APPLICATION FOR PERMIT FOR HEATING, COOKING OR POWER EQUIPMENT

Portland, Maine, February 17, 1966

PERMIT ISSUED
FEB 18 1966
CITY OF PORTLAND

To the INSPECTOR OF BUILDINGS, PORTLAND, ME.

The undersigned hereby applies for a permit to install the following heating, cooking or power equipment in accordance with the Laws of Maine, the Building Code of the City of Portland, and the following specifications:

Location 167 Caleb St. Use of Building Dwelling No. Stories 1 New Building Existing " " Telephone

Name and address of owner of appliance Edward Berman, 167 Caleb St.

Installer's name and address Dana Aaskov 501 Summit St.

General Description of Work

To install Oil-fired forced hot water heating system (replacement)

IF HEATER, OR POWER BOILER

Location of appliance ^{First Floor} ~~Basement~~ Any burnable material in floor surface or beneath? none

If so, how protected? Front of building Kind of fuel? oil

Minimum distance to burnable material, from top of appliance or casing top of furnace. 4' From sides or back of appliance over 3'

From top of smoke pipe 12" with shield (asbestos) over 4'

Size of chimney flue 8x10 Other connections to same flue none

If gas fired, how vented? Rated maximum demand per hour yes

Will sufficient fresh air be supplied to the appliance to insure proper and safe combustion? yes

IF OIL BURNER

Name and type of burner Weil-McLain-gunt type Labeled by underwriters' laboratories? yes

Will operator be always in attendance? Does oil supply line feed from top or bottom of tank? bottom

Type of floor beneath burner concrete Size of vent pipe 1 1/4"

Location of oil storage outside underground Number and capacity of tanks 550 gal. existing

Low water shut off. Make No.

Will all tanks be more than five feet from any flame? yes How many tanks enclosed?

Total capacity of any existing storage tanks for furnace burners

IF COOKING APPLIANCE

Location of appliance Any burnable material in floor surface or beneath?

If so, how protected? Height of Legs, if any

Skirting at bottom of appliance? Distance to combustible material from top of appliance?

From front of appliance From sides and back .. From top of smokepipe

Size of chimney flue Other connections to same flue

Is hood to be provided? If so, how vented? Forced or gravity?

If gas fired, how vented? Rated maximum demand per hour

MISCELLANEOUS EQUIPMENT OR SPECIAL INFORMATION

Boiler in fire-proofed room, * on slab - no basement

Amount of fee enclosed? 2.00 (\$2.00 for one heater, etc., \$1.00 additional for each additional heater, etc., in same building at same time.)

APPROVED:

OK 2-17-66 [Signature]

Will there be in charge of the above work a person competent to see that the State and City requirements pertaining thereto are observed? YES

Permit No. 51/791
Station 161-169 Call St.
Inspector Joseph J. Gorman
Date of permit 5/12/51
Approved 10/30/51 WJH

Memorandum from Department of Building Inspection, Portland, Maine

161-169 Caleb Street--Installation of heating system and oil burning equipment
for Gerald Waxman by Harris Oil Company, installers

Before tank and piping is covered from view, installer is required to notify this department of readiness for inspection and refrain from covering the tank up until approved.

This tank of 550 gallons capacity is required to be of steel or wrought iron no less in thickness than No. 14 gauge and before installation is required to be protected against corrosion, even though galvanized, by two preliminary coats of red lead and heavy coat of hot asphalt, or equivalent.

Pipe lines connected to underground tank, other than tubing and except fill line and test wells, are to be provided with double swing joints arranged to permit the tank to settle without impairing the efficiency of the pipe connections.

Owner and installer will have to bear the responsibility for the structural capacity of the tank to support loads from above such as heavy motor trucks.

If tank will be so located as to be subjected to the action of tide water or "ground" water, adequate anchorage or weighting must be provided to prevent "floating" when tank is empty or nearly so.

