CITY OF PORTLAND

R. LOVELL BROWN BUILDING AND INSPECTION DIRECTOR

July 5, 1977

22 Bramhall Street

Langford & Low P. O. Box 662 Portland, Maine

cc to: Maine Medical Center 22 Bramhøll Street cc to: Fire Chief

Gentlemen:

÷¢,

Ž,

A permit is issued herewith to construct a 122 x 60 foot addition to be used as a service building subject to the following Building Code and Fire Dept. requirements.

While the specs call for a complete fire alarm system as per drawings it is noted that the system shall be of a single zone for the entire building. The Fire Dept. requires the system to be zoned by floors therefore it could mean that 3 zones are required.

All passageway doors leading into the stairwells are to be classed B labeled fire doors.

There are to be illuminated exit signs at all exits with white lights on the outside if needed so that a person will not exit from a lighted enterior into the darkness.

The paint shop shown in the casement floor plan, in addition to the class B labeled door, needs a special vent therefrom so that any fumes will be discharged directly to the outside.

PERMIT ISSUED WITH LETTER

ESS/t

Very truly yours, all & mill Earle S. Smith Plan Examiner

P. S. A new hydrant shall be placed as drawn on site plan review map.

389 CONGRESS STREET

PORTLAND, MAINE 04111

March 29, 1977

Bailey Sign's, Inc. 553 Commercial Street Portland ME

cc: Maine Madical Conter Attn Donald Bail 22 Brawhall St; Portland

Dear Sir

An inspection of the property at the above-named location today reveals that two pole signs have been eracted without first obtaining a permit from this department. This is not allowable under the Portland building code.

It is necessary, therefore, that both of these signs be removed. and if a sign has been installed at 830 Congress St. (Ace our letter to you March 21, 1977) this too will need to be taken down.

We will need plans of these signs showing the foundation, the structural members of the signs, projection over the street, line, if any, height above the grade, the wording of the street, and the type of face used. Your application states plast facing; a strictly plastic face is not allowable under the We will also need a plot plan showing the location of the signs and drawn with a ruler, distance from the street li

It is therefore necessary that these signs be removed a once and not later than April 12, 1977 with new plans submit indicating new information listed above.

It is hoped that we have your cooperation in this matter sucthat further action by this department will not be necessary.

Very truly yours

A. Allan Soule Assistant Director

Bailey's Sign, Inc. 553 Commercial Street Portland ME

Gentlemen

In checking your application to erect a pole sign 3'x5' for the Maine Medical Center, it is our understanding that this sign will be on property that is not accessory to the hospital and owned by them. If this is the case, then we will be unable to approve this sign.

'If you will return your receipt for the fee pell we will be glad to have the City of Portland refund yo mono money.

Very truly yours

A. Allan Soule Assistant Director

WRITTEN CONSENT AND AGREEMENT RELATING TO A CERTAIN SIGN PROPOSED TO BE ERECTED PROJECTING OVER A PUBLIC SIDEWALK FROM THE PREMISES AT <u>MAINE</u> MOLICAL CENTER IN PORTLAND, MAINE

RECEIVED ADD 1 1977 DEPT. OF BLDG. INSP.

<u>MAINE Machical</u> being the owner of the emises at <u>22 BramHALL ST</u> in Portland, Maine hereby gives consent to the erection of a certain sign owned by <u>MAINE Meetical Churter</u> projecting over the public sidewalk from said premises as described in application to the Inspector of Buildings of Portland, Maine for a permit to cover erection of said sign;

And in consideration of the issuance of set permit <u>MAINE Medical Center</u>, owner c. aid premises, in event said sign shall cease to serve the purpose for which it was erected or shall become dangerous and in event the owner of said sign shall fail to remove said sign or make it permanently safe in case the sign still serves the purpose for which it was erected, hereby agrees for himself or itself, for his heirs, its successors, and his or its assigns, to completely remove said sign within ten days of notice from said Inspector of Buildings that said sign is in such condition and of order from him to remove it.

In Witness whereof, the owner of said premises has signed this consent and agreement this 28/3

October 6, 1975

Mr. Donald W. Bail Administrative Engines: Maine Medical Center 22 Branhall Street Fortland, ME 04102

Dear Mr. Bail:

I am in receipt of your letter of October 3, 1975, pertainaing to the request for consideration of an outside fire escape at Annex A (Rosenberg Wing).

I suggest you either make a sketch to submit to this office for review, or an appointment with the Fire Prevention Bureau and mysalf to review the conditions on the site. When we have found them to be satisfactory we may then entertain an application for permit for a metal fire escape.

Very truly yourse

R. Lovell Brown Director

Ð

RLD/mj

MAINE MEDICAL CENTER PORTLAND, MAINE 04102

Mr. R. Lovell Brown City Building Inspection Office 389 Congress Street Portland, Maine

October 3, 1975

RECEIVED. OCT 61975 DEPT. OF BLDG. INSP. CITY OF PORTLAND

Dear Sir:

In the State Fire Marshall's inspection report dated December 9th, 1974 the Maine Medical Center was asked to provide a second means of egress from Annex A (so called Rosenberg Wing), which houses office-administrative personnel. We had considered making moves to vacate the area but now find this impossible. However, in considering ways to accomplish the egress we feel that building construction prevents an interior means of egress and therefore we must resort to an outside fire escape. BOCA Code indicates on page 623, 1970 edition, that this is not acceptable without local approval.

