CITY OF PORTLAND, MAINE  
DEPARTMENT OF BUILDING INSPECTION

August 4, 1969

W.L. Blake & Company  
79 Commercial St.  
Portland Maine

Gentlemen:

With relation to permit applied for to demolish a building or <sup>25'x100' portion of bldg. (storage shed)</sup> portion of building at ~~St. 13 Front St.~~ <sup>R. 63 Commercial St.</sup> it is unlawful to commence demolition work until a permit has been issued from this department.

Section 6 of the Ordinance for rodent and vermin control provides: "It shall be unlawful to demolish any building or structure unless provision is made for rodent and vermin eradication. No permit for the demolition of a building or structure shall be issued by the Building Inspection Department until and unless provisions for rodent and vermin eradication have been carried out under supervision of a pest control operator registered with the Health Department.

The building permit for demolition cannot be issued until the provisions of this section have been satisfied. It is the obligation of owner or demolition contractor or both to take up with the Health Department the matter of complying with this section, being prepared to inform that department what registered pest control operator is to be employed.

Very truly yours,

R. Lovell Brown  
Director

INDUSTRIAL AND COMMERCIAL CONSTRUCTION

February 25, 1960

Building Commissioner's Office  
Portland City Hall  
Portland, Maine

Attn: Building Commissioner

Re: Building Permit

Gentlemen:

We are furnishing herewith drawings of the R.A.Verrier Construction Co. office at 65 Commercial St., Portland, Maine.

As outlined on the first floor plan we propose to install a toilet room. The room is to contain two closets and two lavatorys of which a plumbing permit will be filed for. At this time we wish to attain a building permit so as to construct the partitions and install a ventilating system called for by the Portland Building Code.

The partitions will have a formica finish and the floor will be of asphalt tile squares.

Very truly yours,

ROBERT A. VERRIER CONSTRUCTION CO.

, that the building permit applied for by John Donnelly & Sons  
to cover erection of a detached sign about 12 feet by 25 feet on the property  
of Randall & McAllister at 69 Commercial Street be approved, this approval  
being required by Section 103-c-4.3 of the Building Code before the permit  
may be issued.

Rept. 1941D-I

August 3, 1942

John Donnelly & Sons,  
73 Main Street,  
So. Portland, Maine

Subject: Application for building permit  
to erect poster panel 12' x 25' on property  
of Randall & McAllister at 69 Commercial St.

Gentlemen:

Before issuance of the above permit, as per section 103-c-4.8 of the Building Code, the permit requires the approval of the Municipal Officers. At the next opportunity the application will be presented to the Municipal Officers for their consideration. The application was filed just too late to be considered by the Municipal Officers at their meeting on Friday, July 31st.

In the meantime it would be very helpful to them and to this office if you would supply a simple, small scale location plan showing clearly the precise location of the proposed sign with relation to the street line, nearby buildings, etc. The plan which you have submitted has rather good detail but does not make precisely clear the location of the sign to one not familiar with it already.

Very truly yours,

W McD/H

STATEMENT REFERRING TO USED STRUCTURAL STEEL PROPOSED IN THE ADDITION FOR W. L. BLAKE  
& COMPANY AT 65 COMMERCIAL STREET

December 12, 1938

This statement is to certify that the 53 inch second-hand built-up steel girder intended to be used in connection with the one story addition for W. L. Blake & Company at 65 Commercial Street came from one or more buildings of the Texas Company in Bath, Maine, the buildings now having been demolished; and that this steel girder has not been through a fire in any building or structure and has not been involved in any sort of wreck.

Lyle C. Butland

Acpt. 35510-I  
P.33/4110-I

December 10, 1939

Mr. W. S. Butland,  
76 Munjoy Street,  
Portland, Maine

Dear Sir:

I understand that the 33 inch built-up steel girder to be used in the addition for W. S. Blake & Company at 85 Commercial Street is to be furnished by yourself.

Will you be kind enough to sign the attached statement and return to this office as soon as possible so that the amendment to the building permit covering this work may be approved?

In event you are not the party furnishing the steel will you be kind enough to have the statement signed by the party furnishing the steel?

Very truly yours,

Inspector of Buildings

WMcD/H

CC: King Butland

Original Permit No. 38/2110  
Amendment No. 1

**PERMIT ISSUED**

### AMENDMENT TO APPLICATION FOR PERMIT

Portland, Maine, December 10, 1938

To the INSPECTOR OF BUILDINGS, PORTLAND, ME.

