NOTES

1183  
March 23, 1927

Ralph A. & Lloyd H. Worth,  
Fidelity Bldg.,  
Portland, Me.

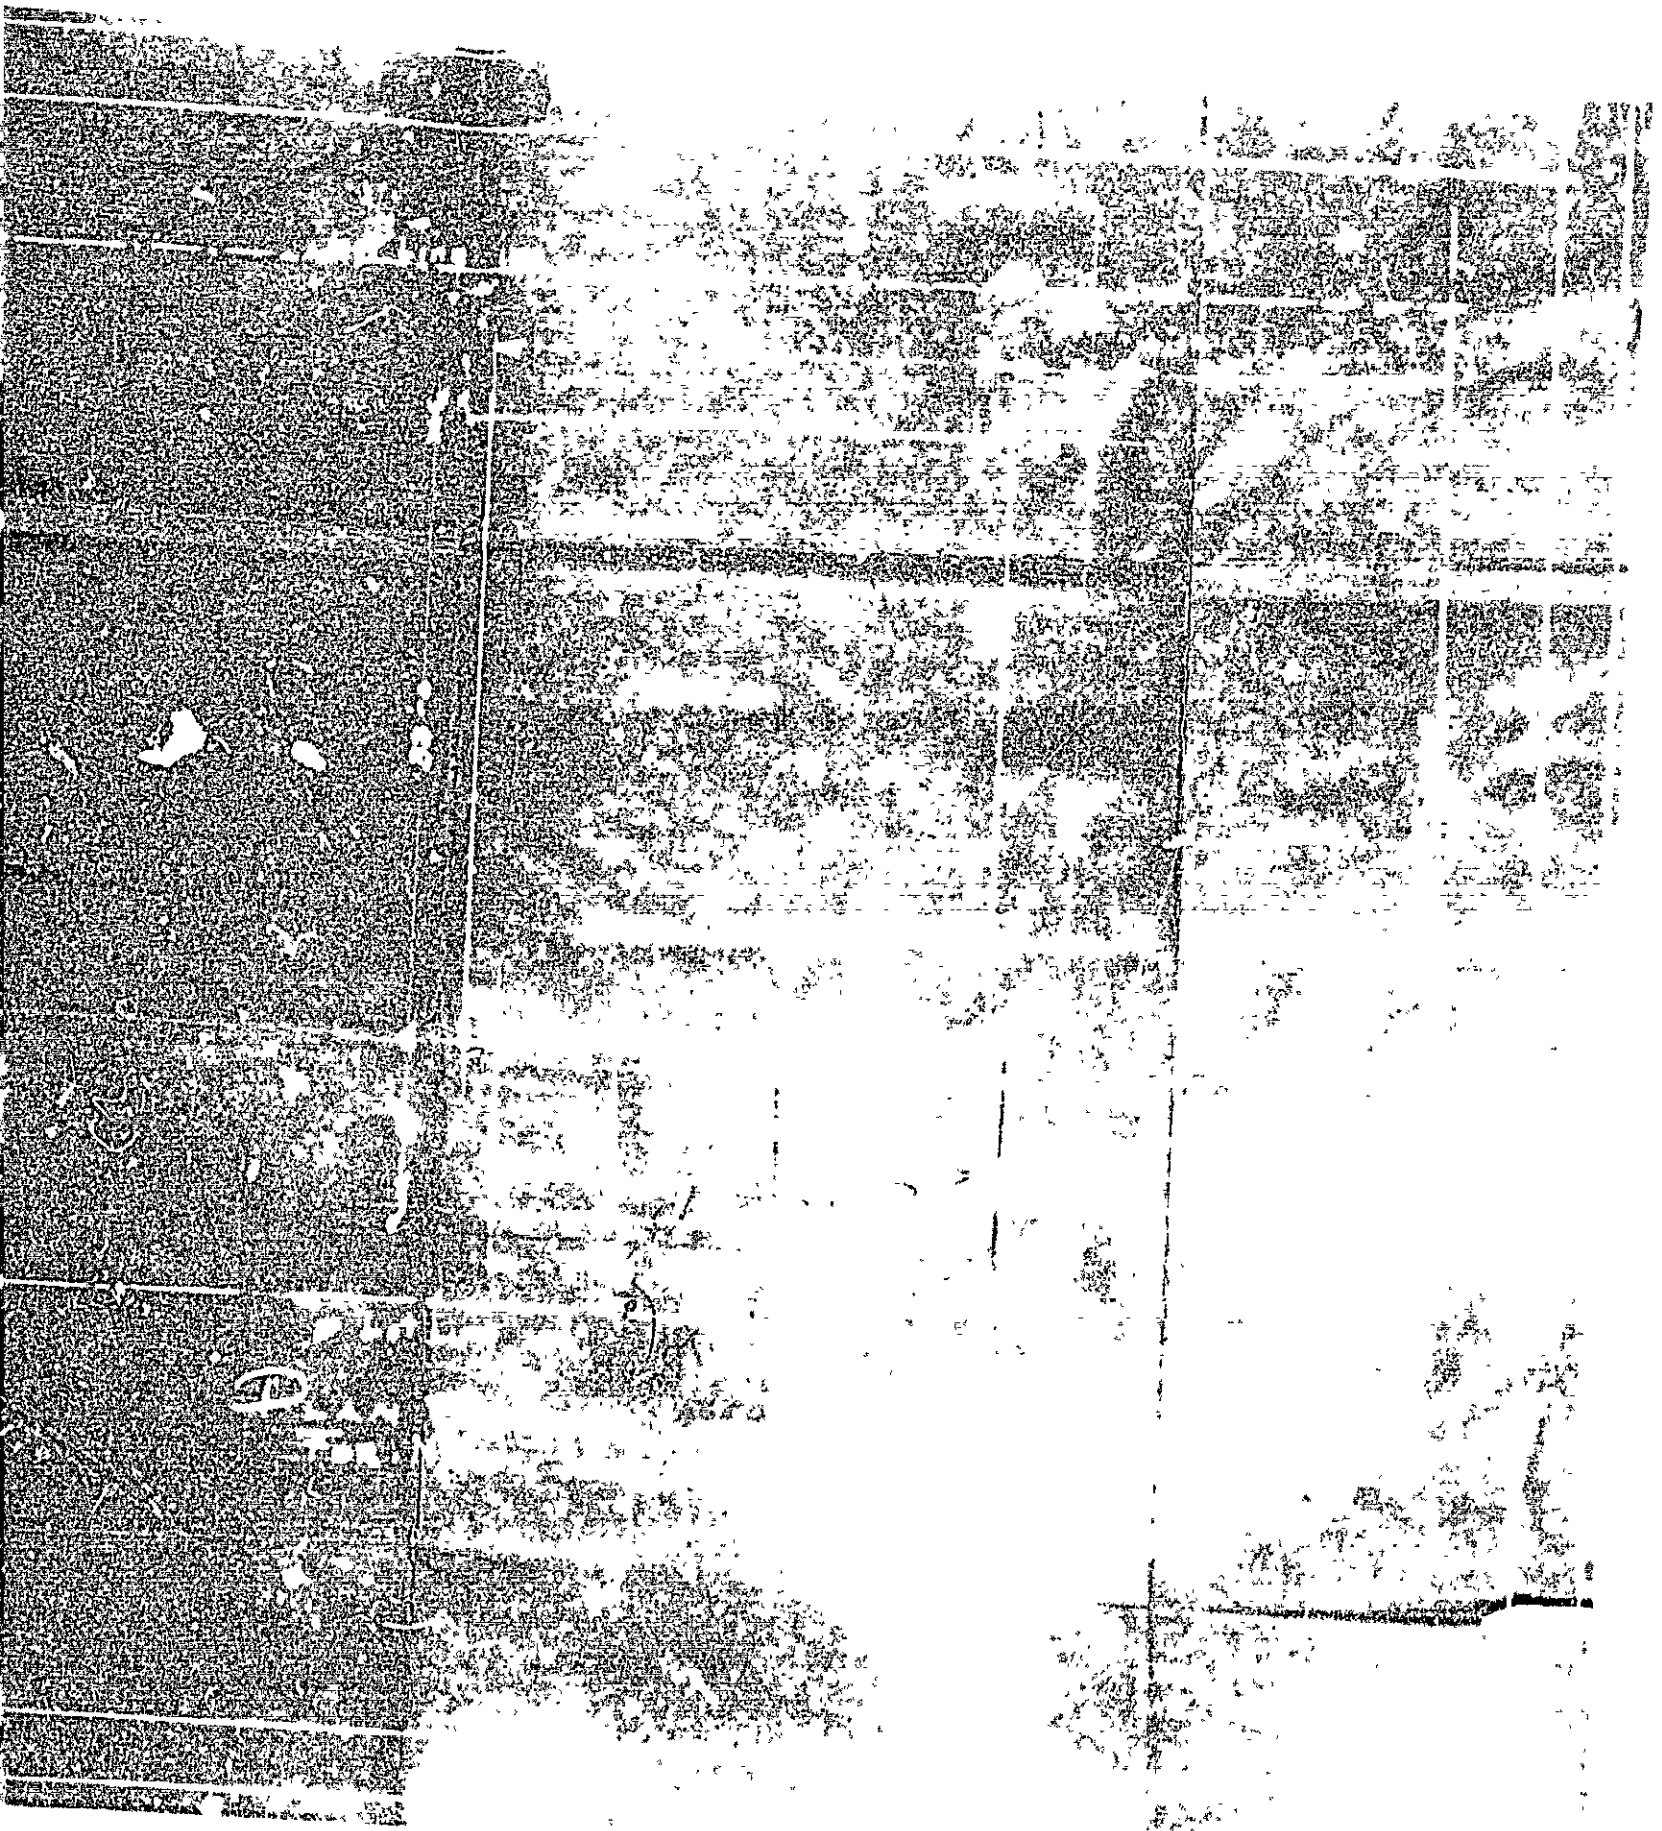

Gen. Incon:

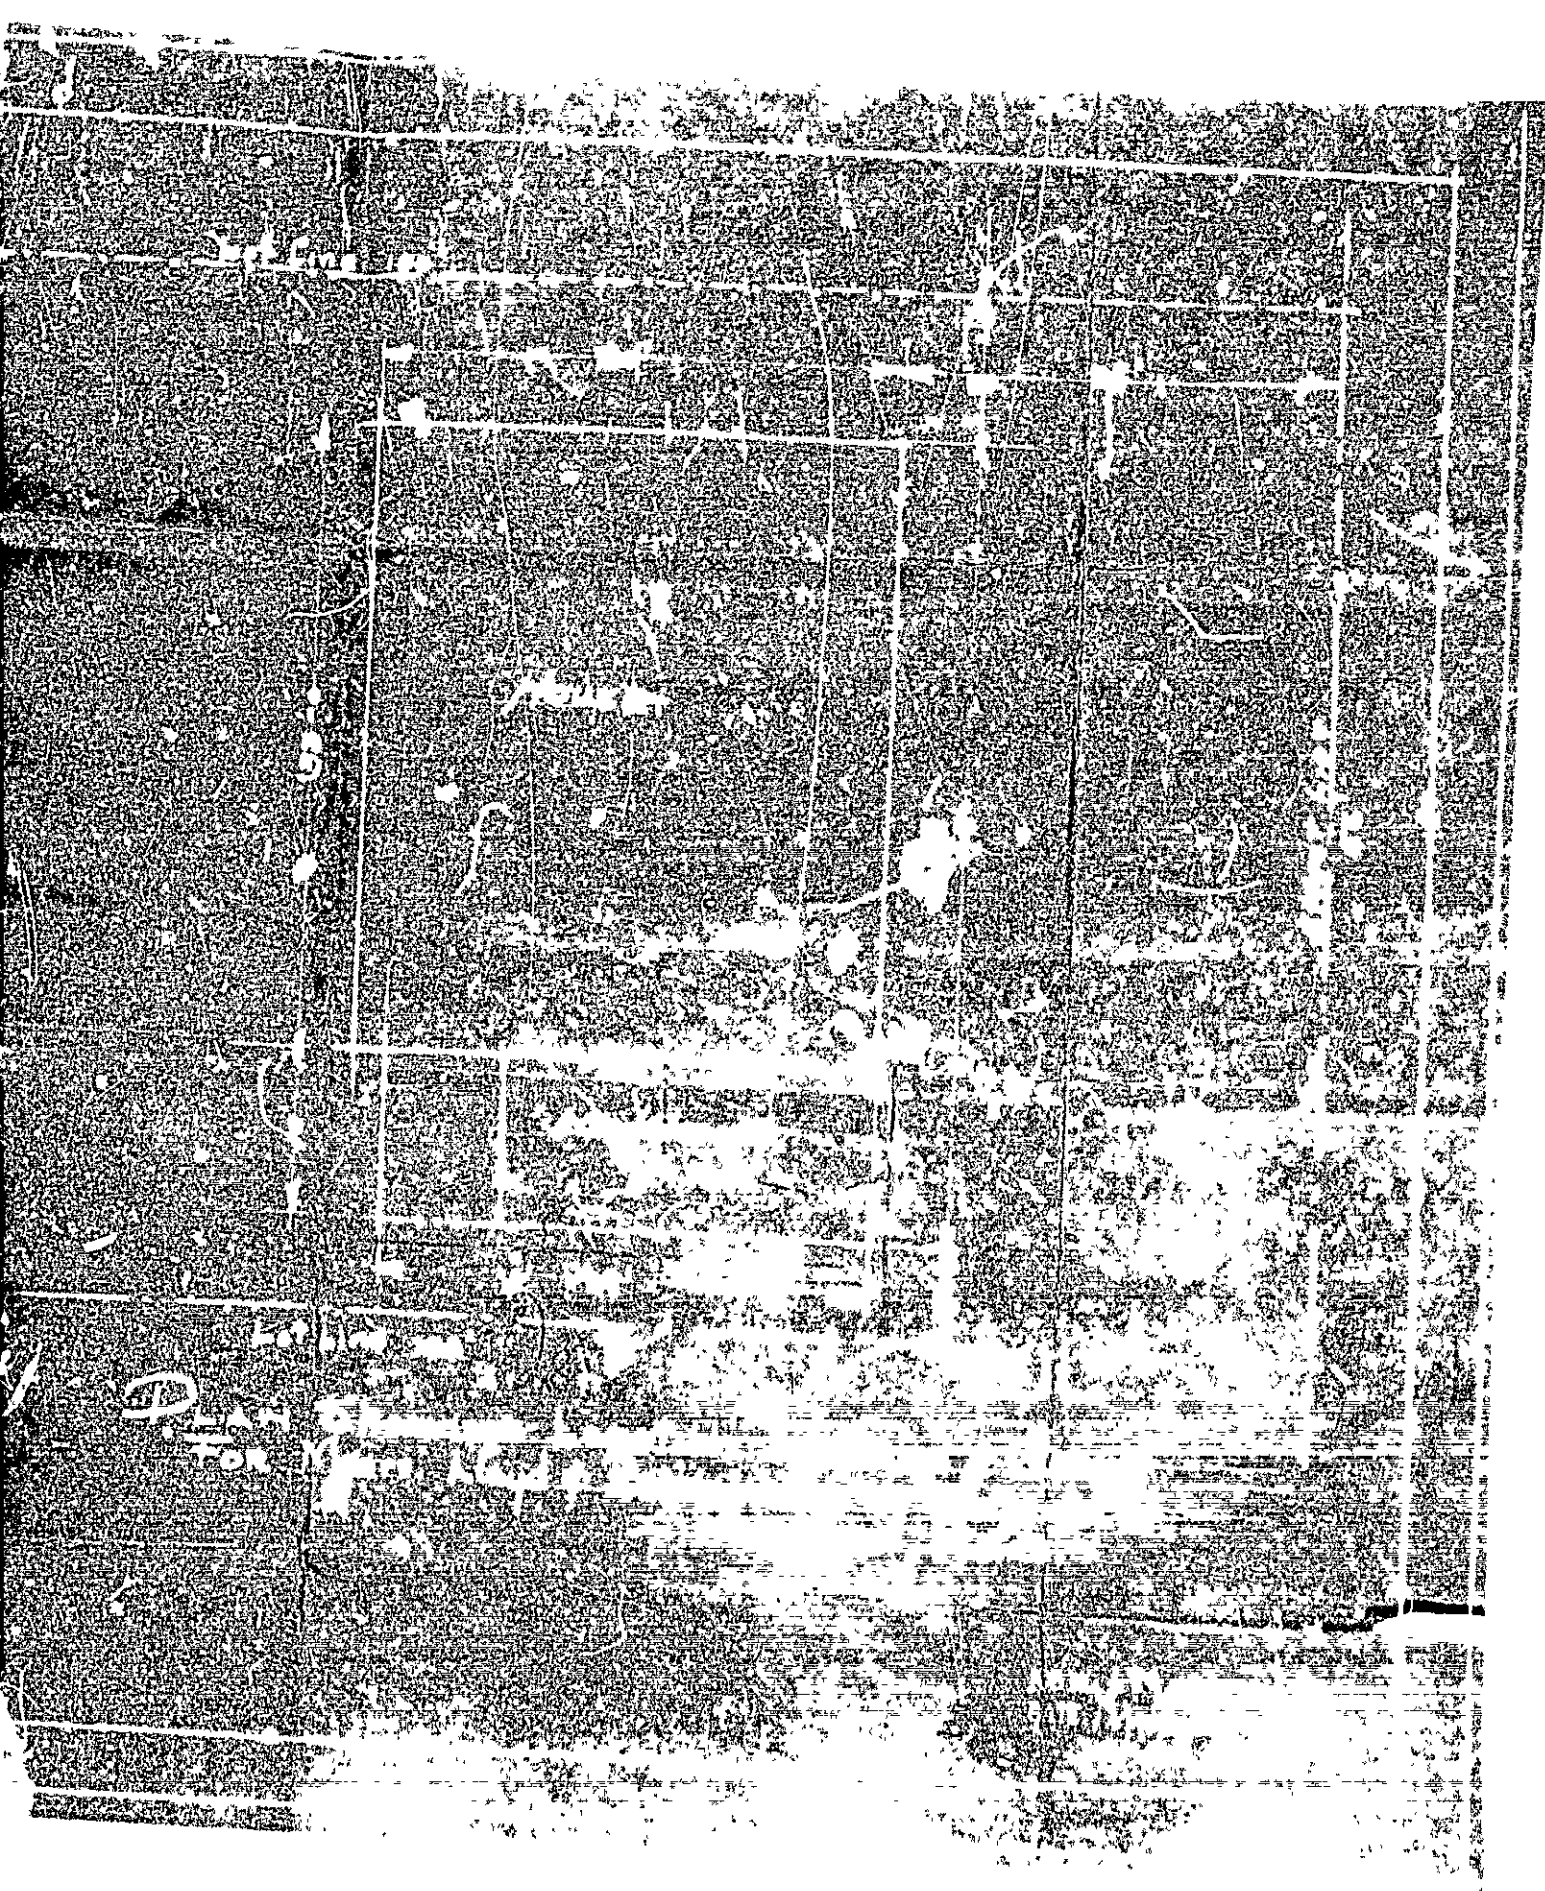

Inspection of the combined dwelling house and private garage which you have under construction on Lots 98-100, Heffield St., shows that the two doorways connecting the dwelling and garage have not been equipped with self-closing fire doors, that the frames of these doors have not been covered all over with metal, that no raised threshold has been provided at the door leading to the collar, and that no tight incombustible fire stop has been provided around the chimney at the first floor level.

You are hereby advised that the law requires that you have from this department a Certificate of Occupancy before this house and garage are occupied, and that you are required to give two working days' notice of readiness for final inspection before the certificate can be given. Obviously this certificate cannot be given until these conditions mentioned above are corrected.

