CITY OF PORTLAND, MAINE
MEMORANDUM

DATE: 8-21-73

TO: George Flaherty, Assistant City Manager
FROM: A. Allan Soule, Assistant Building & Inspection Services Director
SUBJECT: Fire Retardant Paint

I have notified Michael Navodones, who has a store on Cumberland Avenue that fire retardant paint can be purchased at the Logan Paint Store on Portland Street. This paint is the Pratt Lambert paint, approved by Underwriters Laboratories.

A. Allan Soule, Asst. Dir. Building And
Inspection Services

AAS:IA

291A Cumberland Avenue

August 15, 1973

Catina & Michael Mavodones
68 Elm Street

Dear Mr. & Mrs. Mavodones:

Although the shingling of the exterior of your store at the above named location has been completed, it was agreed that, although the shingles should be removed, inasmuch as they are in the Fire District, if such shingles are not allowed, this office would allow an approved Underwriters labelled fire retardant paint to be applied provided it was done right away.

Unless this can be accomplished by August 22, 1973, the shingles must be removed or approval of the paint must be afforded this office with authoritative documentation as its fire retardancy.

Very truly yours,

R. Lovell Brown
Director Building & Inspection Services

Dear Mr. Carlson:

I am in receipt for your request for a permit to install a fire escape at the above address. It would be appreciated if you could support your desires with a much better set of drawings that I can understand showing the general construction drawn to a reasonable scale. When these are submitted to me I will be glad to review them for your permit application.

Very truly yours,

City of Portland, Maine
Board of Appeals
— ZONING —

Sustained
4/1/55

March 16, 1955 .19

55/16

To the Board of Appeals:

Your appellant, Leo Warner, who is the owner of property at 291 Cumberland Avenue, respectfully petitions the Board of Appeals of the City of Portland to permit an exception to the regulations of the Zoning Ordinance relating to this property, as provided by Section 18, Paragraph E of said Zoning Ordinance.

Building permit to cover construction of an outdoor telephone booth at 291 Cumberland Avenue, corner of Cedar Street, is not issuable under the Zoning Ordinance because the proposed booth would be an encroachment on the corner clearance triangle at the street corner, contrary to Section 5C of the Zoning Ordinance. This corner clearance triangle is formed by measuring a distance of five feet along each street line from their intersection and joining these two points thus located.

The facts and conditions which make this exception legally permissible are as follows:
An exception is necessary in this case to grant reasonable use of property and can be granted without substantially departing from the intent and purpose of the Zoning Ordinance.

Leo Warner
Appellant

After public hearing held on the 1st day of April, 1955, the Board of Appeals finds that an exception is necessary in this case to grant reasonable use of property and can be granted without substantially departing from the intent and purpose of the Zoning Ordinance.

It is, therefore, determined that exception to the Zoning Ordinance may be permitted in this specific case.

Edward J. Colley

CITY OF PORTLAND, MAINE
BOARD OF APPEALS

March 29, 1955

Mr. George Walter Larson
Room 401
101 Middle Street
Portland, Maine

Dear Mr. Larson:

The Board of Appeals will hold a public hearing in the Council Chamber of City Hall, Portland, Maine, on Friday, April 1, 1955, at 10:30 a. m. to hear the appeal of Leo Warner requesting an exception to the Zoning Ordinance to cover construction of an outdoor telephone booth at 121 Cumberland Ave., corner of Cedar Street.

This permit is presently not issuable under the Zoning Ordinance because the proposed booth would be an encroachment on the corner clearance triangle at the street corner, contrary to Section 40 of the Zoning Ordinance.

If you are interested either for or against this appeal, please be present or be represented at this hearing.

Harry W. Marr, Chief of the Fire Department

Warren McDonald, Inspector of Buildings

Permit for outdoor telephone booth in Fire District #1B

This permit requires your approval because it has to be classified as a building of Metal Frame Construction in the Fire District and is closer than ten feet to another building of Wooden Frame Construction. Reference Sections 4C2b11 and b4.

Inspector of Buildings

WMcD/B

March 1, 1955

AP 291 Cumberland Ave. - Application for permit for outdoor
telephone booth and zoning appeal relating to location of
the booth

Mr. Clifford L. Barker,
Commercial Representative
New England Tel. & Tel. Co.
45 Forest Ave.
Mr. Leo Warner
291 Cumberland Ave.

Copies to: Corporation Counsel
Traffic Engineer

Gentlemen:-

Although an outdoor telephone booth is an allowed use in the Limited Business Zone where 291 Cumberland Ave., corner of Cedar St., is located, the building permit is not issuable under the Zoning Ordinance because the proposed booth would be an encroachment on the corner clearance triangle at the street corner, contrary to Sect. 50 of the Zoning Ordinance. This corner clearance triangle is formed by measuring a distance of five feet along each street line from their intersection and joining these two points thus located.