We are requesting permission for constructing means for an outside egress.

٠

Yours truly, Donald W. Bail Administrative Engineer

MAINE MEDICAL CENTER

PORTLAND, MAINE 04102

Office of the Executive Director

April 7, 1971

R. Lovell Brown, Pirector Department of Building Inspection Portland, Maine

Dear Sir:

We have recently completed installation of a pair of swing Class "A" fire doors in the Pavilion corridor. They are to replace the roll drop door between the 1929 and 1956 Pavilions as per recommendation from the State Insurance Department.

There has been considerable discussion relating to this project and we, therefore, respectfully request that your office check this installation for completeness and correctness. We will proceed immediately with the remaining doors upon receipt of approval.

By separate letter we are also asking approval by the State Fire Prevention Commissioner and the Portland Fire Department.

Sincerely, Philip R. Reiman Executive Director (lixhhh)

PKR/jp

Ř.

We have reviewed your request for changing fire chutter to fire door as per plans submitted with your applicatikn and are issuing permit for same with the following compliances.

The new door system shall meet the requirements of the Building Code of the City of Portland and in particular Section 803. It shall also meet the requirements of the National Fire Protection Association Pamphlet 80, latest edition. The complete door frame and hardwares shall meet the requirements of the Underwriters label and bear the Mabel of same. Smoke and fire detection devices with magnetic Wold backs whould be installed on this type of door.

Very truly yours.

R. Lovell Brown Director, Building & Inspection Services

OFFICE OF PLANT SUPERINTENDENT

April 23, 1969

(207) 775 3454

Ô

City of Portland, Maine Department of Building Inspection Portland City Hall Portland, Maine

Dear Sirs:

We have been requested by the State Insurance Department to replace the roll fire doors at the Maine Medical Genter. With their cooperation and approval, we are proposing an installation of a pair of Class A, 3 hour, \pounds 1 3/4" doors sized at 3'6" per leaf and 6'8" high. The companion frame is 3 3/4" X $2\frac{1}{2}$ " OA. This installation would be of hollow metal construction and have a vestibule latch set. It would bear the Underwriters label.

Two sketches are enclosed to clarify the installation and location. New work is shown in orange.

If this plan of installation is satisfactory, we request a permit to proceed.

Yours truly,

Donald W. Bail Plant Superintendent

RECEIVED APR 23 1969 DEPT. OF BLDG. INSP. CITY OF PORTLAND

AP 22 Arsenal Street-M

Haino General Hospital 22 Arochal Street Atta: Mr. Barker ... Brown Construction Company 562 Congress Street

December 5, 1947

Subject: Building pursit for alterations on 7th floor of Maine General Hospital at 22 Arsonal

Contlonion:

ÍS

Hr. Barker was good enough to show me these proposed changes at the building and explain the purpose of them-to separate the maternity rocks from the balance of

1

The effect of the new solid partition across the sain corridor is to change the direction of means of egress so that percents would have to go through the elevator lobby to pass from corridor 701 to corridor 702. While this makes the means of egress connecting the two stairways less direct, the Building Code offers no objection to it.

We discovered that a decreary separating the two public corriders was evidently closed permanently with wallboard a long time ago. This opening is to be reopened, and thus the means of egrees will not be changed materially from that which exists at the present time. However, there obstructions in the public corrider do obstruct a view of the exit lights indicating the exit stairway at other end of the wing. The much as the Building Code requires that all assaus of egress shall be fully equipped to take to reach any of the means of egress, it becomes necessary to provide a direction tional exit lights the side of new partition toward corrider 701 indicating the means of egress through the elevator loby to corrider 702 and a similar directional exit these exit lights to be controlled by the same suite as the other exit lights.

Flease be governed accordingly.

Very truly yours,

Inspector of Buildings

AP 22 Arsenal Street

Kaine GMorel Hospital 22 Arsonal Street Portland 4, Laino

Attention: Mr. Barker

Gentlemen:

Movember 20, 1946

Subject: Building permit for alterations in first story of Maine General Respital. (original building) to provide soda fourtain and lunch room accessory to the hospital.

Permit for the above work is herewith, subject to the fellowing: It is understood that this is to be a hospital enterprise under the control of the hospital management and not a concession let out to cutside parties; also that the only fire-sotuated apparatus in the shop will be some appliance for making coffee.

As arranged with Mr. Barker because the thickness of the brick wall in which openings are to be out is not known, the permit is issued without inforsation as to the lintels proposed over the two openings on the basis that when the thickness of the walls are known the lintels will be designed and details furnished with the signed statement of the fasigner.

Vory truly yours,

KMOD/D

August 10, 1950

M. B. Bourne & Son, 56 Cross Street, Portland, Maine

Copy to Maine General Hospital 22 Arsenal Street

Gentlemen:

The permit for installation of a mechanical system of ventilation for a basement room in the Maine General Hospital at 22 Arsenal Street is issued herewith. The Building Code provides that such an installation shall be installed in accordance with the Standards of the National Board of fire Underwriters for the Installation of Air Conditioning, karm Air Heating, Air Cooling and Ventilation Systems as recommended by the National Fire Protection Association (Pamphlet #90). Because of its location in a hospital, it is important that all precautions be taken in connection with the location of the fresh air intske to prevent the apread of gas, smoke or fire throughout the building. In this connection the specifications of Sections 136, 113, 144 and 251 of this Standard are particularly called to your attention.

Very truly yours,

AJS/H
