215-219 Bradley Street

Feb. 12, 1963

co to: Harry Carver 939 Congress Street

Wr. Roy Moserve Casco Maine

Upon checking the above dwalling today, we note the following deficiencies:

- 2. Door closer raeded on above fire door.
- Henove wood forms in besement under firoplace hearth.

When the above details are accomplished, please phone this office for a final inspection so the certificate of occupancy may be issued, as required by law.

Very truly yours,

Nelson Cartwright Field Inspector

KCim

AP - 213-219 Bradley St.

August 24, 1962

Mr. Roy O. Mecerve, Casco Maine

ce to: Harry Cerver 939 Congress St.

Dear Mr. Meserve:

Permit to construct a one-story frame dwelling 28'x46' with attached garage 16'x24' as per plans received is being issued subject to compliance with Building Code regulations as follows:

- 1. There will need to be a 1 3/h-inch solid core wood depr with self-closing device and a 6-inch raised threshold between the garage and stairs to the cellar.
- 2. Garage cills not show will need to be colid Amb-inch members.
- 3. The built-up girder for the Lally column spacing shown will need to be of in-2x10-inch Bouglas Fir mombers instead of the 3-2x10-inch mombers shown. Splices in the built-up girder will need to be made directly over the Lally columns.
- 4. The four foot wide archyays in the bearing partition will need to have a minimum of txb-inch hemlock header.
- 5. Picture window opening header may be a minimum size of 4. —inch houghes fir or a 4x8—in.hemlock member if stude are enclosed in the mullions. If stude are not exclosed in the mullions. then the header size is to be approved before a form inspection is called for.

Vory truly yours,

Gerald E. Hayberry Deputy Director of Building Irspection
