Memorandum from Department of Building Inspection, Portland, Maine

50 Spruce Street-Installation of forced circulation hot water boiler for
Ada Souviney and by T. J. Katz-4/16/47

To Owner & Installer:

Application says there will be one additional furnace connected to the same flue. Building Code provides there shall be only one other connection to the flue, where hot water boiler is to be connected unless approved by this department. We are approving the arrangement at the owner's risk, and if anything wrong should develop due to this arrangement either from improper draft or fire hazard, correction will have to be made at the owner's expense.

March 30, 1945

Mrs. Ada Souviny, 50 Spruce St. Subject: Application for building permit to take
Mr. Harry B. Lowell, 52 Spruce St. alterations in the building at 50 Spruce St.

Dear Madam & Sir:

While I can issue a separate permit to repair the roof covering on the garage,
I cannot issue the construction permit covering the alterations contemplated until
the question of legal use of this building has been settled.

Mrs. Souviny will remember that I wrote to her on August 5, 1944, stating
that as far as we could determine here, the building had been changed illegally from
a two family dwelling house to a three family apartment house since 1926, no permit
or certificate of occupancy having been issued to cover the change.

That letter explained that if Mrs. Souviny could show that the use of the
building had not been so changed since 1926, she could do so in writing. She has
not done so.

The letter told her to proceed in event she wanted to establish a three family
apartment house legally and continue to occupy it for that purpose. No steps have
been taken in that direction.

At that time we found that a one-room beauty shop was being operated by Mr.
Souviny in the building, having been established there contrary to the Zoning Law
in the Apartment House Zone where the property is located. I recollect talking with
Mr. Souviny over the telephone about this beauty shop, and that she took down the
sign which advertised the beauty shop. Irrespective of the sign, if the beauty shop
is still being carried on there, even in a single room, it is in violation of the
Zoning Ordinance.

Only lack of time in this department has prevented pressing these violations
of both Building Code and Zoning Ordinance.

I must insist that the owner get both of these violations cleared up quickly,
or I shall have no option but to proceed against her for violation of these laws
without further notice.

Very truly yours,

Inspector of Buildings

Wich/S

P.S. If you wish to repair the roof covering of the garage, prior to settle-
ment of these other matters, application for a separate permit for roof repair should
be made, and that permit secured before the roof repair is started. In event separate
application for the roofing job is made, the applicant should state clearly that this
is legally only a two family dwelling house.

Memorandum from Department of Building Inspection, Portland, Maine

50 Spruce Street - Application for building permit to construct dormer window on building at 50 Spruce Street 7/25/44

J. H. Kennedy,
 105 Preble Street

Dear Sir: There will be a little delay in issuing the above permit because the question has arisen here as to whether or not this building is legally a tenement house. A hurried examination would indicate that perhaps it has been converted from a two family house to three or more apartments since 1926 without securing a building permit and certificate of occupancy from this department. At any rate it is necessary for us to determine the true situation before building permit is issued.

(Signed) Warren McDonald
 Inspector of Buildings

It is understood that this permit does not include installation of heating apparatus which is to be taken out separately by and in the name of the heating contractor.

7-25-44 There are three families occupying this 3 story building. Rear out side apt is on third floor. Steps for the people who go off an external ramp. I did not see about the out side side rear stairs, but I feel sure there is to much sketch. The permit has been issued for consideration if this thing & floor to an apartment this has been existing for several years, but

I believe a continuation of this out side apt should go to the department either by budget or steps!

City of Portland, Maine

Appeal to the Municipal Officers to Change the Decision of the
Inspector of Buildings Relating to the Property Owned
by Mrs. Ada C. Souviney at 50 Spruce Street

June 25, 1934

To the Municipal Officers:

Your appellant, Mrs. Ada C. Souviney

who is the owner of property at 50 Spruce Street

respectfully petitions the Municipal Officers of the City of Portland to change the decision of the Inspector of Buildings relating to this property, as provided by Section 13, Paragraph c, of the Zoning Ordinance, on the ground that the enforcement of the ordinance in this case involves unnecessary hardship and because relief may be granted without substantial derogating from the intent and purpose of the Zoning Ordinance.

The decision of the Inspector of Buildings denies a permit to construct a dormer window about eighteen feet (18') long on the easterly side of the roof of an existing 2-family dwelling house on the ground that the proposed new work would be closer to the side property line than is ordinarily permissible in the Apartment House Zone where the property is located.

The reasons for the appeal are as follows: The appellant has a bedroom on the second floor of the rear ell which is very nearly worthless because there is insufficient window space in it. The sole purpose of this dormer window is to provide sufficient light and air in this bedroom. The apartment house on the adjoining lot opposite this proposed dormer window is a considerable distance from the property line in question.

34/12

June 30, 1934

To the Municipal Officers:

The Committee on Zoning and Building Ordinance Appeals to whom was referred the appeal of Mrs. Ada C. Souviney with relation to the construction of a dormer window on the roof of the building at #50 Spruce Street, reports as follows:

It is the belief of this committee that failure to grant this permit involves unnecessary hardship, and that desirable relief may be granted without substantially derogating from the intent and purpose of the Zoning Ordinance.

It is recommended that the appeal be sustained and the permit granted subject to full compliance with the terms of the Building Code, and subject to the condition that a suitable gutter will be provided along the edge of the dormer window which is involved in this appeal and the gutter connected by the means of down-spouts to the sewer, or some other arrangement made satisfactory to the Inspector of Buildings so that water from the roof will not run upon the adjoining property.

COMMITTEE ON ZONING AND BUILDING
ORDINANCE APPEALS.

Chairman.