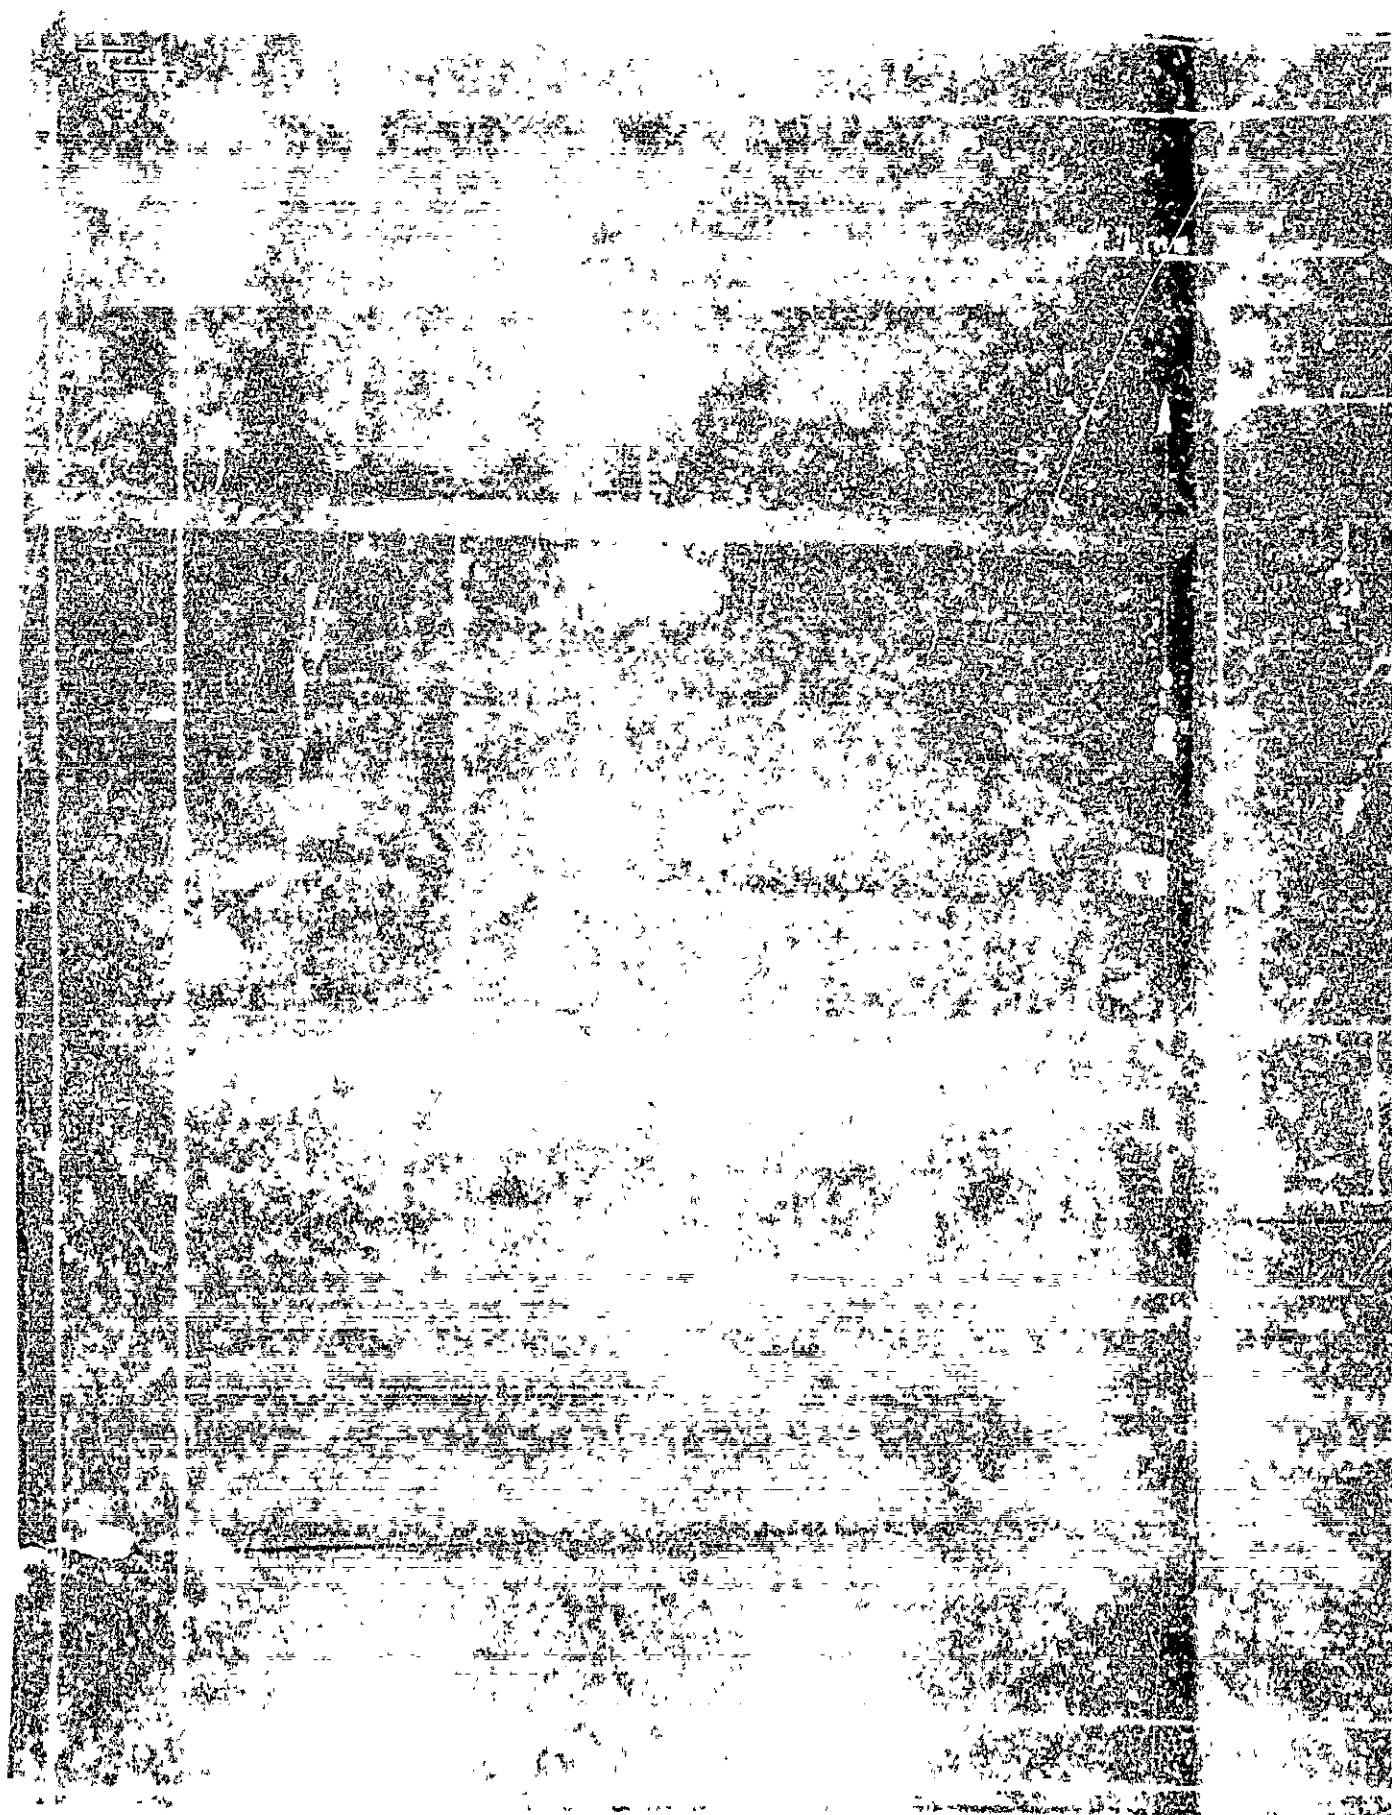

Yours truly,

Inspector of Buildings
