Re: Fire at 1191 Congress St.

Dear Anania's Inc.,

On December 2, 1980 a fire occurred in the building listed above, of which you are reported to be the owner.

If permanent repair work is required for this building, you must obtain a permit from the Building & Inspection Dept. in City Hall before starting such work.

Very Truly Yours,

Chief
Portland Fire Department

cc: Building & Inspection Dept.
Health Dept. (Housing Div.)
City Assessor's (Mr. Lucci)

Fire started in the front hall stairway and extended throughout the entire second floor.
Stephen Joy was booked for murder.

RE: 1189 Congress St.

Dear Mr. Carey,

This office is unable to issue a permit to erect a 6' x 14' pole sign (wooden) in the yard of the dwelling at the above address because plans submitted to this office did not tell us how the sign was to be constructed or hung, nor the size of the pole, nor the depth below grade of the pole on which the sign is to be hung.

When this information has been provided to this office by letter or diagram, we will then be in a position to issue the permit.

Very truly yours,

The undersigned hereby applies for a permit to install the following heating, cooking or power equipment in accordance with the Laws of Maine, the Building Code of the City of Portland and the following specifications:

Location *1189 Congress St.* Use of Building *Swelling* No. Stories *2* New Building
Name and address of owner of appliance *Henry N. Cassidy* Existing "
Installer's name and address *Ballard Oil & Equip 135 Mayfield Way* Telephone *2-1991*

General Description of Work

To install *one fully automatic oil burner for heating steam boiler*

IF HEATER, OR POWER BOILER

Location of appliance or source of heat
If wood, how protected? Type of floor beneath appliance
Minimum distance to wood or combustible material, from top of appliance or casing top of furnace Kind of fuel
From top of smoke pipe From front of appliance From sides or back of appliance
Size of chimney flue Other connections to same flue
If gas fired, how vented? Rated maximum demand per hour

IF OIL BURNER

Name and type of burner *1 - C.C.S. - Cas* Labelled by underwriter's laboratories? *yes*
Will operator be always in attendance? *no* Does oil supply line feed from top or bottom of tank? *bottom*
Type of floor beneath burner *concrete*
Location of oil storage *basement* Number and capacity of tanks *1 - 275 gals*
If two 275-gallon tanks, will three-way valve be provided? *no*
Will all tanks be more than five feet from any flame? *yes* How many tanks fire proofed? *none*
Total capacity of any existing storage tanks for furnace burners *none*

IF COOKING APPLIANCE

Location of appliance. Kind of fuel Type of floor beneath appliance
If wood, how protected?
Minimum distance to wood or combustible material from top of appliance
From front of appliance From sides and back From top of smokepipe
Size of chimney flue Other connections to same flue
Is hood to be provided? If so, how vented?
If gas fired, how vented? Rated maximum demand per hour

MISCELLANEOUS EQUIPMENT OR SPECIAL INFORMATION

Amount of fee enclosed? *1.00* (\$1.00 for one heater, etc., 50 cents additional for each additional heater, etc., in same building at same time.)

APPROVED:

OK. 6-23-47. Pm

Will there be in charge of the above work a person competent to see that the State and City requirements pertaining thereto are observed? *yes*

Helen M. Cassidy
1189 Congress Street
Portland, Maine

Subject: Application for building permit to allow
construction of one story frame rear addition to
grocery store at 1189 Congress Street.

Dear Madam:

I find that there was one error in my letter of June 17 and one matter of doubt
not called to your attention.

My letter stated incorrectly that if you desired you could build right up to
that side line if you used a masonry wall eight inches thick with fire resistive win-
dows and a parapet wall at the top. This is wrong, that property being located in a
local business zone, the building must have a setback of at least 7 feet from the
side property line. The only exception your addition could be allowed is 5 feet
from the line, if that is in a violation of the existing building code imposed under
the Zoning Ordinance in such a case, providing it complies with the Building Code re-
quirements for set back. The 3 foot setback is a Building Code requirement.

The additional question is that it is to be of the cellar entrance which is
at the rear of the present building, how large the opening is to be between the pre-
sent building in the first story and the rear addition and that if any work is to be
done about the existing side entrance door in first story. These details must all be
indicated on the plan.

Very truly yours,

Inspector of Buildings

KMcD/J

At 1189 Congress Street-1

June 27, 1946

Helen M. Cassidy
1189 Congress Street
Portland 4, Maine

Subject: Application for building permit to allow
construction of one-story frame rear addition
to grocery store at 1189 Congress Street

Dear Madam:

Apparently the dimension of 6' 3" shown on your location plan was meant to indicate the distance from the side wall of the proposed addition to the building on the next lot, but it is the property line dividing the two lots which controls the situation under the Building Code, and an inspector from this office finds that the wall of the addition (if a continuation of the side wall of the present building) would be only about two feet from the property line.