Copy to: Mr. Jerry Brown
115 Millington Street
Wadsworth, Boston & Tuttle
57 Exchange Street

Dear Mr. Cormier:

As was discussed with you by telephone several weeks ago, the estimated cost of \$16,000 given in the application for construction of the proposed dwelling and garage at 169 Caleb Street appears to be rather low for the size and type of building which you plan to erect. At that time you decided that you either would come in and amend the cost given, pay the additional fee, or also would furnish an itemized statement of estimated costs supporting the figure already given. As we have heard nothing from you in this regard and as the limit of the work authorized under the advance permit for excavation and foundation is likely to be reached at any time now, we are again calling this matter to your attention in order that we may be able to issue the general construction permit in time for you to continue the work when the foundation has been completed.

For your information, the Building Code specifies that the cost of work upon which the fee is based shall represent the estimated completed cost of the entire new building or structure, including all excavations, general construction, plumbing, heating, electrical work, and all other built-in construction and equipment considered a part of the completed building. Will you not furnish the requested information at an early date?

Very truly yours,

Warren McDonald
Inspector of Buildings

AJS/G

AP 169 Caleb Street

April 30, 1951

Mr. Alfred E. Cormier,
25 Ocean Road
South Portland, Maine

Copy to Jerry Waxman,
115 William Street

Dear Mr. Cormier:

Wadsworth, Boston & Tuttle,
57 Exchange Street

General construction permit for a one family dwelling and attached garage at 161-169 Caleb Street is issued herewith based on the plans filed with the application, but subject to the following:

1. Ties for anchoring stone veneer to the masonry backing are required to be no less than wire of number six gauge spaced not over 12" vertically and 16" horizontally or equivalent.
2. It is understood that upper part of chimney is to be constructed with 4" of brickwork veneered with stone. If walls were to be made of stone throughout, they would be required to be at least 12" thick.
3. We are not aware how familiar you may be with requirements of the Building Code applying to the construction of a building such as is planned. There are many requirements of the Code which are not shown on the plans filed with the application for permit, but with which compliance must be provided nevertheless. We have no option but to require that any work done contrary to these requirements shall be made to conform even though it means additional expense; therefore in case of doubt as to requirements, it would be well for you to inquire at this office before proceeding with the part of work in question.
4. Besides the notice for inspection of forms before construction is begun, there are two other times during the course of construction of the building when notices for inspections are required. The first of these occurs after all framing and firestopping has been completed and the plumbing and electrical wiring has been installed and approved by the proper inspectors, but before any lath or wallboard is applied to walls, partitions or ceilings. If everything is found in order at this time, authorization to "close-in" the building will be given on a green tag left at the job. Again before the building is used for living quarters, notice for a final inspection is required. The certificate of occupancy, without which use of the building is unlawful, will be issued if everything is found in compliance with law at this time.

Very truly yours,

Warron McDonald
Inspector of Buildings

51/14

—ZONING— March 6, 19 51

To the Board of Appeals:

Your appellant, Gerald Waxman, who is the owner of property at 169 Caleb Street, respectfully petitions the Board of Appeals of the City of Portland to permit an exception to the regulations of the Zoning Ordinance relating to this property, as provided by Section 18, Paragraph E of said Zoning Ordinance.

Building permit to authorize construction of proposed single family dwelling house and incorporated garage at 169 Caleb Street is not issuable under the Zoning Ordinance because the front wall of the dwelling is proposed only 20' from the street line of Caleb Street (inside edge of public sidewalk) instead of the 25' required in this particular case by Section 16J of the Ordinance, since the exterior wall of the dwelling under construction on the adjoining lot is 25' from the street line.

The facts and conditions which make this exception legally permissible are as follows:

An exception is necessary in this case to grant reasonable use of property and can be granted without substantially departing from the intent and purpose of the Zoning Ordinance.

Gerald R. Waxman
Appellant

After public hearing held on the 16th day of March, 1951, the Board of Appeals finds that an exception is necessary in this case to grant reasonable use of property and can be granted without substantially departing from the intent and purpose of the Zoning Ordinance.

It is, therefore, determined that exception to the Zoning Ordinance may be permitted in this specific case.

