

### CITY OF PORTLAND, MAINE DEPARTMENT OF BUILDING INSPECTION

owner: Wayne & Geraldine Clough 169 Brackett St

September 5, 1973

With relation to permit applied for to demclish a small.
garage at 169 Brackett St
to commence demolition work until a permit has been issued from this department.
Section 6 of the Ordinance for rodent and vermin control provides: "It shall be unlawful to demclish any building or structure unless provision is made for rodent and vermin eradication. No permit for the demolition of a building or until and unless provisions for rodent and vermin eradication have been carried out under supervision of a pest control operator registered with the Health Department.
The building permit for demolition cannot be issued until the provisions of this section have been satisfied. It is the obligation of owner or demolition contractor or both to take up with the Health Department the matter of complying with this section, being prepared to inform that department what registered pest control operator is to be employed.
R. Lovell Brown
Eradication of this building has been completed.
Contractor:
owner, same address
no utilities connected.
No Evidence of Rodent Activity wit Garage ISnaff.

May 4, 1949

Mr. H. E. Henson 26 Bodge Street South Postland, Maine Subject: Permit for demolition and re-building of shed on rear of dwelling at 169 Brackett Street

The permit for the above work is issued herewith. We understand that one side of the existing shed is practically on the side lot line, but that the new structure is to be made to line up with the side wall of the main house, which is about 18" from that line. Issuence of this permit is allowable only if the new sted is to be made no larger in area and no greater in height of any part than is the present one and the permit is issued on the basis that this will be the case. If you the permit is issued on the basis that this will be the permit should plan to do otherwise, no work should be started and the permit should be returned to this office for adjustment.

No information is given as to the location of cedur posts to support the shed. Using the 4x6 sills indicated on edge, posts will be required at the corners and half way between the corners on the location of the attraction. long side of the structure.

Very truly yours,

Inspector of Buildings

AJS/G
