Re: Smoke Detectors

Dear Mr. Toohey:

During a recent inspection of the property owned by you at 514 Deering Avenue, it was noted that smoke detectors were missing in the following areas:

1. Apartment B
2. Interior hallway.
3. Several units were not available at the time of this inspection. If they need smoke detectors, install them when you install Apartment B and the hallway.

25 MRSa §2464 requires that approved smoke detectors be installed in each of the above listed areas. Failure to comply with this statute may result in a fine of up to \$500 for each violation.

Re-inspection of your property will be made in ten (10) days. Lack of compliance will result in referral of the matter for legal action.

Dear Mrs. Touhey:

This is in further reference to the previous letters sent concerning the authorized number of apartments approved by the City for 514 Deering Avenue. The records show that there are eight (8) apartment units which existed in 1955 and are therefore "grandfathered" and recognized by the City of Portland.

No change of use is indicated in our records for a change from 6 apartments to nine apartments. Attempts to obtain a space and bulk variance for this change in the number of apartments failed to receive approval by the Board of Appeals in 1956 and again in 1984 or thereafter.

The City of Portland's records do not recognize the building at 514 Deering Avenue as other than an eight (8) apartment building. No record of approval for the ninth apartment can be found in our records.

Sincerely,

Warren J. Turner
