Community Oil Co.  
175 Front St.  
South Portland, Ms.

Re: 360 Cumberland Ave

Sir:

Your permit application to install a forced hot water burner (replacement) at the above named address is hereby denied for the following reasons.

The installation was completed before the necessary oil burner permit was issued. Therefore, an additional \$25. related fee shall apply and must be paid before issuance of this permit.

The signature of the installer on the application was not the person who installed this unit. The person responsible for this installation must sign the permit application and accept total responsibility for the work completed.

Please resubmit your application with the above required additional information. I look forward to your cooperation on this matter.

Yours truly,

Walter Hilton  
Chief Building Inspector

c.c. Lt. James Collins  
Fire Prevention Bureau

November 26, 1980

360 Cumberland Ave.  
Portland, Me. 04101

Re: 360 Cumberland Ave. (37-D-3)

Sir:

This office has received information indicating that an oil burner has been replaced, at the above named address, without benefit of the necessary required permits. Furthermore, we have reason to believe that it may have been installed improperly.

You are hereby ordered to contact the installer and make arrangements for him to come to my office and apply for the pro-per permit. Your failure to abide by this order will necessitate immediate legal action and a fine of up to \$500 per day from this day forward.

Yours truly,

Walter Hilton  
Chief Building Inspector

June 3, 1969

Walter E. Harmon  
362 Cumberland Avenue

cc to: Jensen & Rosenblad  
364 Cumberland Avenue

Gentlemen:

Permit to change the use of 360 Cumberland Avenue from a store to a wholesale fruit and produce shop, and 362 Cumberland Avenue from a pet shop to a restaurant is being issued subject to the following Building Code requirements:

1. Under Section 402.7B of the code states that: no space in which food or drink is manufactured, prepared for sale, sold in other than sealed containers, or sold for consumption on the premises shall connect directly with any toilet room, stable, or space of equally offensive use. This means that a vestibule of some kind will be required. Will you submit plans on what you plan to do?
2. Under Section 504.5.2b of the code, an unobstructed means of egress will be required if designed to accommodate 20 or more people.
3. Under Section 402.5.2.3b: if the exit door is designed as part of a means of egress for more than 20 persons, but is not equipped with anti-panic hardware, the door shall be so equipped that all fastenings which would keep the door from opening will be released instantly, without special knowledge or ability, merely by turning the customary knob or by pressure on a plate or lever.

Very truly yours,

Edwin W. Locks, Jr.

WRITTEN CONSENT AND AGREEMENT RELATING TO A CERTAIN SIGN PROPOSED TO  
BE ERECTED PROJECTING OVER A PUBLIC SIDEWALK FROM THE PREMISES  
AT 364 Cumberland Ave. IN PORTLAND, MAINE

Jensen & Rosenblad Co., being the owner of the  
premises at 364 Cumberland Ave. in Portland, Maine hereby gives  
consent to the erection of a certain sign owned by Jensen & Rosenblad Co.  
projecting over the public sidewalk from said premises as described in  
application to the Inspector of Buildings of Portland, Maine for a permit  
to cover erection of said sign;

And in consideration of the issuance of said permit Jensen & Rosenblad Co., owner of said premises, in event said sign shall  
cease to serve the purpose for which it was erected or shall become dangerous  
and in event the owner of said sign shall fail to remove said sign or make  
it permanently safe in case the sign still serves the purpose for which it  
was erected, hereby agrees for himself or itself, for his heirs, its  
successors, and his or its assigns, to completely remove said sign within  
ten days of notice from said Inspector of Buildings that said sign is in  
such condition and of order from him to remove it.

In Witness whereof the owner of said premises has signed this consent  
and agreement this 2nd day of January 1937

SEP 28 1950  
CITY OF PORTLAND

To the INSPECTOR OF BUILDINGS, PORTLAND, MAINE

The undersigned hereby applies for a permit to install the following heating, cooking or power equipment in accordance with the Laws of Maine, the Building Code of the City of Portland, and the following specifications:

Location 364 Cumberland Ave. Use of Building Mercantile No. Stories 2  New Building  
 Existing  
Name and address of owner of appliance Jensen & Rosenblad, 364 Cumberland Ave.  
Installer's name and address E. H. Cunningham Co., 565 Cumb. Ave. Telephone 3-3671

