City of Portland, Maine  
Board of Appeals  
—ZONING—

*Sustained  
9/2/55*

August 19, 19 55

To the Board of Appeals:

Your appellant, David Hastings, who is the owner of property at 10-14 Glenwood Avenue, respectfully petitions the Board of Appeals of the City of Portland to permit an exception to the regulations of the Zoning Ordinance relating to this property, as provided by Section 18, Paragraph E of said Zoning Ordinance.

*55/92*

Building permit for construction of single-family dwelling house with attached garage is not issuable under the Zoning Ordinance because the side yard distances are proposed to be five feet on the left-hand side facing the dwelling and six feet on the right-hand side, a total of eleven feet, instead of the minimum of fourteen feet required according to Section 18 of the Ordinance applying to the Residence Zone where this property is located.

The facts and conditions which make this exception legally permissible are as follows:

An exception is necessary in this case to grant reasonable use of property, and can be granted without substantially departing from the intent and purpose of the Zoning Ordinance.

*David Hastings*  
Appellant

After public hearing held on the second day of September, 1955,

the Board of Appeals finds that an exception is necessary in this case to grant reasonable use of property and can be granted without substantially departing from the intent and purpose of the Zoning Ordinance.

It is, therefore, determined that exception to the Zoning Ordinance may be permitted in this specific case.

**INSTRUCTIONS**

First - The applicant is to complete front of this form. The Tax and Reference as to be found on your local State Tax Bill directly following owners name and address in the center of your property for bill. Billing name and address should be copied from your water & sewer bill as well as the Portland Water District Account Number which is on the "Water Test" corner of the water and Sewer Bill.

Second - Full completed application form to:

City of Portland  
 Dept. of Public Works  
 55 PORTLAND ST.  
 Portland, Maine 04101

ATTN: MR. WILLIAM GOODWIN

Third - The Public Works Department will call the person indicated on front side to schedule pre-installation inspection. During this inspection the Public Works section of this form below will be completed. Following this inspection Public Works will make copies of the application form. If the application is approved 3 copies will be made, one will be mailed to the Portland Water District, one will be forwarded to the City Planning Inspector and one will be mailed back to the Applicant. If the application is denied, one copy will be made and mailed to the applicant showing reason for denial.

Fourth - Upon receipt of a copy of the approved application, the applicant can purchase and install the sub-meter as approved. Following installation the applicant or his plumber must call the Chief Plumbing Inspector at 275-6433 Ext. 604 for an inspection of the completed installation. Following inspection by the Chief Plumbing Inspector, the Water District will be notified to test the sub-meter and arrange to have an automatic reading system installed if applicable. For General Information (SPL) distributed where by the name shown by the submeter will be credited on the Sewer User Charge of the Bill.

353

**GENERAL INFORMATION**

Section 10 of the "Municipal Code of the City of Portland, Maine" reads as follows:

"Measurement of water supply. Any person who feels that recorded water meters are not a reliable index of his discharge volume may install an additional water meter of a type approved by the Director to measure the volume of water which can be shown not to enter the sewerage system. The person installing such a meter shall immediately notify the Director of such installation and shall be responsible to the Director for removing meter readings not less often than every three months. Such person shall be credited with the volume charges for the volume shown by such meter, which meter shall be available for reading by the City or its agents at all reasonable times."

The City and the District have arranged to relieve the customer from the recording responsibility required above if both meters can be read simultaneously by the District Meter Readers during their regularly scheduled visits to read the pre-existing service meter. This can be accomplished by locating the sub-meter directly adjacent to the pre-existing service meter or by equipping the sub-meter located elsewhere with a remote reading register located so both readings can be read at the same time.

Approved meters are, Neptune and Actwell meters, conforming to the following specifications:

1. shall meet or exceed ANSI accuracy test requirements and be accompanied by a certificate of test accuracy.
2. the meters will have straight reading, cyclic float registers.
3. the meters will have the meter number stamped into the main case.
4. the meters shall be magnetic drive.
5. shall have either a rotating disc or oscillating piston.
6. shall have a bronze case.

Approved meters are available from the Water District, which sells them for the price the District buys them from the manufacturers. If you wish to purchase a sub-meter from the District you must bring your copy of an approved application with you at time of purchase.

**TO BE COMPLETED BY PUBLIC WORKS**

Pre-installation inspection by FRANK BRANCELY  
 on APRIL 19, 1985