APPLICATION FOR PERMIT

Class of Building or Type of Structure Foundation

Portland, Maine, March 1, 1951

PERMIT ISSUED
00434
MAR 27 1951
CITY OF PORTLAND

To the INSPECTOR OF BUILDINGS, FORTLAND, MAINE

The undersigned hereby applies for a permit to erect ~~also to excavate~~ the following building ~~structure~~ in accordance with the Laws of the State of Maine, the Building Code and Zoning Ordinance of the City of Portland, plans and specifications, if any, submitted herewith and the following specifications:

Location 169 Caleb Street (14-149) (Lot 4) Within Fire Limits? no Dist. No. _____

Owner's name and address Gerald Waxman, 115 William Street Telephone _____

Lessee's name and address _____ Telephone _____

Contractor's name and address Alfred Cormier, Box 2125, So. Portland Telephone 4

Architect _____ Specifications _____ Plans yes No. sheets 1

Proposed use of building dwelling house and 1-car garage No. stories 1

Last use _____ No. stories _____

Material _____ No. stories _____ Heat _____ Style of roof _____

Other buildings on same lot _____

Estimated cost \$ _____ 4,00

General Description of New Work

To excavate and construct foundation only for proposed 1-story frame dwelling house and 1-car garage.

Location plan filed with this application for advance permit shows all projections from the main walls of the building such as open or enclosed porches, outside ~~chimneys~~ chimneys, cellarway bulkheads, projecting upper story etc. Finished plans of the building are underway and will be filed with application for general construction about March 10, 1951.

It is understood that this permit does not include installation of heating apparatus which is to be taken out separately by and in the name of the heating contractor. **PERMIT TO BE ISSUED TO Alfred Cormier**

appeal sustained 3/16/51

Details of New Work

Is any plumbing involved in this work? _____ Is any electrical work involved in this work? _____

Height average grade to top of plate _____ Height average grade to highest point of roof _____

Size, front _____ depth _____ No. stories _____ solid or filled land? solid earth or rock? earth
at least 4 below grade

Material of foundation concrete Thickness, top 10" bottom 10" cellar no

Material of underpinning _____ " to sill _____ Height _____ Thickness _____

WARNING !!!

THIS BUILDING PERMIT IS ISSUED
SUBJECT TO SPECIAL CONDITION:

THAT NO CONCRETE SHALL BE POURED IN FOUNDATION FORMS AND NO
LAYING OF UNIT MASONRY IN FOUNDATION WALLS SHALL BE STARTED UNTIL
NOTICE HAS BEEN GIVEN AT THE DEPARTMENT OF BUILDING INSPECTION OF
READINESS TO START ACTUAL MASONRY WORK, AND UNTIL RE-CHECK OF
LOCATION HAS BEEN MADE BY INSPECTOR.

* * *

Original markings of corners of lot and especially stakes on
street line set by Dept. of Public Works must be kept intact and
easily accessible for re-check-- not covered by excavated earth
or building materials. Otherwise the "go-ahead" cannot be given.
Dept. of Public Works cannot re-set their stakes.

Obviously the notice for re-check must be given at such a time
as to allow reasonable opportunity to make re-check.

Warren McDonald
Inspector of Buildings

STATEMENT ACCOMPANYING APPLICATION FOR BUILDING PERMIT

for 14-169 Caledo Street
at dwelling and garage Date 3/1/51

1. In whose name is the title of the property now recorded? Gerald Waxman
2. Are the boundaries of the property in the vicinity of the proposed work shown clearly on the ground, and how? to be marked
3. Is the outline of the proposed work now staked out upon the ground? yes
If not, will you notify the Inspection Office when the work is staked out and before any of the work is commenced? _____
4. What is to be maximum projection or overhang of eaves or drip? _____
5. Do you assume full responsibility for the correctness of the location plan or statement of location filed with this application, and does it show the complete outline of the proposed work on the ground, including bay windows, porches and other projections? yes
6. Do you assume full responsibility for the correctness of all statements in the application concerning the sizes, design and use of the proposed building? yes
7. Do you understand that in case changes are proposed in the location of the work or in any of the details specified in the application that a revised plan and application must be submitted to this office before the changes are made? yes

