Re: 8 Cushman Street, Portland, Maine

Dear Ms. Walker:

Your application to change the use from a two (2) family dwelling to a three (3) family dwelling has been reviewed and a building permit is herewith issued subject to the following requirements:

1. Each apartment shall have access to two separate and remote approved exists.
2. All vertical openings (stairways) shall be enclosed with construction having a fire rating of at least one hour including fire doors with self-closer.
3. Each apartment shall be equipped with an approved single station smoke detector powered by the house current.
4. The boiler room shall be enclosed with one hour fire rated construction including fire door and ceiling.
5. Plumbing, electrical and building permits must be obtained before this change can take place.

If you have any questions on these requirements, please call this office.

Sincerely,

P. Samuel Hoffses
Chief of Inspection Services

Demolition of Buildings Permit

8 Cushman St

(a) No building served by a building drainage system, sanitary or storm sewer, or both, which is connected to the public sewers or to a private sewer system connected to the public sewers, may be demolished prior to the termination of the building and/or facility sewer or drain at the city sewer under the inspection of the public works authority. The building sewer shall be terminated at the main, at the point designated by the public works authority.

(b) Notice of intent to demolish a building shall be given to the public works authority, by means of a copy of the application for a demolition permit from the building authority or by direct notice to the public works authority, in advance of the time when the building drain is to be terminated. No such demolition permit shall be issued until a drain termination permit has been issued by the public works authority and a copy thereof has been given to the building authority.

(c) The fee to terminate the building and/or facility sewer and/or drain system will be paid to the city in advance of the termination. The fee of two hundred fifty dollars (\$250.00) per termination represents inspection fees and materials to terminate sewer service. Upon payment of this fee and approval by the public works authority, the applicant shall be issued a sewer termination permit.

(d) Failure to give notice of intent to demolish a building to the public works authority, or to terminate the building drain prior to demolition thereof, or to obtain a permit therefor, shall be deemed a violation of this section, with each day in which the violation continues deemed to be a separate violation.

(e) All excavation for sewer service termination shall be made and maintained in compliance with all provisions of the construction safety rules and regulations of chapter 25, article VII of this Code.

Removal and disposal of demolition debris: Before a permit either to demolish or remove a structure or a part thereof or to remove or dispose of existing demolition debris, as defined herein, is issued, the applicant will satisfy the building official that:

1. All such debris will be removed from the island and transported to the mainland for disposal prior to the expiration of the permit;
2. The debris will be removed to a duly licensed disposal facility; and
3. The disposal of the debris at such facility will be in accordance with all applicable federal and state rules, statutes and regulations relating to the transportation and disposition of such material.

Demolition debris: Demolition debris includes, but is not limited to, materials which are created by site preparation, clearing land or erection of a structure. It also includes, but is not limited to, brush, tree limbs, stumps; and building materials and the waste products of building activity, such as: clay, brick, masonry, concrete, plaster, glass, wood and wood products, asphalt, rubber, metal; and plumbing, electrical and heating fixtures, appurtenances thereto and parts thereof.

No demolition debris shall either be disposed of or stored on any of the islands.
