Dear Mr. Merrill,

have received your Application and Permit to handle Hazardous Material (CG-4260) for the liquid petroleum gas (LPG) tank you intend to store on your facility. A thorough review of your proposal indicated that because the product will not be transported in commerce but used solely to service lift trucks, the hazardous material transportation requirements of 49 CFR and the dangerous cargo handling requirements of 33 CFR 126 do not apply.

While permit approval is technically not required in this case, I appreciate the opportunity to review your planned installation. Your concern for safety in bringing this to our attention is commendable.

If you have any questions, please contact Lieutenant Jeff Gafkjen at 207-780-3251, extension 173.

Sincerely,

BURTON S. RUSSELL