South Portland, Maine

Copies to: Mr. Gerald Leman, 115 William Street,
Wadsworth, Boston & Tuttle
57 Exchange Street

Dear Mr. Cormier:

The appeal under the Zoning Ordinance concerning the proposed dwelling to be constructed on the lot at 161-169 Caleb Street having been sustained by the Board of Zoning Appeals, we are ready to issue the advance permit for excavation and construction of foundation only as soon as the location of the proposed building has been staked out on the ground for checking by this department and as soon as information has been furnished concerning the construction of the foundation. The plot plan filed with the application does not show sufficient information to enable us to determine whether or not the construction planned will comply with Building Code requirements. Either a plan of at least the foundation is needed to give this information or else, if the plans have been completed, they may be filed together with the application for the general construction permit, in which case it may be possible to get the latter permit issued as quickly as the advance permit, issuance of which would therefore be unnecessary.

Very truly yours,

Warren McDonald
Inspector of Buildings

Attn: Mr. Boston
57 Exchange Street

Copy to: Mr. Alfred Cormier
P. O. Box 2125, South Portland, Maine
Corporation Counsel

Gentlemen:

I have talked over the phone with both of you concerning the location of Mr. Wazman's proposed dwelling house at 169 Caleb Street, so this is a joint letter. Building permit to authorize construction of the proposed single family dwelling house and incorporated garage at 169 Caleb Street is not invariable under the Zoning Ordinance because the front wall of the dwelling is proposed only 20' from the street line of Caleb Street (inside edge of public sidewalk) instead of the 25' required in this particular case by Section 16J of the Ordinance, since the exterior wall of the dwelling under construction on the adjoining lot is 25' from the street line of Caleb Street.

Mr. Wazman has indicated his desire of seeking an exception from the Board of Appeals; so, there is enclosed to each of you an outline of the appeal procedure.

We have only the plot plan which indicates 20' from the street line to the front wall of the main building. Mr. Boston has explained that the projection of about one foot on this front wall toward the street represents a desirable architectural effect containing two chimney flues, a fireplace and a vault for fuel. There is an allowance in the Zoning Ordinance for chimneys projecting not more than two feet into a required front yard.

However, since this projection is undoubtedly a part of the exterior wall of the building and since the Ordinance in Section 16J provides that no part of an exterior wall of any building shall be located closer to the line of any street than the exterior wall closest to the same street line of any building used for habitation on an adjoining lot, I suggest that you advise and reflect in your appeal either to set this projection 20' from the street line or ask the Board in your appeal specifically to allow the projection only 19' from Caleb Street—thus to avoid misunderstandings later.

I understand from both of you that to set the building back 25' from Caleb Street in compliance with the precise terms of the Zoning Ordinance would substantially increase the cost of pipe trenches and grading etc. besides having the building set farther back from the street than the owner desires. It is also my impression that the portion of the front wall of the dwelling on the adjoining lot which is closest to Caleb Street (25' from it) is really the wall of the attached garage and that the main dwelling is much farther from Caleb Street. If these details are true, I suggest that you either mention them in your appeal or present them to the Board of Appeals as reasons at the public hearing.

Very truly yours,

WMD/G

Re: 167 Caleb St.

Dear Sir,

Your application to erect an 8' x 10' shed has been reviewed and a permit is herewith issued subject to the following requirements: This permit does not excuse the applicant from meeting applicable State and Federal laws.

1. This permit is being issued with the understanding that the wall of the proposed shed next to garage will have a one hour fire resistance rating (Building Code Section Table 705.2).
2. Your permit application plot plan shows a side yard set back of 4'. The City's Land Use Code requires a minimum of 5' to side and rear of lot lines.
3. Before placing foundation approvals from Inspection Service must be obtained. A twenty four hour notice is required prior to inspection.

If you have any questions regarding these requirements, please do not hesitate to contact this office.

Sincerely,

P. Samuel Hoffses
Chief of Inspection Services
