 Other buildings on same lot _____
 Estimated cost \$ 100. Fee \$ 50

Description of Present Building to be Altered
 Memorandum from Department of Building Inspection, Portland, Maine

110 Pine St. Owner, Joseph Couri 5/23/40

Dear Mr. Couri:

Your attention is called to the fact that this permit is issued on the basis of an enclosed garage, and that it does not allow the construction of a skeleton frame or shelter for storage of a car under it; also that upon acceptance of this permit you are binding yourself to put in all of the fire resistance indicated and to close permanently the door in the rear wall of the shed which would open into the garage.

I want to again call your attention to the fact that it will be difficult if not practically impossible to get a car in or out of this garage without damaging either the car or the building on account of the close quarters in which the garage will be located.

(Signed) Warren McDonald
 Inspector of Buildings

the heating contractor.

Description of Present Building to be Altered

Material wood No. stories 3 Heat _____ Style of roof gambrel Roofing _____
 Last use tenement house No. families 3

General Description of New Work

To construct a one story one car garage 12' x 20' attached to the rear of the existing three family tenement house. The roof will be substantially flat, is to have a railing around so it may be used as a piazza but is to have no roof, access to be secured from existing piazza. All of that wall of the garage which will be against the enclosed part of the tenement house and against existing open piazza will be protected on the inside by plaster on metal lath or perforated gypsum lath extending from the top of the wall to the roof boards and there will be no door between the existing tenement house and the garage. Concrete piers will be provided for foundations extending four feet below grade of ground, one at each of the four corners and two intermediate piers in each side with one center pier under rear wall, making a total of nine piers in all. It may be decided to support the roof on one side on the tenement house framing for part of its length.

It is understood that this permit does not include installation of heating apparatus which is to be taken out separately by and in the name of the heating contractor.

Dear Ms. Bennett:

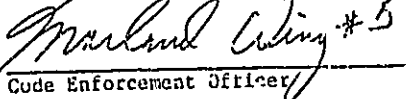

A recent inspection at the above named address of which you are listed the present owner, showed that alterations have been completed, or are in the process of being completed, that require building permits from the City of Portland as defined in the 1990 BOCA Building Code and/or Portland Municipal Code.

It is therefore necessary for you to come to City Hall, 389 Congress Street, Room 315, to file an application for these required permits. This must be done within five (5) days of receipt of this letter. Failure to abide by this request could result in court action and a fine of up to \$500 to \$1,000 per day for each day this violation exists.

I look forward to your cooperation.

Yours truly,

P. Samuel Hoffses
Chief of Inspection Services

Code Enforcement Officer
