Memorandum from Department of Building Inspection, Portland, Maine

Meridian Street, Peaks Island---(Read)---Change in window for and by Marion D. Reed
7/22/46

To Owner:

There is not information enough with application to show whether or not the doubled 2x4 header will be strong enough on the 3'-6" span. If the header would support floor joists or rafter overhead it may not be enough. At any rate you will get more strength by setting the 4-inch dimension of the 2x4's upright.
