

FLEASANT AVE., PEAKS ISLAND

90-W-1

Sept. 46890-I

June 26, 1939

Mr. J. P. Moss,  
Peaks Island  
Portland, Maine

Dear Sir:

Enclosed is the building permit covering alterations of the cottage of Ella Stainton on Pleasant Avenue, Peaks Island.

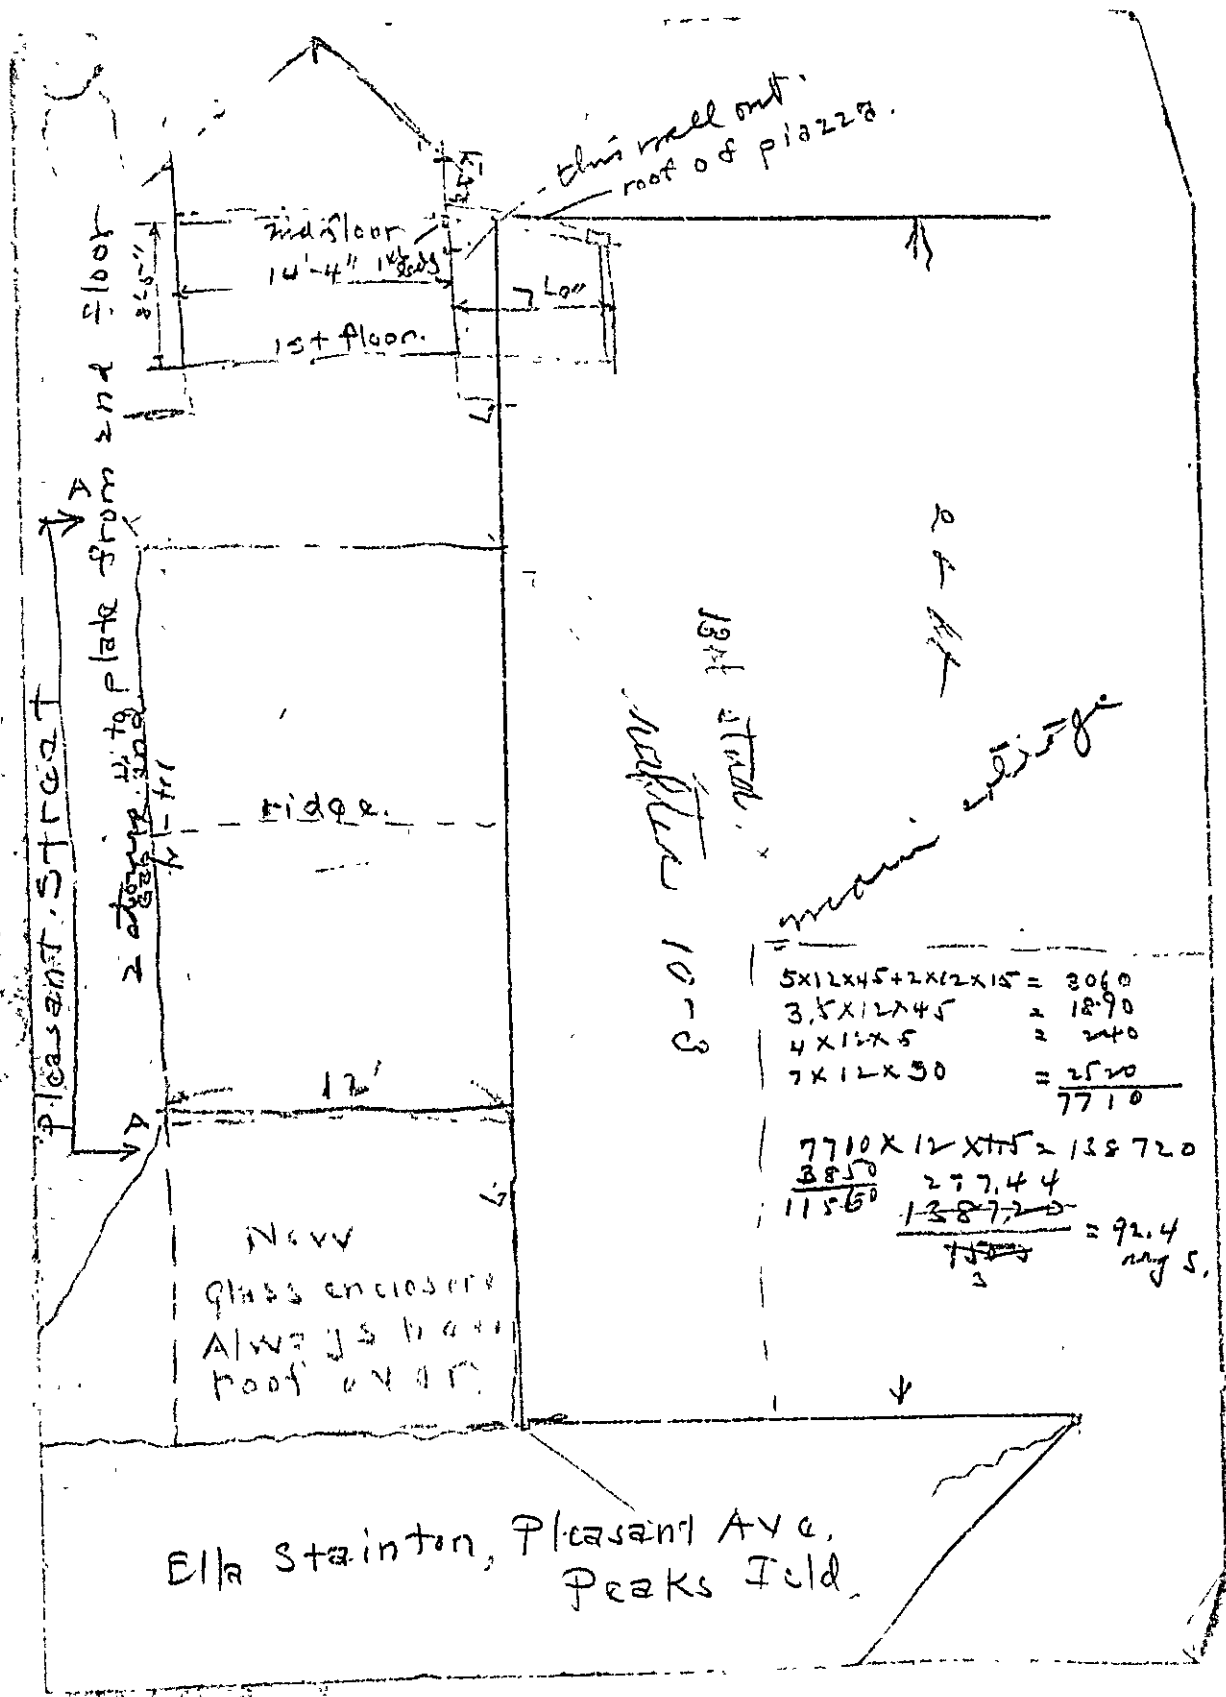

Since the 4x8 which you proposed to take the place of the 12 foot bearing wall is not sufficient, I understand that you now propose to truss this opening as follows:

Using a 4x8 as a horizontal bottom chord directly beneath the second floor joists; using 4x4 top chords, both getting a good bearing at the ends of the 4x6, pitching toward each other upwards and meeting at a peak directly under the present plate; a one inch steel rod threaded and provided with a plate and nut on each end will be run from above the plate at the peak down through the bottom chord; 2x4 studs will then be run between bottom chord and top chords and between top chords and the present plate, adequately to support the plate and rafters.

Very truly yours,

Inspector of Buildings

WJH/H  
Cc: Ella Stainton,  
Pleasant Avenue,

Permt. 46330-I

June 22, 1953

J. P. Foss,  
Peaks Island,  
Portland, Maine

Dear Sir:

There is not enough information with your application for a permit to cover, including other things, the removal of a 12' x 12' wall in the cottage of Ella Stainton on Pleasant Avenue, Peaks Island. We must check the situation and know whether or not the 4x8 header or girder which you propose will be sufficient to satisfy Building Code requirements.

Please furnish a plan to scale showing clearly how much of the area of the second floor or roof (with the pitch of the roof), how much of remaining wall, etc., will have to be supported upon this 4x8 girder on the 12 foot span so that we may be able to check the beam intelligently to see that it is heavy enough to carry the load.

Very truly yours,

MLD/H

Inspector of Buildings

CC: Ella Stainton  
Peaks Island

Dear Mr. McTigue:

We have received a plan for a second story on the building at Char: 90, Block W, Lot 1 on Pleasant Avenue, Peaks Island, to be constructed on Larry Lawrence's building. Is this building to be used for seasonal or year 'round use? The lot size is 6,300 square feet in area.