### General Description of Work

To install forced hot water heating system in place of gravity hot water heating system  
New boiler to take place of boiler 1st floor and boiler for 2nd floor

### IF HEATER, OR POWER BOILER

Location of appliance or source of heat 1st floor Type of floor beneath appliance concrete  
If wood, how protected? \_\_\_\_\_ Kind of fuel oil  
Minimum distance to wood or combustible material, from top of appliance or casing top of furnace 15"  
From top of smoke pipe 15" From front of appliance Over 4' From sides or back of appliance Over 2'  
Size of chimney flue 10x12 Other connections to same flue none  
If gas fired, how vented? \_\_\_\_\_ Rated maximum demand per hour \_\_\_\_\_

### IF OIL BURNER

Name and type of burner ABC Burner Labelled by underwriter's laboratories? \_\_\_\_\_  
Will operator be always in attendance? \_\_\_\_\_ Does oil supply line feed from top or bottom of tank? \_\_\_\_\_  
Type of floor beneath burner \_\_\_\_\_ Number and capacity of tanks \_\_\_\_\_  
Location of oil storage \_\_\_\_\_  
If two 273-gallon tanks, will three-way valve be provided? \_\_\_\_\_  
Will all tanks be more than five feet from any flame? \_\_\_\_\_ How many tanks fire proofed? \_\_\_\_\_  
Total capacity of any existing storage tanks for furnace burners \_\_\_\_\_

### IF COOKING APPLIANCE

Location of appliance \_\_\_\_\_ Kind of fuel \_\_\_\_\_ Type of floor beneath appliance \_\_\_\_\_  
If wood, how protected? \_\_\_\_\_  
Minimum distance to wood or combustible material from top of appliance \_\_\_\_\_  
From front of appliance \_\_\_\_\_ From sides and back \_\_\_\_\_ From top of smokepipe \_\_\_\_\_  
Size of chimney flue \_\_\_\_\_ Other connections to same flue \_\_\_\_\_  
Is hood to be provided? \_\_\_\_\_ If so, how vented? \_\_\_\_\_  
If gas fired, how vented? \_\_\_\_\_ Rated maximum demand per hour \_\_\_\_\_

### MISCELLANEOUS EQUIPMENT OR SPECIAL INFORMATION

Amount of fee enclosed? 2.00 (\$2.00 for one heater, etc., 50 cents additional for each additional heater, etc., in same building at same time.)

**Memorandum from Department of Building Inspection, Portland, Maine**

364 Cumberland Avenue--Permit for addition to storage building at 364 Cumberland Avenue for Jensen & Rosenblad by Brown Construction Co.

1/31/47

To Contractor & Owner:

Permit for the above work is issued herewith subject to the condition that a Class "F" or Class "C" (labelled) fire door will be provided in front wall of addition in place of the ordinary wood door shown on plan, since it is practically certain that this door opening will be closer than thirty feet in an unobstructed line to openings in the rear wall of building on the front of same lot and in the wall of apartment house on the adjoining lot.

Dear Sir:

According to Sec. 307a4 of the Building Code we are required to notify you that we are contemplating an addition to our present garage at 364 Cumberland Avenue.

We are planning to extend the garage twenty (20) feet in length and the same in width as the present garage. This garage will be used to store our equipment such as ladders, planks, falls, steel staging, etc. No paints or oils will be stored in this building.

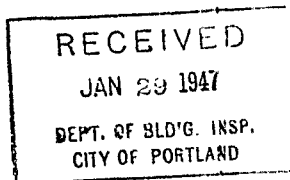

Very truly yours,

JENSEN & ROSENBLAD CO.

CITY OF PORTLAND.....DEPT. OF BUILDING INSPECTION

Check List of Compliance with Building Code and Zoning Ordinance Requirements

January 15, 1947

Job Location 364 Cumberland Avenue Owner Jensen & Rosenblad

Contractor Brown Construction Company Architect \_\_\_\_\_

We are unable to issue permit for the above work because Section 100b of the Building Code requires that applicant must show on application and plans compliance with Building Code and Zoning Ordinance before a building permit is issued, and application and plans of this job do not show compliance with the law as indicated below. References at left are to sections of Building Code where applicable (copies of revised Building Code now available at the office of City Clerk). If plan maker disagrees with statements below, he should seek a conference by phone or in person at this office. If he agrees, plans and application should be corrected accordingly.

