Gentlemen:

Permit to erect at the above named location a detached pole sign approximately 6 1/2 feet wide by 13 feet high, with top about 23 feet above the ground and 4 feet of it projecting over the public sidewalk of Brackett Street, is not issuable under the Zoning Ordinance for the following reasons:

1. The sign is to advertise the business located in the building across the street at 181 Brackett Street instead of one conducted on the property on which it is located, contrary to the provisions of Section 16-A-4A of the Ordinance applying to the E-1 Business Zone in which it is located.
2. Both detached and projecting signs are forbidden in the E-1 Business Zone by the same section of the Ordinance.
3. The sign, which is to be located about ten feet from the line of Bradford Street would encroach unlawfully upon the 25-foot corner clearance area required by Section 19-A of the Ordinance.

We understand that the owner would like to exercise his appeal rights in this matter. Accordingly he or an authorized representative should come to this office in Room 110, City Hall, to file the appeal on forms that are available here.

IN THE BOARD OF APPEALS

VARIANCE APPEAL

Bradford Street

George H. Bartlett, owner of property at 184-186 Brackett St., corner
under the provisions of Section 24 of the Zoning Ordinance of the City of Portland, hereby respectfully petitions the Board of Appeals for a variance from the provisions of said Ordinance to permit: erection of a detached pole sign approximately 6 1/2 feet wide by 13 feet high, with top about 23 feet above the ground and 4 feet of it projecting over the public sidewalk of Brackett Street. This permit is presently not issuable because (1) The sign is to advertise the business located in the building across the street at 181 Brackett Street instead of one conducted on the property on which it is located, contrary to the provisions of Section 16-A-4a of the Ordinance applying to the E-1 Business Zone in which the property is located; (2) Both detached and projecting signs are forbidden in the B-1 Business Zone by the same section of the Ordinance; (3) The sign, which is to be located about ten feet from the line of Bradford Street would encroach unlawfully upon the 25-foot corner clearance area required by Section 19-M of the Ordinance.

LEGAL BASIS OF APPEAL: Such variance may be granted only if the Board of Appeals finds that the strict application of the provisions of the Ordinance would result in undue hardship in the development of property which is inconsistent with the intent and purpose of the Ordinance; that there are exceptional or unique circumstances relating to the property that do not generally apply to other property in the same zone or neighborhood, which have not arisen as a result of action of the applicant subsequent to the adoption of this Ordinance whether in violation of the provisions of the Ordinance or not; that property in the same zone or neighborhood will not be adversely affected by the granting of the variance; and that the granting of the variance will not be contrary to the intent and purpose of the Ordinance.

George H. Bartlett, Jr.

APPELLANT

DECISION

After public hearing held September 2, 1965, the Board of Appeals finds that all of the above conditions do exist with respect to this property and that a variance should be granted in this case.

It is, therefore, determined that a variance from the provisions of the Zoning Ordinance should be granted in this case.

Gentlemen:

We are unable to issue a permit for erection of a sign 3 feet by 6 feet to project a maximum of 6 feet from the front wall of the building at 184-186 Brackett Street at a minimum height of 12 feet above the surface of the public sidewalk because such a projecting-sign is not an allowable use under Section 8-A-10 of the Zoning Ordinance applying to the B-1 Business Zone in which the property is located. We understand that you would like to exercise your appeal rights concerning this matter. Accordingly we are certifying the case to the Corporation Counsel, at whose office the appeal should be filed.

Even though such an appeal should be sustained, we shall not be able to issue a permit for erection of the sign because of a question concerning the capacity of the upper side supports to furnish adequate resistance against wind load in view of the fact that the lower supports are to be only cable guys. Some change in design will therefore be necessary in this regard.