We will need a plot plan showing the amount of setbacks for the proposed two story building. This information will be needed before a building permit can be issued for this proposed 2nd story addition.

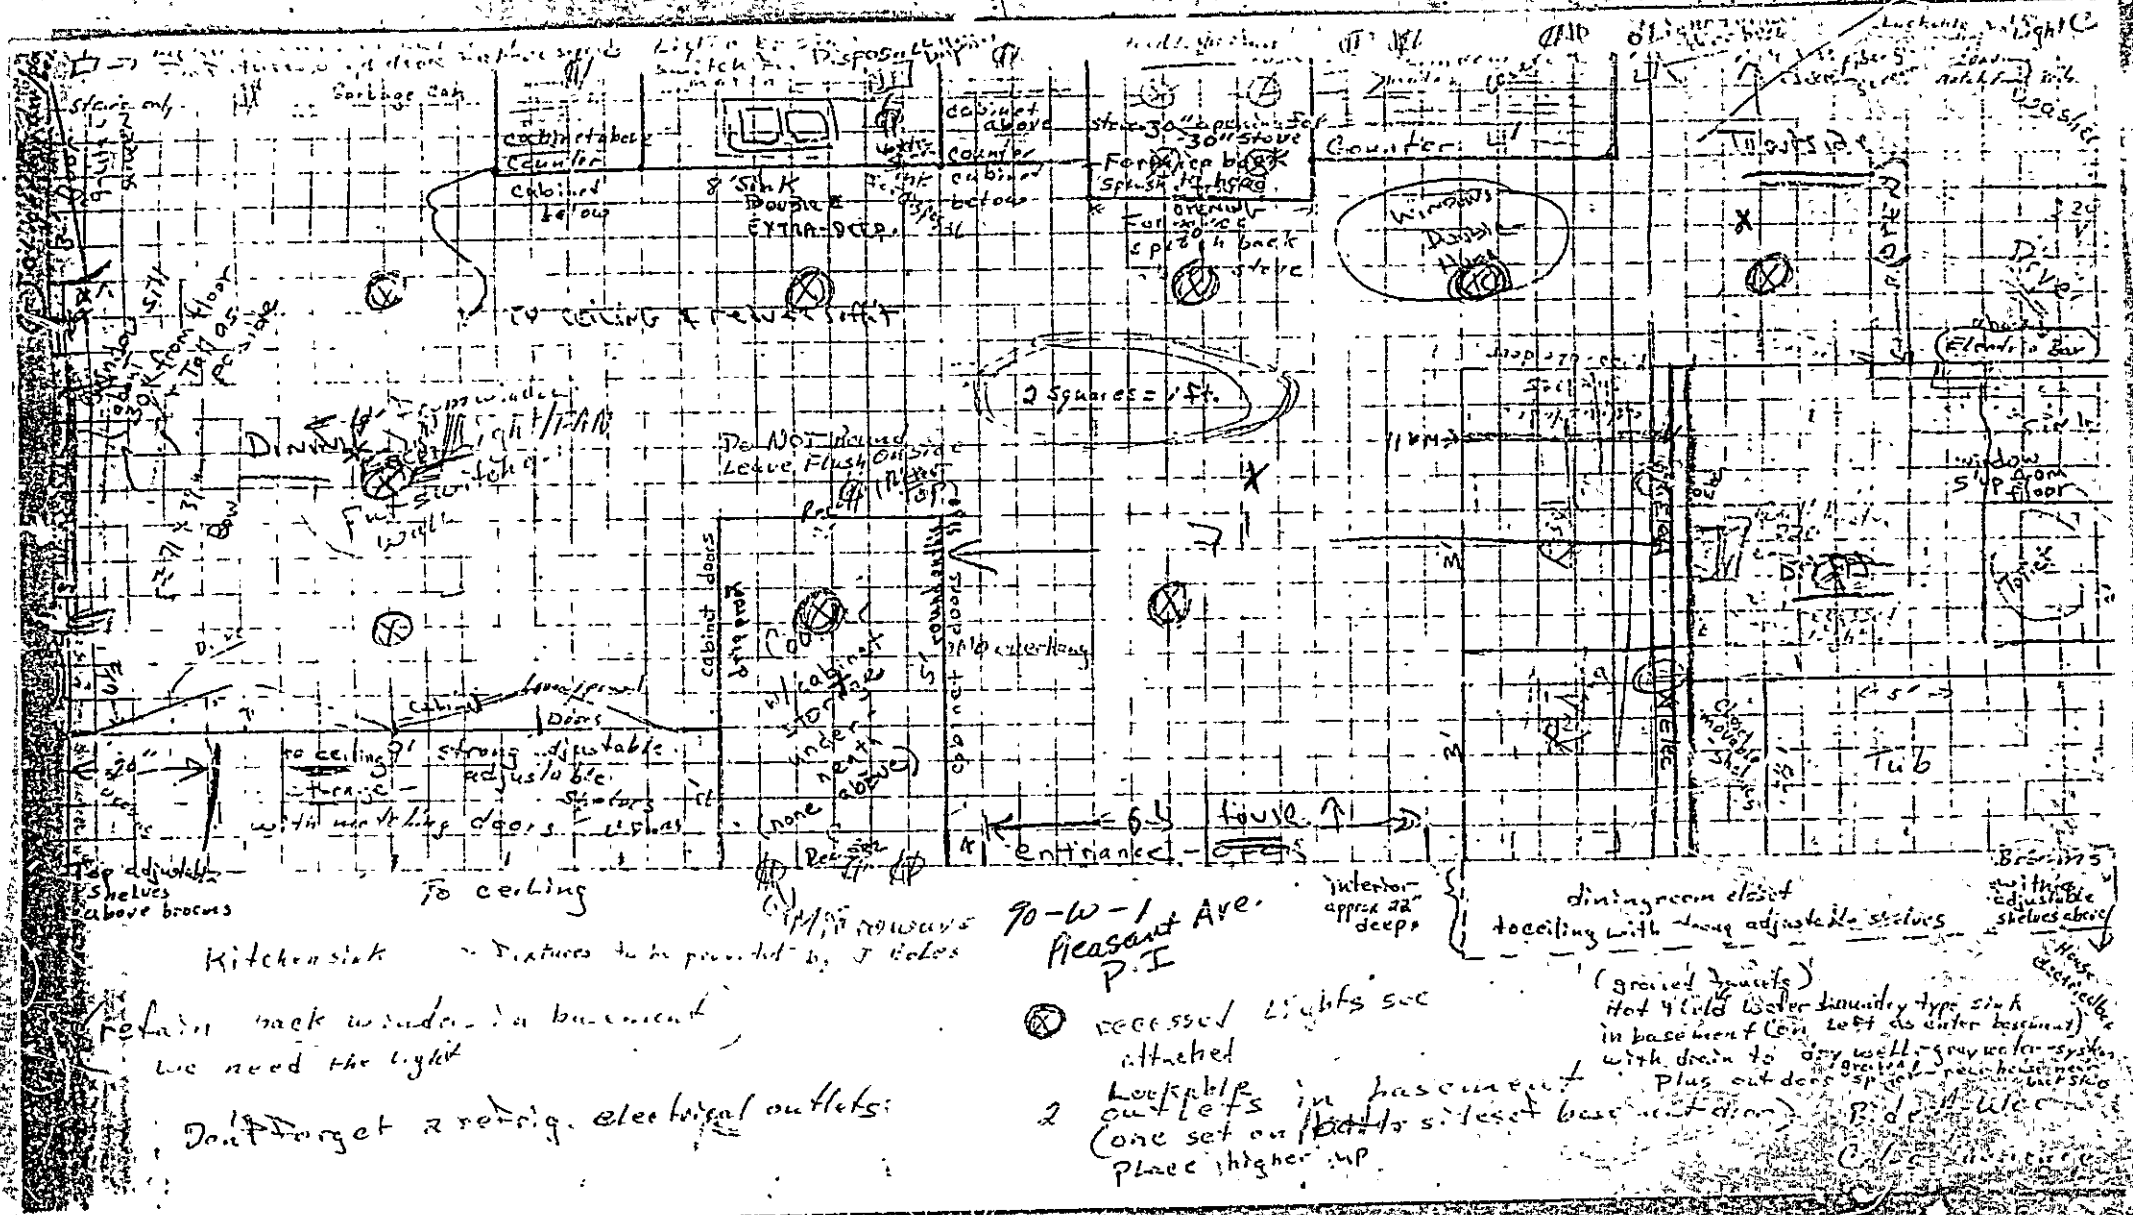

Sincerely,

Warren J. Turner  
Zoning Enforcement Inspector
