Brown's Wharf  
Portland, Maine

cc to: Maingas  
Route 302  
No. Windham, Maine

Re: Brown's Wharf

A recent inspection showed that the new 1,000 gal. propane tank you took a permit out for has been installed. However, protective barriers around the tank have not as yet been installed.

Please be notified that protective barriers from vehicular traffic must be erected immediately. This tank is directly abutting a parking area which could be a hazard if the proper cautions have not been taken.

If you have any questions regarding this matter, do not hesitate to contact this office.

Very truly yours,

Marge Schnuckal  
Code Officer

Building and Inspection Services Dept.; Plumbing Inspection

July 13, 1971

Mid-Central Fish Company,  
Brown's Wharf

Att: Alexander Hutcheon

Dear Mr. Hutcheon:

The building permit to construct a 1-story metal clad storage shed 11' x 25' was inadvertently issued on July 8th.

It is necessary for you to come to this office and make the necessary corrections on the plan as mentioned in the letter. Also a related fee of \$3.00 is to be paid to this office.

Will you please return the application copy and card to this office.

Very truly yours,

R. Lovell Brown  
Director

Brown's Wharf

July 8, 1971

Mid-Central Fish Company  
Brown's Wharf

Gentlemen:

Your permit to construct a storage shed 11'x25' on the end of the existing factory on Brown's Wharf is being reviewed and we find that the building has already been constructed prior to a permit application. Because of this a belated fee is required by the statutes of the Code and must be paid at this office prior to issuance of the permit. I would also like to call your attention to the fact that because this building is in the Fire District, it is supposed to be enclosed, therefore a door of some sort, such as a garage door, would be required on the open end. Please note that the 1x3 ledger indicated on the plan is not allowed, a 2x3 nailing strip is required.

When the above items have been clarified and the belated fee paid at this office we may be able to issue you the belated permit.

Very truly yours,

R. Lovell Brown  
Director

RLB:m

# APPLICATION FOR PERMIT

Class of Building or Type of Structure Third Class  
Portland, Maine, July 7, 1971

PERMIT ISSUED  
JUL 8 1971  
SIO

Re: Trident Packing Co., Inc.  
Brown's Wharf

12-29-70

George Lewis, Cumberland Cold Storage, Inc., 323 Commercial St.

Related permit issued to Kenneth Deveau, Sept. 21, 1970 for  
22'x37' frame shed addition on water side of former Trident Bldg.

This permit applied for after bldg. more than half completed.

Now two toilet rooms have been rebuilt inside this new shed without  
permit - ventilation completed to outside.

In the main bldg. - wood floor removed and concrete slab on grade  
added

wood columns removed - replaced with pipe columns - new hung ceiling  
added

Two new small office spaces, framed and completed

Sprinkler system ?????

Former Trident Packing Building

Jan. 5, 1971

Mr. George Lewis  
Cumberland Cold Storage, Inc.  
353 Commercial Street

Dear Mr. Lewis:

It has come to my attention that construction work has been performed at the above address without first having proper permits through the Building Inspection Department of the City of Portland. I have a list of a number of things that were performed and are in process, many of which are not being made to comply with the codes and I have checked the files for other buildings you own and find that the history in the past is always the same, that work is done without permits by you.

I should like to start the year out right by informing you that permits are required for work performed and should be applied for by those doing the contractual work for you. Mr. Cartwright has been more than fair in trying to convince you that our purpose is to be not only helpful to you but to insure that your construction procedures are correct and your employees are reasonably safe having working conditions and structures that comply with the codes set forth.

I am stating the time of January 11, 1971 for permits to have been taken out through this office or I will be prepared to pursue the noncompliances to our Corporation Counsel and possibly to a court of law. This office, as you are well aware has always been very cooperative with you in your enterprises, but in fairness to other people who comply with the laws of the City of Portland we feel we must press you to do the same. It is my hope that in the future you will cooperate with us so that we may help you and not spend our mutual time in the courts.

Very truly yours,

R. Lovell Brown  
Director of Building & Inspection Services

End of Brown's Wharf

April 10, 1967

Brown Fish Company Corp.  
Att: Ralph D. Bean  
Brown's Wharf

Dear Mr. Bean:

Permit to change portion of office to take-out service is being issued subject to plan received with application and in compliance with Building Code restrictions as follows:

1. It is our understanding that the existing toilet shown on the plan opens into the office area. If the toilet, however, is to open into area where the food is prepared then a vestibule will have to be built in front of entrance door to the toilet. This vestibule would need a self-closing door as well as the door on the toilet room.
2. This area to be used for preparation of food and drink shall have no undressed wood or other absorbent material exposed on walls or ceilings.
3. This permit does not include any other work that may be done on the end of this wharf in relation to this take-out service.

Very truly yours,

A. Allan Soule  
Inspector

Inquiry- End of Brown's Wharf

Feb. 8, 1967

Keith Parris  
Leavitt & Parris, Inc.  
230 Commercial Street

cc to: Fire Department  
cc to: Frederick Perkins, Brown Fish Company  
Brown's Wharf

Dear Mr. Parris:

Your application to erect a 30'x60' fire retardant canvas awning to be used as a shelter for a restaurant use at the above location has been given careful study and cannot be issued for reasons as follows:

1. Although this awning is of fire retardant canvas it is not noncombustible and therefore in violation of the requirements of Fire District number 2 which requires combustible material to be covered with 26 gauge metal.
2. As this would be for a restaurant use it would not meet requirements of Section 505.3.6 as to temporary uses and this shelter would be for a period of over ten weeks which is the maximum for temporary spaces for Public Assemblage.
3. This would not meet the limitations of Section 510.2b for time requirements and it is doubtful if the required approval could be secured from the Municipal Officers.

The size of this awning would figure out to allow more than 100 persons to gather here for consumption of food and drink which under Chapter 311 of the Municipal Code would be classified as a place of Public Assemblage. Section 311-5b of this ordinance limits the use of combustible material and would need the approval of the Chief of the Fire Department which we understand he is reluctant to give.

Very truly yours,

Gerald E. Mayberry  
Director Building & Inspection Services
