This was my 2nd inspection in
reply to this complaint. I talked
to Mr. Quirk - He is not bothered
by the noise and is willing to move any
tenement in the front of the building to
the rear of the Ambassador or other
buildings. I went inside the buildings
& out while the motors were running
& also out side in different locations
with Quirk was with me, and in my
opinion the noise level is very
low and I don't think there is a
violation of noise level.

Mr. Hodgson said to take the
decimal machine in the near
future & record the noise level
etc etc;