You have indicated your desire to seek an exception from the Zoning Board of Appeals; so, there is enclosed an outline of the appeal procedure.

Very truly yours,

Warren McDonald
Inspector of Buildings

WHM/C
Enclosure: Outline of appeal procedure

Sam:

You are receiving a copy of this letter because the matter of corner clearance as set forth in the Zoning Ordinance seems to be intended for the most part to provide a view of traffic from both streets. Perhaps you may feel like being present at the hearing or at least like letting the Board know your feelings in the matter.

Warren McDonald

APPLICATION FOR PERMIT

Class of Building or Type of Structure Third Class
Portland, Maine, April 8, 1954

PERMIT ISSUED
APR 8 1954
CITY of PORTLAND

To the INSPECTOR OF BUILDINGS, PORTLAND, MAINE

The undersigned hereby applies for a permit to ~~alter~~ repair ~~demolish~~ the following building structure in accordance with the Laws of the State of Maine, the Building Code and Zoning Ordinance of the City of Portland, plans and specifications, if any, submitted herewith and the following specifications:

Location 291 Cumberland Ave. Within Fire Limits? yes Dist. No. _____
Owner's name and address Leo Warner, 291 Cumberland Ave. Telephone 3-9249
Lessee's name and address _____ Telephone _____
Contractor's name and address Joseph Theriault, 3 Lawrence Place Telephone _____
Architect _____ Specifications _____ Plans no No. of sheets _____
Proposed use of building restaurant and tenement No. families _____
Last use _____ " " _____ No. families _____
Material wood No. stories 2 Heat _____ Style of roof _____ Roofing _____
Other buildings on same lot _____

AP 291 Cumberland Avenue-I

December 14, 1951

Mr. Leo Warner
12 Pitt Street
Portland, Maine

Copy to: Mr. Leoleon Dupuis
151 Franklin Street

Dear Sir:

Building permit to make certain alterations to the former grocery store in the first story of the building at 291 Cumberland Avenue, corner of Cedar Street, is issued herewith subject to the following conditions. If for any reason you are unable or unwilling to abide by the conditions outlined or if you do not understand what is meant, no work is to be started and the permit is to be returned to this office for adjustment. Conditions under which the permit is issued are as follows:

1. The new partition and ceiling in connection therewith to be erected in the front hall of the apartment house section of the building are to be covered both sides with plaster on gypsum lath.
2. The small window opening in the Cedar Street wall of the store is to be made into a doorway to serve as an emergency means of egress from the rear of the store. Door in this opening is to be at least 3' wide and 6' 4" high and is to be equipped with a vestibule latch set. Such a set is one which will allow the door to be opened from inside the building at any time, even though it is locked against entrance from the outside, merely by turning the usual knob or by pressure on the usual thumb lever. Unless you are certain that you know the type of hardware required, it would be well to check at this office before purchasing the lockset.
3. No knob or handle is to be provided on the outside of this door by which it can be used for entrance to the building since its use is limited to exit purposes only by the Zoning Ordinance.
4. A platform about 7' wide by 4' deep is to be constructed outside this door. The floor of the platform is to be built even with the third tread of the outside stairs from the upper stories of the building and is to serve these stairs as well as the exit from the store. A railing at least 34" high is to be provided around the edges of the platform wherever needed to prevent anyone falling from it. Steps from the platform to the existing concrete walk are to be at least three feet wide with handrails on each side and with treads at least 9" wide, not counting any nosing, and risers not more than 8½" high.
5. The new platform is to have 4x6 sills on edge at the outer edge, these sills to be all one piece in cross section, not made up of two pieces of 2x6, and to be set with the 6" dimension upright. Floor joists are to be 2x6 spaced not over 16" on centers and notched over no less than 2x3 nailing strips spiked to the sides of the sills. The platform is to extend at least 9" beyond the door opening on each side.
6. One end of the platform is to be supported on the existing stairway, the foot of which is carried by a concrete pier. On the other end at the corner a pipe column having an outside diameter of not less than 3" and extending at least four feet below the finished grade around it is to be provided for support of the platform. A

Mr. Leo Warner-----2

December 14, 1951

concrete footing or large rock will be needed for support of the bottom of this pipe column.

7. An illumination with letters at least 6" high showing red or green on a light colored background is to be provided over the opening in the partition separating the sales space and store room and a directional exit sign is to be provided in the store room to indicate the location of the new exit door.