1. Sec. 307a1. A location plan showing closeness to property lines should be added to the plan, any other changes required should be made in the plan, and a blueprint of it filed in place of the original. On the ground it looks as though one sidewall of the addition would be approximately on the rear property line, and that the property in the rear is higher with a retaining wall between. If this is true, this section of the Code requires that we have evidence before the permit is issued that the owner of the proposed addition has notified the owner of the adjoining land in writing that work is proposed near his property line and the extent of it. This is usually done by sending to this office a copy of the letter of notification.
2. Sec. 205b1. If new sidewall would be closer than 5 feet to rear property line, since property is in Fire District No. 1, that new wall is required to be extended upwards no less than 32 inches above the roof at all points to a parapet wall. While the Code is not retroactive with regard to this detail of the existing building, especially if the roof of the existing building is to be built over, the owner will probably want to make both old and new walls similar as regards parapet. The least allowed height of parapet wall above roof is 32 inches, and under Section 303b3, the wall cannot be higher than four times its thickness. Thus, since 8-inch blocks are proposed, and the roof, even of the addition, is six inches lower on one end of the new sidewall than the other, some difficulty will arise. Perhaps it will work out to reinforce the parapet wall by means of sufficient bars extending down into the main wall below, but the design should be shown in detail on the plan.
3. Sec. 312c3.2(c). Show anchorage of roof beams to masonry walls as per requirements of this section. Also show anchorage of roof plate to concrete block wall.
4. Sec. 102a5. If window in addition would be closer than 30 feet to any window or door opening in another building, wire glass should be shown and used. If new door would be closer than 30 feet to any door or window opening in any other building, a Class F or Class C (in either case labelled) fire door is required, set in structural metal frame. If there would be more than 30 feet in either or both cases, please show that fact on the location plan.
5. General Structural. It is noted that the roof of existing building may be reframed to be similar to proposed roof. The framing of present roof, if built as shown with a 6x5 on 16-foot span, works out to be very substantially overloaded in case of heavy snow.  
Show material and design of lintel over new door.

On centers: 1st floor \_\_\_\_\_, 2nd \_\_\_\_\_, 3rd \_\_\_\_\_, roof 6'6"

Maximum span: 1st floor \_\_\_\_\_, 2nd \_\_\_\_\_, 3rd \_\_\_\_\_, roof 16'

If one-story building with masonry walls, thickness of walls? 12" height? 9'

If a Garage

No. cars now accommodated on same lot \_\_\_\_\_, to be accommodated \_\_\_\_\_ number commercial cars to be accommodated \_\_\_\_\_

Will automobile repairing be done other than minor repairs to cars habitually stored in the proposed building? \_\_\_\_\_

APPROVED: \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

Miscellaneous

Will work require disturbing of any tree on a public street? no

Will there be in charge of the above work a person competent see that the State and City requirements pertaining thereto observed? YAS

 Location 362.4 Cumhills  
 Owner J. H. Sen + P. Penhadd  
 Date of permit 10/16/35  
 Notif. closing-in  
 Inspn. closing-in  
 Final Notif.  
 Final Inspn: 10/30/35  
 Cert. of Occupancy issued

NOTES  
 10/16/35 - Was at this location to-day where ceiling + partition has been removed so that it is found that 2nd floor is carried on an existing 6x12 H.P. timber supported on 4 lally columns. The 2x4 studs in the partition being non-carrying. A portion of the partition between the two stores extending from the show

window back to the first lally column into bar removed, leaving the 6x12 on an 11' span. There is no partition in 2nd story the flat roof being carried on girders + lally columns

directly over those in first story. The area of second floor carried is  $11' \times \frac{15+14}{2} = 160 \text{ sq}'$ . There is a metal ceiling in the first story.

$$160 \times 80 = 128,000 \#$$

$$6 \times 12 \text{ H.P. on } 11' \text{ span}$$

is good for

$$W = \frac{2 \times 15,000 \times \frac{48}{6} \times \frac{44}{6}}{11} = 13,090 \#$$
