JOSEPH E. GRAY, JR.  
DIRECTOR OF PLANNING  
AND URBAN DEVELOPMENT

August 23, 1983

Mr. Charles A DeRoche  
872 Mass Avenue  
Cambridge, Mass. 02139

RE: Lots on Plan 87-II-34 & 39 at Peaks Island

Dear Mr. DeRoche:

We have searched our records and find that there are no records of any malfunction of the cesspool on this property. As long as this cesspool is properly maintained, it is a legal way to dispose of the sewerage from this building.

This house was re-built in May of 1975 and was completed May 3, 1977, at which time a complete inspection was made of the complete plumbing system, which consisted of a new sink, bath tub, lavatory, hot water tank and automatic washing machine. To this date there has been no failure of the system, and is therefore acceptable to this department.

Sincerely,

Erno R. Goodwin  
Chief of Plumbing Inspections
