APPLICATION FOR PERMIT

PERMIT ISSUED
01150
JUN 22 1946

Class of Building or Type of Structure Third Class

Portland, Maine, June 22, 1946

To the INSPECTOR OF BUILDINGS, PORTLAND, ME.

The undersigned hereby applies for a permit to erect ~~alter, repair, enlarge or demolish~~ all the following building, structure, equipment in accordance with the Laws of the State of Maine, the Building Code and Zoning Ordinance of the City of Portland, plans and specifications, if any, submitted herewith and the following specifications:

Location Church Road, Cliff Island Within Fire Limits? no Dist. No. _____
 Owner's name and address Edwin E. Putnam, Church Rd., Cliff Island Telephone _____
 Lessee's name and address _____ Telephone _____
 Contractor's name and address Howard Clark, Cliff Island Telephone _____
 Architect _____ Specifications _____ Plans yes No. of sheets 1
 Proposed use of building Tool shed No. families _____
 Last use _____ No. families _____

Memorandum from Department of Building Inspection, Portland, Maine
 Church Road, Cliff Island—Construction of tool shed for Edwin E. Putnam by Howard Clark,
 Builder-6/23/46

To Owner and Builder:

It is noted that you propose the "long and short" pitch style of roof as is most commonly used in poultry houses, and that the roof is quite flat. According I presume that you will use spars tie across the building or else support the ridge in the center.

Please note that this permit is issued under the Zoning Ordinance only because the tool shed is considered an accessory use commonly incident to the dwelling or cottage on the same lot. The keeping of poultry in this building or any other use which is not clearly incidental and commonly so to the dwelling on the property would not be allowable under the Zoning Ordinance unless specially authorized by the Board of Appeal after the usual appeal procedure.

CC: Mr. Howard Clark
 Cliff Island

(Signed) Warren McDonald
 Inspector of Buildings

It is understood that this permit does not include installation of heating apparatus which is to be taken out separately by and in the name of the heating contractor.

Details of New Work

Is any plumbing work involved in this work? _____ Is any electrical work involved in this work? _____
 Height average grade to top of plate 7' Height average grade to highest point of roof 8'
 Size, front _____ depth _____ No. stories 1 solid or filled land? solid earth or rock? rock

Apartment House Zone - This O.K. necessary
 demand and this is ledge and building
 will set on flat stones.

Floor joists 6" x 16" @ 6' 9" apart = $2.9 \times \frac{4}{1} = 5.8$

$1.33 \times 2 \times 103 = 120$

Should have girders there because to
 cut this to 5' apart since pref. had 9' apart
 light for use as storage.

Roof 2 x 6 - 5' apart = 11.47 O.K.
 $1.33 \times 6 \times 45 = 360$

Due to unusual shape of this roof for
 a tent house (general points; house shape) some
 methods of ties at the flat should be
 mentioned.
