5-21-44-T

May 17, 1944

Mr. Patricia J. Richerty,
115 Brackett Street,
Portland, Maine

Subject: Application for building permit to
cover addition to existing garage at rear 111-117
Brackett Street (called 115)

Dear Sir:

I had to deny this permit because the addition which you proposed is an attempt to widen another addition which was added to the original two car garage a few years ago without a building permit having been secured from this department as required by law. Besides that violation of the law, the addition built at that time did not and does not satisfy the requirements of law as to the strength of frame of the building, the rear wall supporting the flat roof having no plate and no proper foundation; rafters are spliced and on too long a span for their size; rear wall is closer than two feet to the lot line and the eaves are closer than the wall.

If you will return the receipt for the fee paid to this office not later than May 29, 1944, your money will be refunded by voucher.

Inasmuch as you have apparently owned this property since 1920, you must have consented to or actually been responsible for the building of this addition to the two car garage. On that basis you are hereby directed to entirely remove the addition and properly finish the end of the original building where the addition was added not later than May 26, 1944, or I shall find it necessary to proceed against you without further notice for violation of the law. It will also be necessary for you to dispose of the material from the demolition in an orderly fashion on or off the property and also to dispose of several parts of a former poultry house which you had also built upon the property apparently without a building permit.

After this is all properly done and you desire to do any rebuilding it is necessary that you apply for another permit for what it is you want to build, giving suitable and clear sketches and other information on the application so that we can tell whether or not the law will be complied with; and not start the work until you have the permit card actually in your possession and posted upon the premises.

Very truly yours,

Wic/H
