85--J-36 Winding Way, Peaks Island

Donald Schei
Maple Street
Peaks Island, Me.

cc to: Bette Gamon
Winding Way, Peaks Island, Me.

Dear Mr. Schei:

Building permit to construct an addition on the rear of your existing dwelling 14' x 20' as per plans received with the application is being issued subject to the following.

1. I cannot tell from these plans if there is any large opening between the existing building and this addition (anything over 3' wide). If there is, let us know the span and the size header you propose to use.
2. You show a 4x8" girder on a 11' span. This is good for only 2,265 lbs., and the floor load will be 4,400 lbs. It is therefore necessary that you use a larger size girder on that span, such as, a 4x10 Douglas Fir member or a full size 4x10 hemlock member.
3. I assume from looking at your plans that a 4x4" post is to be provided 3' from the house and extend up to the 4x8 beam that supports part of the roof load.

Very truly yours,

A. Allan Soule
Assistant Director
