Memorandum from Department of Building Inspection, Portland, Maine  
224 Doyle St.—alteration of porch for Joseph India by Samuel Scott & Co., Builders  
6/27/46

To Owner and Builders:

The blue print filed is marked over and quite illegible, but I understand that foundation below grade of the ground is to be a concrete wall (a trench wall without excavation behind it) 6 inches thick at surface of ground and 16 inches thick at bottom which will be 4 feet below the surface of brick underpinning. Similar foundation to be provided beneath new steps.

The permit is issued on that basis.

Joseph India,  
224 Doyle St.

Inspector of Buildings