Under these circumstances the Building Code will not allow me to issue the permit because Sec. 270b provides that no part of a wooden frame building for mercantile purposes shall be built closer than three feet to such a property line. Thus, if you are to build the addition, all parts of the addition, including the overhang of the eaves will have to be set at least three feet from the property line, or you could under the law construct that wall of the addition of masonry no less than eight inches thick and build it as close to the property line as you want to, but in the latter case the masonry wall would have to be carried at least 18 inches above the roof of the addition and any windows in that wall would have to be standard fire windows (metal case and fire glass).

3' If you should decide to set the building back so that the overhang would be at least three feet from the side property line, it is necessary that you furnish a new location plan showing clearly that this distance will be observed from the property line to the overhang of the roof or the eaves.

OK If you should decide to go ahead on this basis of setting the addition three feet from the line, there are a few questions as to the structural details proposed, and these should be cleared up at the same time as you file the new location sketch. If you mean by the application that the 2x6 sills and center girder will be on spars between supports of five feet, then that arrangement works out all right for strength. If some other arrangement is intended, it should be shown clearly on a foundation plan.

12" The 2x6 roof joists on 12-foot spans would not be strong enough if spaced 16 inches from center to center as shown. They would be if spaced no more than 12 inches from center to center, or you could use 2x8's spaced farther apart. Indicate which you will do.

note: Also indicate how the drainage from the roof will be taken care of, especially if it would run down on the side of the building toward your close property line.

You can hardly build the addition for the estimated cost of \$100 if you figure the cost as the Building Code requires. You are required to include all labor and material at reasonable market prices, even though you have the material on hand, even though the material is second hand or donated and even though the labor may be your own or donated. It is necessary that you check this matter over and give us the complete estimated cost.

If you decide not to go ahead with the proposition and will return the receipt for the fee paid to this office not later than July 10, 1946, the fee will be refunded by voucher.

Very truly yours,

W.McD/S

C-44-1-I

1/27/44-T

January 24, 1944

Mr. Harry Brown,
54 Pine Street,
Portland, Maine

Subject: Installation of heating boiler at
1133-1151 Congress Street without first
securing a permit therefor in violation
of the Building Code.

Dear Sir:

It is almost beyond belief that you did not know that a permit from this department is required before such a boiler is installed. Your reason that you thought it was a replacement not requiring a permit is in error because the only type of replacement which does not require a permit is one of a device of the same kind and design placed in exactly the same location and with precisely the same kind of connection to chimney as the appliance it is intended to replace.

At any rate you know the requirements now, and it is necessary that you apply forthwith at this office for a belated building permit, giving on the application full information as to the location of the heater and required information as to clearances of heater and smoke pipe from combustible material, the size of the chimney into to which it is connected and what other connections, if any, exist to the same flue.

You have used a makeshift and unsatisfactory method of supporting the steam pipes in two or three places,--in one place a wooden prop, in another a piece of rope hung up to the floor joists and another place a piece of wire. Before we can issue the belated building permit it will be necessary for you to support these steam pipes in the usual permanent manner by standard pipe hangers or equivalent.

Very truly yours,

WMS/g

NOTES

3/29/43 - This building has a store in the 1st story and an apartment over it in the second story. There is a set of rear stairs leading down into the rear of the store but these are piled with stored material from store. Police officer Skewine, who is attached for work in the Treasurer's office, was on duty with there at time of fire and assisted in leading occupants of 2nd story and experienced some difficulty in getting them out. He tried to get down

the rear stairs but was unable to do so. Of course these stairs ran into store and after reaching there one might have been able to get out if store were closed.

The building code does not require two means of egress from this building apparently so I should say we cannot require any change of condition, but thought I would make this note since Skewine was unable to.

Fire damage is all confined to roof over front piazza, rafters and roof boarding being charred somewhat.

29/1755-I

July 11, 1930

Mr. Henry Randall,
1145 Congress St.,
Portland, Maine

Dear Sir:

With relation to the alterations of your building at 1145 Congress Street undertaken as authorized by Building Permit No. 29/1755, we find upon inspection of foundation that it is in very poor condition and that it has not been completed. Both the wall under the rear part and some portions of the piers under the front are unsatisfactory and may be unsafe.

You are hereby directed to discontinue all new work in connection with this foundation and remove all parts of both wall and piers that appear to be soft, or not an integral part of the main foundation, taking proper care to see to it that the building is properly supported temporarily to prevent any possibility of collapse. After the true condition of the foundation is determined by this examination, and it may be well for you to get a competent concrete man to advise you in regard to it, you are required to report to this office what you propose to do to make the foundation comply with the law.

We shall expect to hear from you in regard to this matter on or before July 21st, 1930.

Very truly yours,

Inspector of Buildings.

McD/W.

September 4, 1929

Mr. F. S. Harrington
145 Westbrook Street
Portland, Maine

Dear Sir:

You have applied for a building permit in the name of Henry Randall to build a second story and addition to his building at 1145 Congress Street.

