September 27, 1976

Robert C. Howard
Cliff Island,
Maine

c.c. Duncan P. Whittaker
Island Ave.
Cliff Island, Me.

Dear Sir:

In reply to your letter of September 13, I have checked with Corporation Counsel and he advises me that first it will be necessary to go before Council to request to build on this lot due to the fact that the right of way is only 12' in width from Church Rd. This lot comes under Section 602.19L of the Zoning Ordinance which states; a lot of record as such can be considered for approval by Municipal Offices under Section 602.19P which states in part, such means of ingress and egress may be approved by Municipal Offices of the City of Portland who may permit a lesser right of way when in their opinion such lesser width adequately serves the needs of the lot.

If you desire to purchase this property, apply for a building permit with a plot plan, showing us the location of the building on this lot as well as at least one parking space 8'x18'. If no garage is proposed. We will also need a rough elevation of this building so that we can determine how many stories as well as the floor plan. We will then be able to go before the Portland City Council, and if approved, you can supply the rest of the plans and the fee.

Very truly yours,

A. Allan Soule
Assistant Director

Dear Sirs:

I am in the process of purchasing land on Cliff Island and, before completing the purchase, I request your determination that the lot meets necessary access, frontage and similar requirements for construction of a single family residence. I realize that a separate determination as to sanitary requirements would be necessary.

Number 12 on the attached map is the property in question.

Thank you
Robert C Howard

RECEIVED

OCT 25 1990

10-22-90

DEPT OF BUILDING INSPECTIONS
CITY OF PORTLAND

in writing to inform
inspections department
that the owners of the lot next to
mine on Cliff Island have completely
renovated an old cottage and built an
addition on the front with a deck,
that has no regard for the set back
requirements from the water. I asked
when they built it how they got a permit.
Since then they have built an additional
building and cleared the lot.

I realize the difficulty of
keeping track of island projects and understand
the slightly more liberal position that
must be taken. I also believe that
the set back requirements are important
to observe, at least reflect upon,
before building. The set back requirements
from the water is certainly one of
the best ways to preserve our waterfront.

Thank you for your interest
in this matter.

Sincerely, Tom Wright

Arthur,
We're going
to have to
investigate
