 Architect _____ Plans filed _____ No. of sheets _____
 Proposed use of building 1 car garage No. families _____
 Other buildings on same lot 1 family dwelling
 Estimated cost \$ 250.00 Fee \$.75

Description of Present Building to be Altered

Memorandum from Department of Building Inspection, Portland, Maine

189-193 Bradley--Garage for Francis Bannigan--Contr., A. W. Knight--12/26/40

To Owner and builder:

I note that the foundation wall under the garage is indicated as 6 inches thick at the top and 8 inches thick at the bottom. Such a wall is not recognized as a legal foundation wall under the Building Code. The permit is issued on this basis, however, because this work of minor building is not required by the Code to have any foundation wall. I have no doubt that with considerable care a wall as thin as this may be put in and experience no particular trouble later, but I want both owner and contractor to know that we do not believe that a wall as thin as this is the best of practice. Certainly no large stones should be used in such a thin wall.

30 Francis Bannigan, 270 Stevens Ave.

(Signed) Warren McDonald
Inspector of Buildings

It is understood that this permit does not include installation of heating apparatus which is to be taken out separately by and in the name of the heating contractor.
