AP 10, Belvedere Road-I

August 6, 1948

Porter-Burnham  
1552 Congress Street  
Mr. Robert Cleant  
10 Belvedere Road

Subject: Application for building permit to cover, on level  
of second story, bearing partition in dwelling at 10 Bel-  
vedere Road.

Gentleman:

Mr. Porter's application is very much short of sufficient information to allow me to  
bring a 6x6 girder proposed on the 11-foot span will be strong enough to support the loads.  
The only way I know of to quickly give us this information is to make a comprehensible  
clear sketch to scale showing the area of attic floor and ceiling beneath which the new  
beam must support, whether or not the ceiling will be called upon to support any part of  
a suspended ceiling, what in the way of posts will support the two ends of the 6x6 and how  
the loads from these posts will reach the ground down through the building. In prepara-  
tion of the owner and all future owners of the building, the law requires me to know all  
these details and to see that they comply with the Building Code before the permit is  
issued.

If there is any floor in the attic, the Building Code requires that we figure 20  
pounds per square foot live load on the floor unless part of the area to be supported by  
the new beam is in such a location that household storage could not be placed there. The  
fact that access to the attic will only be possible through a scuttle does not give us  
assurance, because sometimes stored material is taken up in such a place bit by bit.

The application says that these 6x6 would carry a ceiling area of 11-foot. I pre-  
sume this is in error as the span of the beam would be 11 feet and the 11 feet would be  
merely a factor of the total area. Incidentally some preliminary figures indicate that  
the 6x6 would not be nearly large enough, even if the plaster were not to be supported  
by the new beam, the beam as shown would be capable of supporting only a strip about four  
feet wide, the 11-foot length of the beam.

I have just noted Mr. Porter's notation: "Girder will be carried by plate in outside  
wall and partition cap on bearing partition. If any unusual condition is encountered, gir-  
der will receive proper bearing at each end." I have every confidence in Mr. Porter's  
thorough-going work, but we must avoid a situation at time of closing-in inspection which  
would develop unforeseen difficulties about carrying these concentrated loads under the new  
beam down through to the ground. Incidentally the information on the application would  
indicate that there are two bearing partitions at right angles, the one rather than the  
unusual.

With the large volume of complicated work that is coming into this office daily, I  
shall have to request that you furnish a comprehensive plan or sketch of the situation,  
preferably as a blueprint, so that we may be sure that you give the same information that  
has been filed here and on which the permit will be issued.

Very truly yours,

Inspector of Buildings

Memorandum from Department of Building Inspection, Portland, Maine  
10 Belmeade Road--Alterations for Mr. Robert Clement by Porter-Burnham, Builder--8/18/45

To Owner and Builder:

Mr. Porter says that he will provide adequate ties across the place where the new channel will be at frequent intervals to compensate for the removal of the partition to which the attic floor joists were fastened to form a tie across the building, and to compensate for the fact that the 2x4 attic floor joists are not to be fastened to the steel channel. Presumably the 4x6's under either end of the new steel beam are to go down to the plate or girt of outside wall or inside bearing partition or to be blocked up on the plate or girt, not bear on the floor boards.

CC: Mr. Robert Clement, 10 Belmeade Road  
Mr. W. O. Armitage, 23 Mitchell Road, South Portland

# APPLICATION FOR PERMIT

**PERMIT ISSUED**  
AUG 18 1945

Class of Building or Type of Structure third

Portland, Maine, Aug. 2, 1945

To the INSPECTOR OF BUILDINGS, PORTLAND, ME.

The undersigned hereby applies for a permit to erect alter repair demolish install the following building structure equipment in accordance with the Laws of the State of Maine, the Building Code and Zoning Ordinance of the City of Portland, plans and specifications, if any, submitted herewith and the following specifications:

Location 10 Belmead Rd. Within Fire Limits? no Dist. No. \_\_\_\_\_

Owner's name and address Robert Clement 10 Belmead Rd. Telephone \_\_\_\_\_

Lessee's name and address Porter - Burnham 1552 Congress St. Telephone 4-3206

Contractor's name and address /// Telephone \_\_\_\_\_

Architect \_\_\_\_\_ Specifications \_\_\_\_\_ Plans \_\_\_\_\_ No. of sheets \_\_\_\_\_

Proposed use of building dwelling No. families 1

Last use dwelling No. families 1

Material frame No. stories 1 1/2 Heat \_\_\_\_\_ Style of roof mansard Roofing asphalt

Other buildings on same lot \_\_\_\_\_

Estimated cost \$ 100 Fee \$ 50

### General Description of New Work

Remove second floor bearing partition, about 11' long. This is to make one large bedroom out of two small ones. 6x6 full size hemlock girder to carry ceiling area of 11' Scuttle to attic, so nothing but light storage possible in the attic. Second floor ceiling timber to be notched and nailer on girder. Girder will be carried by plate in outside wall and partition cap on bearing partition. If any unusual condition in encountered girder will receive proper bearing at each end.

*Handwritten calculations:*

$6 \times 6 \text{ on } 11' \text{ at } 11' = 1849$

$D.L. / 2 \text{ on } 11' = 13'$

$L.L. / 11' = 20$

$\frac{1849}{43} = 43 \times 11$

CERTIFICATE OF OCCUPANCY REQUIREMENT IS WAIVED

It is understood that this permit does not include installation of heating apparatus which is to be taken out separately by and in the name of the heating contractor.
