

STATEMENT OF ELEVATOR TESTS

PORTLAND, MAINE, August 22, 1951

I, Ellis S. Hanson
as an employee of Otis Elevator Company
installation of the escalator, hatchways and enclosures at Sears Roebuck & Company as permitted
under Building Permit 51/237, and have personally supervised tests of loading capacity and of all brakes, inter-
locking and all other safety devices, and I do here state that, according to my best knowledge and belief, the elevator will
safely carry the maximum rated loading and all brakes, interlocking and other safety devices are in satisfactory condition.

Gentlemen:

Building permit for cutting openings in first and second floors of store building at 110 Free Street is issued herewith based on latest plan dated February 12, 1951, but subject to the following:

1. It is noted that at certain locations along the edges of the floor openings no fireproofing is indicated for one side of the new steel beams, due probably to lack of space in connection with the installation of the escalator. This omission of fireproofing is allowable because the Building Code does not require the steel to be fireproofed.

2. All welding on the steel in connection with this work is required to be performed only by welders who have qualified and been certified for such work in the City of Portland as provided by the Building Code.

Very truly yours,

Warren McDonald
Inspector of Buildings

PRESENT USE OF BUILDING _____

CLASS OF CONSTRUCTION _____ NO. OF STORIES _____

REMARKS: _____

INQUIRY: 1- Can manhole from conduit for pipes from
- boiler room terminate in floor of pit of lubricatorium?
- Or will a continuation of manhole wall to 6" above
- main floor of lubricatorium be necessary?
- Can pipes from conduit extend up through floor of
- lubricatorium?

ANSWER: 1- If possible manhole should be outside building.
- but if this cannot be done masonry wall should be
- extended up through pit to a point at least 6" above
- lubricatorium floor with gas tight manhole cover pro-
- vided. Where pipes come up through lubricatorium
- floor, concrete curb at least 6" above floor should
- be provided for them to pass through and space around
- them should be made tight with noncombustible material

Dear Sir:

Your application to modify existing HVAC systems has been reviewed and a permit is herewith issued subject to the following requirement:

All duct work will be done in accordance with the BOCA National Mechanical Code, 1990, Article 3 Air Distribution Systems.

If you have any questions regarding this requirement, please do not hesitate to contact this office.

Sincerely,

S. Samuel Hoffses
Chief of Inspection Services

/el

PLUMBING NOTES

1. Remove two existing standard water closets
Reconfigure space
Provide one new floor mounted handicap water closet
2. Replace existing lav trim with goose neck faucet, wrist
blade handles and off set drain
3. Re-align partition - by others
4. Relocate existing water closet as per handicap code
(reference Dwg A-2)
5. Provide privacy curtain - by others

RE: 110 Free Street

Dear Mr. Hoffses:

The fire alarm system is going to be hooked up on June 4th at 110 Free Street and we are requesting an occupancy inspection for the first, second and third floors on the same date. Please advise.

Sincerely,

David H. Cook
President

Dear Mr. Hoffses:

I am requesting a certificate of occupancy inspection at 110 Free Street, formerly the Blue Cross Blue Shield building, for the first, second and third floors. If possible we would like the inspection to be done on June 3rd or June 4th, 1992.

Please call my office with a confirmation.

Sincerely,

RE: 110 Free Street, Portland

Allied Construction Company
Box 1396
Portland, ME 04104

Dear Sir:

Your application to make interior renovations has been reviewed and a permit is herewith issued subject to the following requirements:

No certificate of occupancy can be issued until all requirements of this letter are met.

1. All required Fire Alarm systems shall have the capability of "Zone Disconnect" via switches or key pad program provided the method is approved by the Fire Prevention Bureau.
2. All remote annunciators shall have a visible "trouble" indicator along with the Fire Alarm "Zone" indicators.
3. Any Master Box connected to the Municipal Fire Alarm System shall have a supervised Municipal Disconnect Switch.
4. All Master Box locations shall be approved by the Fire Department Director of Communications. A Master Box shall be located so that the center of the box is (5') five feet above finished floor.
5. This plan review is limited to the means of egress that includes the Stair #127 and Stair #115, Protection of vertical openings Stair #135 and Stair #112, Exit discharge, and egress from the cafeteria. All interior floor plan review, Fire Alarm System, Sprinkler System, electrical, and mechanical systems shall be reviewed by separate permit.
6. Vertical openings shall be protected in accordance with Section 27-3.1 of N.F.P.A. 101 Life Safety Code. Existing stairway enclosure doors shall be in accordance with Section 6-2.4.4(c.) as a minimum.
7. Opening in exit enclosures shall be limited to those necessary for access to the enclosure from normally occupied spaces, from corridor, and for egress from the enclosure. The following non conforming openings shall be remedied: door from Room 126, door from storage area beneath stair 017, door from elevator machine room 032 to the stair 033.
8. Door swing conflict of entry 101 shall be corrected.
9. Direction of door swing at lobby 016 shall be corrected.
10. A separate and remote means of egress from the cafeteria shall be provided.
11. All janitor closet doors and enclosures shall be fire resistance rated Ref. Section 6-2.3.5(f.)
12. Interior plans that are presented that provide access via new corridors to the exit shall be in accordance with section 26-3.6.
13. The communicating stair #135 shall be protected in accordance with Section 27-3.1 if it remains.
14. The builder of a facility to which Section 4594-C of the Maine State Human Rights Act, Title 5 M.R.S.A. refers, shall obtain a certification from a design professional that the plans of the facility meet the standards of construction required by this section. Prior to commencing construction of the facility, the builder shall submit the certification to the Division of Inspection Services.

If you have any questions regarding these requirements, please do not hesitate to contact this office.

Sincerely,

P. Samuel Hoffses
Chief of Inspection Services

WRITTEN CONSENT AND AGREEMENT RELATING TO A CERTAIN SIGN PROPOSED TO BE
ERECTED ON A BUILDING AT 110 FREE STREET
IN PORTLAND, MAINE _____ being the owner of the premises
at 110 FREE STREET in Portland, Maine hereby gives consent to the
erection of a certain sign owned by ABB ENVIRONMENTAL SERVICES over the
public sidewalk or on the building from said premises as described in
application to the Division of Inspection Services of Portland, Maine for a
permit to cover erection of said sign:

And in consideration of the issuance of said permit _____
owner of said premises, in event said sign shall cease to serve the purpose
for which it was erected or shall become dangerous and in event the owner of
said sign shall fail to remove said sign or make it permanently safe in case
the sign still serves the purpose for which it was erected, hereby agrees
for himself or itself, for his heirs, its successors, and his or its
assigns, to completely remove said sign within ten days of notice from said
Inspector of buildings that said sign is in such condition and of order from
him to remove it.

In Witness whereof, the owner of said premises has signed this consent and
agreement this 30th day of Nov 19 92
