INSPECTION SERVICES DIVISION

April 26, 1984

Industrial Welding  
430 Commercial Street  
Portland, Maine 04101

Re: 430 Commercial Street

Dear Sir:

Your application to replace sills at 430 Commercial Street has been reviewed and a building permit is herewith issued subject to the following requirement.

In the process of replacing the sills, extreme care must be taken in not to expose too much of the structure without proper shoring.

If you have any questions on this requirement, please call.

Sincerely,

  
P. Samuel Koffses  
Chief of Inspection Services

PSH/jmr

# APPLICATION FOR SUBMETER

## For Sewer User Charge Adjustments

7/7/88  
Mr. Katz &  
Campbell  
noted 2"  $\phi$   
"scaler" sub mtr.  
still in.

Jeanne Morse (PWD)  
to handle Application  
& forward any paperwork  
to City of Portland file.

F. Brancely

The undersigned hereby requests permission to install additional water meter(s) in accordance with Section 322.6C of the "Municipal Code of the City of Portland, Maine".

It is understood that all expenses related to the purchase, installation, and maintenance of the meter(s) is to be borne by the applicant.

### To be Completed by Applicant

Address where sub-meter is requested 428 - 428 Commercial St.  
Holyoke Wharf

Property owner name Maine Fisheries Corporation

Tax Map Reference (on Real Estate Tax-Bill) 42-B-1,2

Property owner address Holyoke Wharf P.O. Box 1300 (since 1988)

Person to be contacted to schedule inspections Mr. Katz, 773-0343 (ca. 1983)  
Dave Bergson  
Al Robie  
(Name and Telephone Number)

Portland Water District Acct. No. (on bill) P-55-140 OA P-44-149-0C  
P-95-149 OB

Billing Name & Address (on bill) Maine Fisheries Corporation  
26 Holyoke, Portland, Maine

Location and size existing Portland Water District Service Meter 2 - 2 inch.  
meters as located on accompanying plan

Proposed location and size of sub-meter 1. Condenser Water Intake - 3 inch  
2. Scaler - 2 inch 3. Boat Water - 3/4 inch

Will a remote reading register be utilized? NO  YES (If yes, state location For the 2"  $\phi$  & the 3/4"  $\phi$  located next to the existing meters near the proposed 3"  $\phi$  sub meter.)

Description of proposed changes in plumbing required for submetering:

Minor piping change necessary at proposed condenser water intake

Sketch plan showing proposed changes in plumbing and the location of existing and proposed meters. Show water flow through submeter to non-discharge equipment or location (use additional sheet of paper if necessary)

The volume of water to be submetered can be shown not to enter the sewerage system by virtue of its use for:

1. Cooling (non contact) - discharged directly to Harbor
2. Water used on fishing boats
3. Fish transport water which is screened and discharged to Harbor

I certify the above information is true and correct:

Daniel Bergson

May 25, 1979

First - The applicant is to complete front of this form. The Tax Map Reference can be found on your Real Estate Tax Bill directly following owners name. The address to be copied from your Water & Sewer Bill as well as the District Account Number which is in the lower left corner of the Water & Sewer Bill.

Second - A completed application form to:

City of Portland  
Dept. of Public Works  
105 City Hall  
Portland, Maine 04101

ATTN: MR. WILLIAM GOODWIN

Third - The Public Works Department will call the person indicated on front side to schedule pre-installation inspection. During this inspection the Public Works section of this form (below) will be completed. Following this inspection Public Works will make copies of the application form. If the application is approved 3 copies will be made, one will be mailed to the City and Water District, one will be forwarded to the City Plumbing Inspector and one will be mailed back to the applicant. If the application is denied, one copy will be made and mailed to the applicant showing reason for denial.

Fourth - Upon receipt of a copy of the approved application, the applicant can purchase and install the sub-meter as approved. Following installation the applicant or his plumber must call the Chief Plumbing Inspector at 755-8451 Ext. 234 for an inspection of the completed installation. Following inspection by the Chief Plumbing Inspector, the Water District will be requested to read the sub-meter and arrange to have an automatic reading system (if applicable - See General Information) instituted where by the volume shown by the sub-meter will be credited on the Sewer User Charges of the Bill.

Section 22.04 of the Municipal Code of the City of Portland follows:

"Submetering of water volume. Any person who feels that his water records are not a reliable index of his discharge volume may install an additional water meter of a type approved by the Director to measure the volume of water which can be shown not to be in the sewerage system. The person installing such a meter shall immediately notify the Director of such installation and shall be responsible to the Director for reporting meter readings not less often than every three months. Such person shall be credited with the volume charges for the volume shown by such meter, which meter shall be accessible for reading by the City or its agents at all reasonable times."

The City and the District have arranged to relieve the customer from the reporting responsibility required above if both meters can be read simultaneously by the District's meter readers during their regularly scheduled visits to read the pre-installing service meter. This can be accomplished by locating the sub-meter directly adjacent to the pre-installing service meter or by coding the sub-meter located elsewhere with a remote reading register located so both readings can be made at the same time.

Approved meters are: Neptune and Rockwell meters, conforming to the following specifications:

1. shall meet or exceed ADA accuracy test requirements and be accompanied by a certificate of test accuracy.
2. the meters will have straight reading, cubic foot registers.
3. the meters will have the meter number stamped into the main case.
4. the meters shall be magnetic drive.
5. shall have either a rotating disc or oscillating piston.
6. shall have a bronze case.

Approved meters are available from the Water District, which sells them for the price the District buys them from the manufacturers. If you wish to purchase a sub-meter from the District you must bring your copy of an approved application with you at time of purchase.

## TO BE COMPLETED BY PUBLIC WORKS

Pre-installation inspection by William B. Goodwin

on July 18, 1979

Automatic reading system requested  YES  NO

A Watts ~~Back Flow~~ IN LINE Back Flow P. venter or equal shall be installed on the hose bibb of the sillcock used for boat water line
