Rept. 2858C-I

138-144

September 20, 1938

Ballard Oil & Equipment Co.  
353 Cumberland Avenue,  
Portland, Maine

Gentlemen:

For reasonable safety we recommend a second high limit aquastat between the flow valve and the boiler in connection with the oil burner which you are installing in the forced hot water heating system for Maine Savings Bank at 138 Beacon Street, this additional aquastat to be on duty in case of failure of the service aquastat, since, in such systems the room thermostat does not control the oil burner either directly or indirectly.

There have been cases where the service aquastat has failed.

Very truly yours,

WlcD/H  
CC: Maine Savings Bank  
244 Middle Street
