 BLOCK E
 LOT 27

Earle,

This guy came by in response to your letter. And brought in another crummy plan, so I tried to get the info you wanted. He's using all own sized members, ~~These~~

① Sill will be one piece 8" x 8" (everything 6" o.c.)

② The foundation is existing 10" down to ledge about 4' away way,

③ 4" x 4" will be used over the double hung windows and will use double jack studs (only 2 windows - no door except an existing door in the interior wall of the existing bldg)

④ He's using 8 x 12 floor joist using hangers and notching in on the ^{new} outside 8 x 8 sill.

⑤ Roof Rafters will 2 x 6 with 4 x 7 carrying timbers using hangers also

(I couldn't think of what else to ask)

If there's any question contact his wife at the number on the permit & she'll have her husband call you. (he's usually in Boston)

MCJ

July 13, 1975

42-E-27 Island Ave., Peaks Island

George Martin
Island Avenue
Peaks Island, Maine

Dear Mr. Martin:

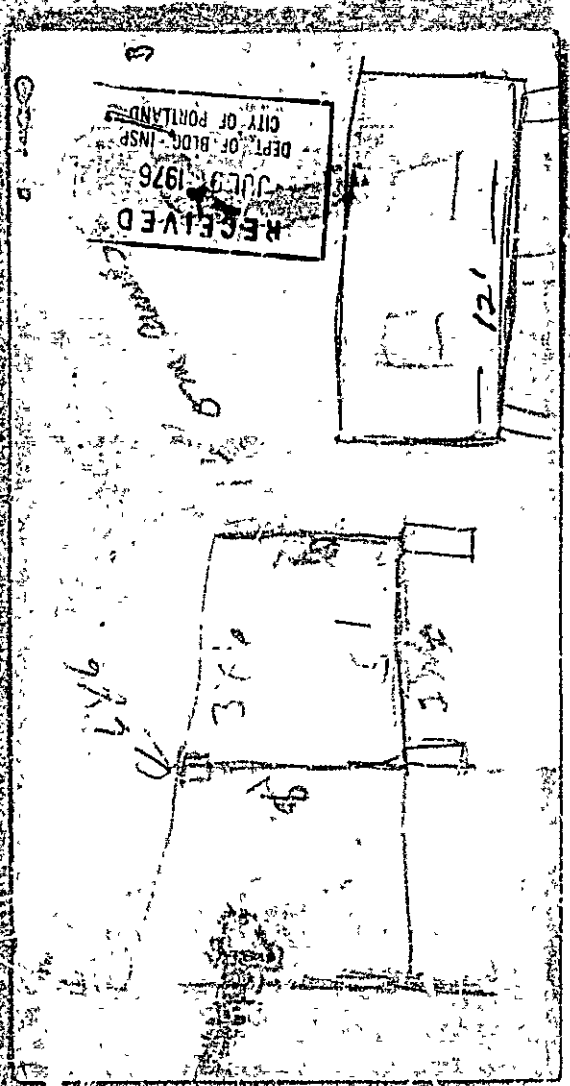

This office is unable to issue a permit to enlarge one bedroom 5' as per plans, because the plan was insufficient as to the size of the sill, size of the foundations and whether or not they extended 4' below grade or to ledge, whether or not double headers and jack studs were to be used above any windows and door openings, whether or not there were any large door or window openings which require larger headers etc.

Please draw up a plan showing the structural components of the proposed addition and send them to this office in Room 113, City Hall, and we will then be in a position to issue the permit as proposed.

Very truly yours,

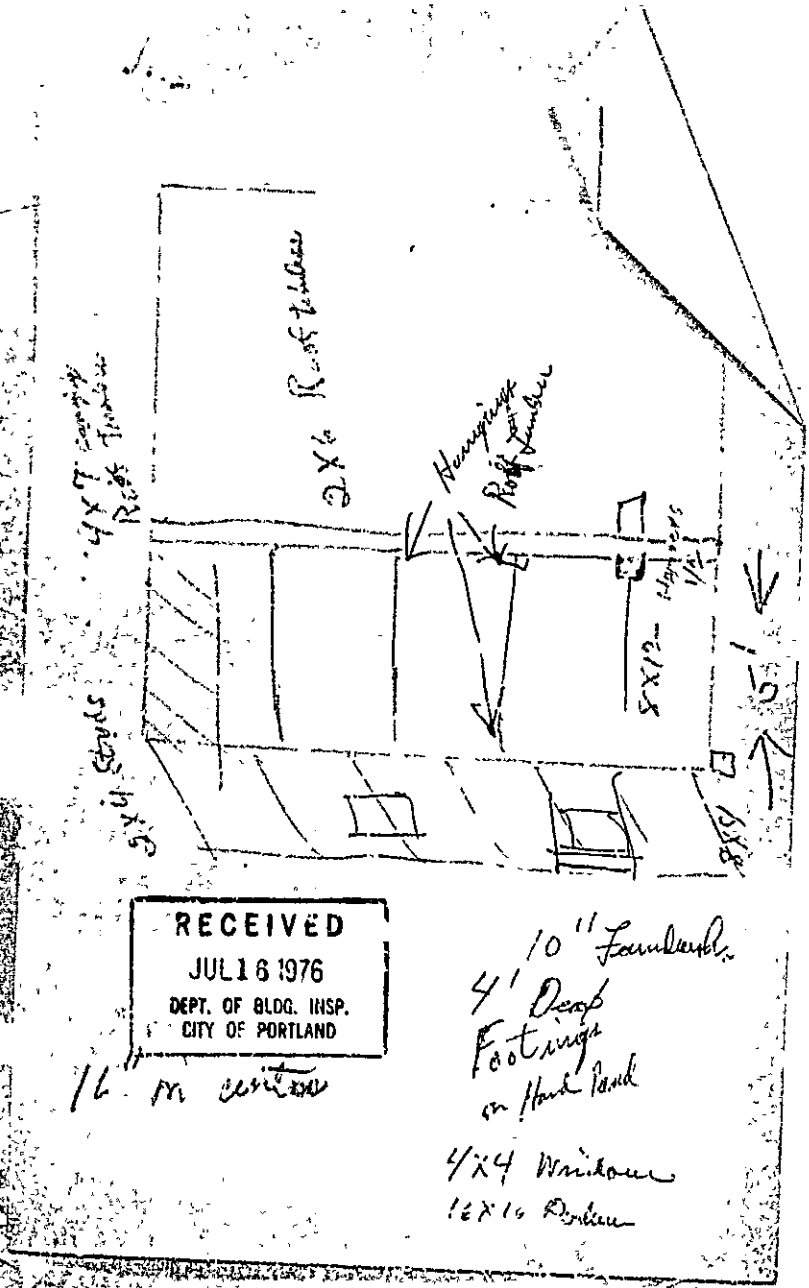

Earle S. Slith
