MESSAGE

Sam,

Councilor Plumb has received a constituent concern regarding a building located at the end of Stetson Court, which was once a day-care and is now a music store. Allegedly, this music store has "hard practices" all the time, usually in the evening hours of 3:00 or 9:00. The neighbors are not happy with this noise, and wonder if the City can help them in any way.

Could you please have someone visit this site and ask for their cooperation? Any other action available under our ordinances would be appreciated as well. Please get back to me. Thanks, Sam.
