#### Memorandum from Department of Building Inspection, Portland, Maine

296 Brackett Street—Alterations for Mrs. Anna Amato by F. F. & C H. Murray—contractors

5/5/48

Zoning appeal having been sustained by the Board of Appeals relating to construction of an outside chimney in the rear yard, the building permit is issued to the contractors, horswith, subject to the understanding that they plan to use an 6x8 in place of the bearing partition to be removed instead of the 6x8 originally indicated on the application and that posts will be used under either end of this timber extending down to a satisfactory bearing at the cellar floor level so as to adequately support the work above this partition to be removed.

WiscD/8

CC: Mrs. Anna Amato 296 Brackett Street

(Signed) Warrow McDonald
Inspector of Buildings

April 26, 1945

Hrs. Anna Amato 29% Brackett Street Portland, Naine Subject: Application for building pensit to include construction of outside chismey projecting into required rear yard and proposed zoning appeal relating thereto

Dear Mrs. Amato:

The building permit to include construction of an outside chimmy and fireplace projecting into the rear yard of your building in not issued because your property is located under the Zoning Ordinance in an Apartment house Zone where, the clear space required between the wall of the chimney and the rear property line is no less than 10', according to Section 7B of the Toning Ordinance, while there will be only 42' between the wall of the chimney and this rear line.

Hr. Hurray, your contractor, says that you are desirous of getting this work underway immediately, and that you most likely would like to seek an exception from the Board of Appeals with the idea that the Board might allow the chimney to be thus closer than ordinarily permitted to the rear line, especially in when of the fact that the land on the other side of the line is a public school word.

Accordingly there is enclosed an outline of the appeal procedure. As it happens the Board of Appeals has a hearing on other matters on Friday, April 33, and if you could file your appeal at the office of Corporation Counsel no later than tomorrow afternoon April 27, it is quite likely they would be able to act upon the matter on Friday—otherwise a delay of at least two weeks would ensue.

Very truly yours,

Inspector of Buildings

## City of Portland, Maine Board of Appeals —ZONING—

April 27, ,19 48

To the Roard of Appeals:

Your appellant, Mrs. Anna Amato , who is the owner of property at 296 Brackett Street , respectfully petitions the Board of Appeals of the City of Portland to permit an exception to the regulations of the Zoning Ordinance relating to this property, as provided by Section 17, Paragraph E of the Zoning Ordinance,

Application for building permit to include construction of outside chimney projecting into the rear yard of this building is not issuable because this property is located under the Zoning Ordinance in an Apartment House Zone where the clear space required between the wall of the chimey and the rear property line is no less than 10' according to Section 7B of the Zoning Ordinance and there will be only 4-1/2' between the wall of the chimney and this rear line.

The facts and conditions which make this exception legally permissible are as follows:-

arrial arriale

# City of Portland, Maine Board of Appeals —ZONING—

#### Decision

Public hearing was held on the 30th day of April , 19 48, on petition of Mrs. Anna Amato , owner of property at 296 Brackett Street , seeking to be permitted an exception to the regulations of the Zoning Ordinance: relating to this property.

Building permit to include construction of outside chimney projecting into the rear yard of building at 296 Brackett Street is not issuable because this property is located under the Zoning Ordinance in an Apartment House Zone where the clear space required between the wall of the chimney and the rear property line is no less than 10' according to Section 7B of the Zoning Ordinance and there will be only 4-1/2' between the wall of the chimney and this rear line.

The Board finds that an exception to the ordinance is necessary to grant reasonable use of property and avoid unnecessary randship and can be granted without substantially departing from the intent and purpose of the Zoning Ordinance.

it is, therefore, determined that exception in this specific case.	1 to the Zanton O. 11	
in this special case.	to the Zoning Ordinance may	be permitted
