VANNAH AVENUE

AP 88-92 Vannah Avenue-1

March 24, 1948

Benson & Grant
19 Vannah Avenue
Portland, Maine

Subject: Permit for construction
of new dwelling and attached
garage at 88-92 Vannah Avenue

Gentlemen:

The permit for the above work is issued herewith subject to the following:

1. In order that that the sum of the two side yards may be provided at sixteen feet, the distance required by the Zoning Ordinance in the Residence A Zone where the property is located, you have notified us that you plan to make the overall width of house 34' instead of 35' and the width of the attached garage 10' instead of 11'. Thus on this 60' lot, a total width of 16' will remain unoccupied, with the easterly wall of the dwelling five feet and the westerly wall of the attached garage eleven feet from the respective lot lines. The location plan and application have accordingly been changed to show these dimensions and the permit is issued on this basis.

2. The 2x4 rafters—24" for the garage will not figure out if the roof is to pitch toward the front and rear walls as seems likely. No less than 2x6, 24" on centers are required if pitch of roof is to be over 4" to the foot.

Very truly yours,

Inspector of Buildings

AJS/S

P.S. When forms have been erected and before concrete is poured, please notify us so that we may check the location on the lot.