Upon the examination of this building by the undersigned, Mrs. Randall advised that none of this work would be commenced until next spring at least, and that the mind of the owner was not fully made up as to just what and how much he would do.

I should be unable to issue the building permit without considerable more information, and under these circumstances, it seems idle to complete the application for the permit at this time.

If you will return the receipt for the fee paid to this office, your money will be refunded by voucher.

Very truly yours,

Inspector of Buildings.

JW/HU
CC- Mr. Henry Randall

APPLICATION FOR PERMIT

Class of Building or Type of Structure Third Class

PERMIT NO. 1753
SEP 4 1929

Portland, Maine, August 17, 1929

September 25, 1928.

Mr. Henry Randall
1145 Congress Street
Portland, Maine.

Dear Sir:

Enclosed is the building permit covering erection of an outside chimney at 1145 Congress Street.

It is necessary for you to bear in mind that where the connection is made from this chimney to the inside of the building for the smoke pipe, a projection should be built from the chimney by means of corbeling the brick work in such a manner that the projection will extend through to the outside wall of the building for connection with metal or other smoke pipe on the inside. You will understand that this is to be done in such a manner that the metal smoke pipe will not pass through the wooden wall of the building.

Very truly yours,

WM/EP

Inspector of Buildings.

To Whom It May Concern:

The Committee on Zoning and Building Ordinance Appeals will hold a public hearing in the Council Chamber, City Hall, Friday, March 30th at three o'clock in the afternoon upon the petition of Henry Randall who seeks permission to establish a gasoline filling station at 1145 Congress Street.

All persons interested either for granting or for denial of the above petition will be heard at the above time and place.

COMMITTEE ON ZONING AND BUILDING
ORDINANCE APPEALS.

March 29, 1928

Mr. S. S. Boyd
Committee on Zoning and Building Ordinance Appeals.

Dear Sir:

The petition of Henry Randall seeking permission to establish a gasoline filling station on the property at 1145 Congress Street has been referred to your Committee by the City Council.

The permit for the establishment of this filling station was denied because the location is in a Limited Business Zone where such a use is a non-conforming one.

There is attached a plan and photograph illustrating the proposition.

Respectfully submitted,

Inspector of Buildings

WM/EP

April 2, 1928

To the City Council:

The Committee on Zoning and Building Ordinance Appeals to whom was referred the petition of Henry Randall seeking permission to establish a gasoline filling station in a Limited Business Zone at 1145 Congress Street, reports as follows:

The Commissioner of Public Works reports that the petitioner has secured the written consent of the owners of the required amount of neighboring property frontage. A public hearing has been held at which no opponents appeared.

Recommended that the petition be sustained and the permit granted.

Committee on Zoning and Building Ordinance Appeals.

City of Portland, Maine

IN THE BOARD OF MUNICIPAL OFFICERS

IN CITY COUNCIL

April 2, 1928

Ordered, that the appeal of Henry Randall from the decision of the
Inspector of Buildings be sustained and that a building permit be
granted said Henry Randall as prayed for in his
original appeal.

Read twice and passed. Yeas 5.

A true copy of record.

Attest:

J. Edwin Smith
----- City Clerk.

Mr. Henry Randall
1145 Congress Street
Portland, Maine

Dear Sir:

Referring to your application for a building permit to move the store at 1145 Congress Street 15 feet further back from the street, your location plan is not sufficiently clear to tell whether or not the work will comply with the Ordinance.

It will be necessary for you to submit a new location plan which will show the entire extent of your property both width and depth and show all of the buildings upon that property and the location of them with respect to the lot lines. Also the distances from the proposed location of the store to all lot lines.

It will also be necessary for you to indicate the spacing, size, and material of the foundation. If the building is to be set upon posts either of wood or concrete, it will also be necessary for you to show the size of the present sill.

Please furnish this information promptly so that we may be in a position to issue the permit if all the details are in compliance with the Ordinance.

Very truly yours,

Inspector of Buildings

Re: 1189 Congress St

Dear Mrs. Roberts,

In February of 1993 a lead determination, using a Pb3 Lead Analyzer, was conducted at the above referenced property prior to your moving in. No lead hazard was found to exist.

Please call if you need any further information.

Sincerely,

A handwritten signature in cursive script that reads "Arthur Rowe".

Mr. Ed Anania
1189 Congress Street
Portland, Maine 04101

RE: 1189 Congress Street

Dear Sir,

Your application to Change of Use (Tattoo Parlor) has been reviewed and a permit is herewith issued subject to the following requirements:

1. Means of egress shall be illuminated.
2. Means of egress shall have extinguishers with backup.
3. Hazardous areas including furnace room shall be separated from other parts of building by a fire barrier having a fire resistance rating of not less than 1 hour or by an automatic extinguishing system in accordance with Section 7.7.
4. Portable fire extinguisher shall be provided.

If you have any questions regarding these requirements, please do not hesitate to contact this office.

Sincerely,

S. P. Hoffses
Chief of Inspection
Services
