Rept. K1119C-I

October 17, 1938

Mr. C. M. Cobb,  
Cliff Island,  
Portland, Maine

Dear Mr. Cobb:

Enclosed is the building permit covering alterations in the all of your building on Cliff Island Avenue, Cliff Island.

You have given us no details as to how you propose to extend the walls of the building upwards about 30 inches in order to place the roof at a higher level. Needless to say, perhaps, sometimes it proves a little difficult to extend the walls of a building such a short amount, put on a pitch roof and keep the walls from going out of shape. It is the intent of the Building Code that the corner posts be securely spliced or fastened to the existing corner posts or the existing work in such a way that new corner posts will practically act together with the old. With the new studs only 30 inches long, and probably no opportunity to provide ties across the building at the new plate level to keep the pitch roof from spreading the walls, there is bound to be a certain weakness at this point. I presume you will use substantial collar beams on each pair of the new rafters as low down as possible and still give headroom on the second floor of the all to offset the tendency toward spreading. The new studs, of course, will be no more than 18 inches from center to center and the Code requires a double 2x4 plate at the tops of them all around.

Very truly yours,

W McD/H

Inspector of Buildings

STATEMENT ACCOMPANYING APPLICATION FOR BUILDING PERMIT

for alteration to dwelling house--

at Cliff Island

Date 10/15/38

1. In whose name in the title of the property now recorded? *Jessie F. Cobb*
2. Are the boundaries of the property in the vicinity of the proposed work shown clearly on the ground, and how? *down pins, Nail Holes & City Markers*
3. Is the outline of the proposed work now staked out upon the ground? *Yes* If not, will you notify the Inspection Office when the work is staked out and before any of the work is commenced? *Yes*
4. What is to be maximum projection or overhang of the building? *10 inches*
5. Do you assume full responsibility for the correctness of the location plan or statement of location filed with this application, and does it show the complete outline of the proposed work on the ground, including bay windows, porches, and other projections? *Yes*
6. Do you assume full responsibility for the correctness of all statements in the application concerning the sizes, design and use of the proposed building? *Yes*
7. Do you understand that in case changes are proposed in the location of the work or in any of the details specified in the application that a revised plan and application must be submitted to this office before the changes are made? *Yes*

*Jessie F. Cobb*
