April 26, 1927.

A. W. Jensen,  
Brackett Ave.,  
Peaks Island, Me.

Dear Sir:

Referring to our application for a building permit to cover location of a poultry house 20' by 43' on your property on Brackett Ave., Peaks Island, this property lies in an Apartment House Zone and the size of the building is such that it cannot be considered an accessory use under the Zoning Ordinance. A poultry house is counted a farm building under the Zoning Ordinance and is permissible in an Apartment House Zone, but the law requires that the building set at least twelve feet from your rear lot line and the Building Code forbids locating the building closer than five feet to your frame private garage.

If you decide to go ahead with the work, it will be necessary to furnish a new location plan showing the building located as above. If, on the other hand, you will not proceed with the work, your fee paid to this office will be refunded if you will return the receipt on or before May 10, 1927. In the meantime, it is unlawful to proceed with any of the work until you have the permit actually in your possession.

Yours truly,

Inspector of Buildings.
