Building and Inspection Services Dept.: Plumbing Inspection

File: C-56-127-I

July 10, 1938

Hazel A. Tapley,
573 Congress Street,
Portland, Maine

Dear Madam:

An inspector from this office reports that there is erected on the property apparently owned by Alice H. Tapley and yourself on Pleasant Avenue, Peaks Island, a shelter largely of canvas evidently intended to shelter an automobile.

Under the Building Code such a shelter is a structure which must be classified as a building and therefore the construction or the erection of it requires a permit from this Department. A building permit for this type of structure could not be issued by the undersigned because the structure does not comply with Building Code requirements and because such a structure in the past has never received the approval of the Chief of the Fire Department, whose approval is required upon all building permits relating to garages.

Will you be kind enough therefore to have this structure completely removed on or before July 17, 1938.

Very truly yours,

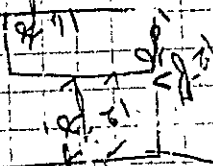

Inspector of Buildings

MCD/H
