties of interpreting and applying the Zoming Ordinance, and both of these lots are located in a zone classified as Limited Business. Use as a trucking terminal does not seem to fit into any of the allowed uses in such zones. It could hardly be classified as a retail business or service which is the principal characteristic of limited Business Zones. In such zones parking or storage of commercial motor vehicles is limited to only one at any one time except as authorized otherwise by the Board of Appeals-which would agen to exclude the use on that point alone.

In your letter you asked if the Planning Board would offer any objection to the property being used for commercial purposes. The Planning Eoard would hardly enter into the question unless you wove to seek an exception to the requirements of the Zoning Ordinance from the Zoning Board of Appeals which is your right. In case of such an appeal the Planning Board often makes recommendations to the Appeal Board.

In event you feel that the property is not proporly classified as to zone under the Zoning Ordinance, then your approach would be to Director of Planning Robert B. Hotaling whom, I feel sure, would be glad to consider any proposition which you may make for reference to the Planning Board.

Very truly yours,

WifcD/B

Harren McDonald Inspector of Buildings

CITY OF PORTLAND, MAINE
DEPARTMENT OF BUILDING INSPECTION

April 14, 1960

Portland Redevelopment Authority 389 Congress Street Portland, Maine

Gentlemen:

AJS/H

With relation to permit applied for to demolish a building or portion of building at 30 Boyd Street it is unlawful to commence demolition work until a permit has been issued from this department.

Section 6 of the ordinance for rodent and vermin control provides: "It shall be unlawful to demolish any building or structure unless provision is made for rodent and vermin eradication. No permit for the demolition of a building or structure shall be issued by the Building Inspector until and unless provisions for rodent and vermin eradication have been carried out under supervision of a pest control operator registered with the Health Department.

The building permit for demolition cannot be issued until the provisions of this section have been satisfied. It is the obligation of owner or demolition contractor or both to take up with the Health Department the matter of complying with this section, being prepared to inform that department what registered pest control operator is to be employed.

Very truly yours,

albert J. Sears

Albert J. Sears Inspector of Buildings

Eradication of this building has been completed.
