FREDA MYRTLE MITCHELL
4 CHESTER PLACE
STATEN ISLAND 4, N. Y.

December 5, 1948

Mr. Warren McDonald, Inspector of Buildings
City of Portland
Maine

Dear Mr. McDonald:

To be very honest, I don't know much about the Portland Building Code but I have every confidence in Mr. Murrell's knowledge of same; also in his ability and willingness to live up to the requirements.

Mr. Murrell has a fine memory for detail and even if he hasn't copied the sketches, I feel sure he won't forget or neglect any of the details.

As my purpose in having the alterations made is to improve the cottage, you may be sure I want the finished product to be just as solid and good looking as possible. I know Mr. Murrell will cooperate to bring about that result.

Very truly,

Freda Mitchell

Mr. Ernest L. Murrell
16 Webb Street
Freda Myrtle Marshall
4 Chester Place
Staten Island, New York

Subject: Alterations of cottage of Freda
Myrtle Marshall on Island Avenue, Peaks
Island, Assessors Lot No. 92-F-24

Dear Madam Sir:

Building permit for the above work is issued subject to the following:

Inspector Hamilton of this office has spent quite a lot of time on this job both in the office and at the cottage talking the matter over with Mr. Murrell. As a result extensive changes have been made in the application for the permit as originally filed (these changes have also been indicated on the applicant's copy of the application which has been sent to Mr. Murrell with the permit), and extensive changes have also been made on the original sketches filed here.

As far as we know Mr. Murrell has no copy of the original sketch or of the changes which have been made as the result of talking the matter over. It is evident, however, that he must bear responsibility for complying with the Building Code as to the details of framing, and I would think that he would hardly care to go ahead under that responsibility without coming to the office and copying the changes off his sketch, in fact copying the entire sketch if he does not have a copy.

We want to be as helpful as possible on this job, but our work is very pressing, and we are unable to make very many trips to the Island on this account. It will be appreciated if Mr. Murrell will do his utmost to get clear the information the way it now stands, to build accordingly and to have everything in order when he notifies Mr. Hamilton to come down and check it over.

Very truly yours,

Inspector of Buildings