8. Notification is to be given for inspection by this department before lath or walling will be applied to the new partition.

Very truly yours,

Arden McFarland
Inspector of Buildings

AIG/G

P. S. There is always the temptation in opening up a new establishment to do the work most essential to the owner first. We shall have to ask you to have this rear exit ready and operative before the place is opened for business. I suppose you know that you require a victualer's license from the City before the place is opened for business. I have asked the City Clerk to let us check on this license before it is issued. We can hardly give consent to its issuance until the exit is ready.

December 8, 1951

Mr. Joe Warner
12 1/2 St. Street
Portland, Maine

Copy to: Mr. Napoleon Dupuis
151 Franklin Street

Dear Mr. Warner:

Some information is needed concerning the proposed alterations in the building at 251 Cumberland Avenue, corner of Cedar Street, to change use of corner store from a grocery store to a restaurant before we shall be able to check the provisions against Building Code requirements relating hereto. It is necessary that a floor plan of the area to be used for restaurant purposes be furnished. This plan needs to show the entire layout of counter, booths and booths, location and arrangement of any kitchen, and location of a second means of egress from the restaurant space. Such a plan must be drawn to scale and be filed in the form of a blueprint.

The relocation of the existing entrance to the corner of the building is likely to involve changes in the structure of the building, particularly at the corner entrance. Full information is needed as to what is to take place and how it is to be cared for. We shall be unable to issue a permit for the proposed alterations until information showing that compliance with all Building Code requirements is to be provided has been furnished.

Very truly yours,

Warren McDonald

Original Permit No. 41/1269
 Amendment No. 2

AMENDMENT TO APPLICATION FOR PERMIT

Portland, Maine, September 25, 1911
 Supersedes No. 9/23/11

To the INSPECTOR OF BUILDINGS, PORTLAND, ME.

The undersigned hereby applies for an amendment to Permit No. 41/1269 pertaining to the building or structure comprised in the original application in accordance with the Laws of the State of Maine, the Building Code of the City of Portland, plans and specifications, if any, submitted herewith, and the following specifications:

Location: 41 Cumberland Avenue	Within Fire Limits? <input checked="" type="checkbox"/>	Dist. No. 1
Corner Cedar		
Owner's name and address: Blanche Glovsky, 146 Franklin Street		
Contractor's name and address: Charles Hill, 431 Cumberland Ave.		2-1234
Plans filed as part of this Amendment: 703	No. of Sheets: 3	
Is any plumbing work involved in this work? <input type="checkbox"/>	Is any electrical work involved in this work? <input type="checkbox"/>	
Increased cost of work: 75	Additional fee: 50	
Framing Lumber: Kind: _____	Dressed, or Full Size? <input type="checkbox"/>	

Memorandum from Department of Building Inspection, Portland, Maine
 291 Cumberland Ave.---Alterations for Blanche Glovsky by Charles Hill, Builder
 BP 41/1269---Amdt. No. 2

To Owner and Builder: PLEASE SEE REVERSE SIDE OF THIS MEMO FOR ADDITIONAL INFORMATION

Application for amendment and plan do not agree in that plan calls for rebuilding upper run of outside stairs and application does not. The amendment is approved only on the basis of the plan, that of rebuilding the upper run.

The owner is advised that we refuse to take any responsibility for nuisances which may arise due to fact that these stairs run clear to the ground. If you could see your way clear to erect a standard metal fire escape in place of these wooden stairs, a metal "swing-down" ladder could be used from a point 10 feet above the ground.
 CC Blanche Glovsky, 146 Franklin

(Signed) Warren McDonald
 Inspector of Buildings

Original Permit No. 11/1249
Amendment No. 2

AMENDMENT TO APPLICATION FOR PERMIT

The plan, especially with regard to the landing at second floor, indicates that the clear landings (at top landing this would be clear distance from nosing of landing to railing opposite; on second floor landing this would be between lowest nosing on upper run and railing opposite) does not cover clear width between window jambs. This is important, and if this is the case on existing landings they will have to be widened so that the railing opposite the nosing in each case will be at least 9 inches beyond the window jamb on that side. If this means rebuilding both landings then that will have to be done.

wrcd

To build new partition 16' long 2x4 studs 16' oc, matched boards, in basement to provide passage way to existing rear door.

To provide new concrete piers 12x12 4' below grade, for support of wooden fire escape on side of building, and replace existing drop stairs with permanent stairs from second floor level to grade, 30" width, 4" risers, 9" treads, stringers 2x6 with points nailed on open risers, existing lag bolts to be replaced with 1/4" thru bolts.

All defective material in landings to be replaced with sound material.
