Appeal to the Municipal Officers to Change the Decision of the

Inspector of Buildings Relating to the Property Owned

by James F. Riley

at 6 Arlington Place

125-N-17

July 17, 19 40

To the Municipal Officers:

Your appellant, James F. Riley

who is the owner of property at 6 Arlington Place

respectfully petitions the Municipal Officers of the City of Portland to change the decision of the Inspector of Buildings relating to this property, as provided by Section 14, Paragraph d of the Zoning Ordinance, on the ground that the enforcement of the ordinance in this case involves unnecessary hardship and because relief may be granted without substantially derogating from the intent and purpose of the Zoning Ordinance.

The decision of the Inspector of Buildings denies a permit to construct two-story additions, one on either side of the rear all, thus making the dwelling house approximately square because the new work would be closer to the rear property line than ordinarily allowable under the precise terms of the Ordinance in the General Residence Zone where the property is located.

The reasons for the appeal are as follows: The appellant owner finds it necessary and desirable to make the dwelling house larger and the only feasible way of doing it is to build these projections toward the rear property line. It is his belief that the proposed additions would not interfere with light and air or increase fire hazard to the neighboring property.

PUBLIC HEARING ON THE APPEAL UNDER THE ZONING ORDINANCE OF JAMES F. RILEY
AT 6 ARLINGTON PLACE

August 2, 1940

A public hearing on the above appeal was held before the Committee on Zoning and Building Ordinance Appeals today. Present for the city were Councillors Eskilson, Ward and Martin and the Inspector of Buildings.

Mr. Riley appeared in support of his appeal and there were no opponents present.

, that the appeal under the Zoning Ordinance of James F. Riley at 8 Arlington Place, relating to the construction of two-two story rear additions on the existing dwelling house on this property contrary to the precise terms of the Ordinance in the General Residence Zone where the property is located, be sustained conditionally and that a building permit be granted to said appellant, subject to full compliance with all terms of the Building Code not involved in this appeal, and subject to the condition that the appellant shall ~~agree on the application for the permit to provide and~~ shall provide adequate roof drainage facilities for the proposed new additions, so that water from these roofs will not under any circumstances run upon the adjoining property or so as to do damage to this or any other building;

BECAUSE enforcement of the Ordinance in this specific case would cause unnecessary hardship by needless interference with the improvement of the property; and desirable relief may be granted without substantially derogating from the intent and purpose of the Ordinance in that the location of the proposed additions would not increase fire hazard to or interfere with light and air of the neighboring property.

August 5, 1940

To The Municipal Officers:

The Committee on Zoning and Building Ordinance Appeals to which was referred the appeal under the Zoning Ordinance of James F. Riley at 6 Arlington Place, relating to the construction of two-two story additions contrary to the precise terms of the Ordinance in the General Residence Zone where the property is located, reports that the appeal ought to be sustained conditionally.

July 30, 1940

To The Municipal Officers:

The Committee on Zoning and Building Ordinance Appeals of the Municipal Officers will hold a public hearing at the Council Chamber, City Hall on Friday, August 2, 1940 at two o'clock in the afternoon upon the appeal under the Building Ordinance of James F. Riley relating to alterations in the dwelling house at 8 Arlington Place.

The appellant desires to construct two two story additions one on either side of the rear all of the existing dwelling house, but the Inspector of Buildings was unable to issue the building permit therefor because the new work is proposed closer to the rear property line than ordinarily permitted under the precise terms of the Zoning Ordinance in the General Residence Zone where the property is located.

Notices of public hearing on such an appeal are not required by law, but it is the policy of the Appeal Board to send notices of such a public hearing to owners whose property seems to be so located with relation to the work proposed as to afford possibility of interest in the appeal. The property having such a location in this case appears to be that at 88-102 Woodford Street and that at 104-108 Woodford Street, both of these lots having the rear line in common with the Riley lot.

All persons interested either for or against this appeal will be heard at the above time and place.