The undersigned hereby applies for an amendment to Permit No. 38/2110 pertaining to the building or structure comprised in the original application in accordance with the Laws of the State of Maine, the Building Code of the City of Portland, plans and specifications, if any, submitted herewith, and the following specifications:

Location 65 Commercial Street Ward 3 Within Fire Limits? yes Dist. No. 1

Owner's or Lessee's name and address W. L. Blake & Co., 77 Commercial Street

Contractor's name and address King Rutland, 219 Cumberland Ave. 3-1227

Plans filed as part of this Amendment yes No. of Sheets 1

Increased cost of work 1,000. Additional fee 2.75

#### Description of Proposed Work

To build one story brick addition 10' x 60' on side of Section A as shown on plan, removing present front brick wall and supporting same with steel

Tar and gravel roof, 4 ply, 1/2" rise

W. L. Blake & Co.

Rept. 3503C-I

December 8, 1938

Mr. King Butland,  
219 Cumberland Avenue,  
Portland, Maine

Dear Sir:

Enclosed is the building permit covering reconstruction of a section of the building of W. M. Blake & Company at 65 Commercial Street where the roof failed about ten days ago.

Mr. M. E. Butland reports to me that the foundation of this building is of concrete in good condition and that the brick wall from the top of the foundation to the underside of the floor joists is 12 inches thick, and I was able to see evidence of this condition through a hole which he cut in the floor of the building. It is understood that the reconstructed brick walls will be 8 inches in thickness and will extend not more than 12 feet in unsupported height from the top of the 12 inch brick wall to the underside of the roof joists. Also that the roof is to be constructed substantially as before, but the metal anchors from joists to wall will be spiked to the under edge of the joists not more than 8 feet from center to center and built into the masonry instead of being fastened to the sides of the joists as before.

I understand that a little later the owner will build an addition on the yard side of the part of the building where the roof was left intact and that a new canopy over the platform will be built on the yard side of the part of the building now to be reconstructed. It has not yet been determined exactly how this canopy will be built. Please see to it that these changes in construction are covered by an amendment to this permit now issued, and at the same time that a thorough framing plan of the canopy is furnished with the application for the amendment. It is my opinion that the construction of the original canopy had a great deal to do with the failure of the brick wall, and construction of the new canopy is therefore important in my estimation.

W. M. Blake & Company are receiving a copy of this letter and I wish to call their attention to a very bad place in the rear brick wall of the two story building beneath the second story windows and beneath and around the bearing of a steel beam over a large doorway. This section of wall evidently was badly cracked before the accident and has been deteriorated by water running down over the face of the wall and getting into the joints. It may be dangerous at the present time. It seems necessary to say that you should have your contractor, while he is at work and as soon as possible before real freezing weather sets in, take out and rebuild as much of this wall as necessary to make a sound and thoroughly safe job.

Please be governed accordingly.

Very truly yours,

# APPLICATION FOR PERMIT

PERMIT ISSUED

Class of Building or Type of Structure Second Class

110

Portland, Maine, December 6, 1938

DEC 8 1938

To the INSPECTOR OF BUILDINGS, PORTLAND, ME.

HEARING ON APPLICATION FOR PERMIT BY JOHN DONNELLY & SONS FOR ALTERATION OF  
BILLBOARDS AT 286 FORE STREET

January 15, 1937

A hearing on the above application for a permit was held before the Committee on Zoning and Building Ordinance Appeals today. Present for the city were Councilor Eskilson and the Inspector of Buildings.

Mr. Worcester of John Donnelly & Sons appeared in support of the application. He said that his company merely would like to relocate the two boards that would be left standing in such a way that the tops of them would be seventeen feet above the grade of the Fore Street sidewalk. He said this was particularly desirable so that his company could build a five foot fence to prevent persons falling down over the steep bank adjacent to the Fore Street sidewalk.

He was informed by the Inspector of Buildings that the Building Code forbids the top of any billboard being more than 15 feet above the grade of the ground.

Warren McDonald, Inspector of Bldg.

January 18, 1937

To The Municipal Officers:

The Committee on Zoning and Building Ordinance Appeals having given consideration to the application for a building permit by John Donnelly & Sons to cover alterations in the billboards at 288 Fore Street, recommends that the permit be approved and that the Inspector of Buildings be and hereby is directed to issue said permit, subject to full compliance with all terms of the Building Code.

COMMITTEE ON ZONING AND BUILDING  
ORDINANCE APPEALS

---

Chairman

---

---

, that the building permit applied for by John Donnelly & Sons to cover alterations to billboards at 236 Fore Street be approved and that the Inspector of Buildings be and hereby is directed to issue said permit, subject to full compliance with all terms of the Building Code.

File: Rec. 8572B-I

January 20, 1937

John Donnelly & Sons,  
142 High Street,  
Portland, Maine

Gentlemen:

Enclosed is the building permit covering relocation of two poster panels at 286 Fore Street, this permit having been approved by the Board of Municipal Officers on January 18, 1937, but subject to full compliance with all terms of the Building Code.

The Building Code requires that the tops of these panels in their new locations shall be not more than 15 feet above the grade of the Fore Street sidewalk at the frontage of the lot where the signs are to be located.

Please be governed accordingly.

Very truly yours,

MCD/H

Inspector of Buildings
