Dear Mr. Andrews,

In reviewing our file, I find that a permit issued to you on June 10, 1980, permit #00393 to square off diner, add addition of 8½ ft. x 25 ft. to diner and to set this addition as 12 in. sona tube 4 ft. below grade was never completed.

I must inform you that you are in violation of section 113.2 of the building code which states. "Any permit issued shall become invalid if the authorized work is not commenced within six (6) months after issuance of the permit, or if the authorized work is suspended or abandoned for a period of six (6) month after the time of commencing the work.

It is my opinion that you have abandoned this project and it is left in a condition that is fast becoming an unsafe structure.

I will give you until October 19, 1981 to come to this office and obtain a permit to complete this work, and to make correction to any unsafe conditions. If we do not hear from you by this date, demolition procedure will be commenced.

If you have any questions regarding this action you may contact this office by calling 775-5451 ext. 346.

Sincerely,

MEMORANDUM

DATE: 1-7-81

TO: Walter Hilton

FROM: Marge Schmuckal, Bldg. Insp.

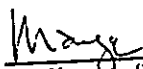

SUBJECT: Diner at C Street & St. John Street

Per your request, the following is a summary of recent inspections at the above location.

On 11-19-80 Mr. Andrews was actively working on the diner, erecting an exterior wall on the right hand side of the building.

On 11-24-80, no one was working at the time of inspection, but most of the building had been skirted with plywood. The rear right side was left unskirted.

I have distinguished no other changes since that date except for a meter box on 1-5-80 that had been installed. There is no electricity hooked up to it at this time.
